

BRIEFING PAPERS

Council Members' Briefing Session

Draft Only

6:00pm, 29 November 2022
Council Chamber (Level 1), Civic Centre,
23 Dundobar Road, Wanneroo

wanneroo.wa.gov.au

PROCEDURE FOR FULL COUNCIL BRIEFING SESSION

PRINCIPLES

A Council Briefing occurs a week prior to the Ordinary Council Meeting and provides an opportunity for Council Members to ask questions and clarify issues relevant to the specific agenda items before council. The Briefing is not a decision-making forum and the Council has no power to make decisions. The Briefing Session will not be used, except in an emergency, as a venue or forum through which to invoke the requirements of the *Local Government Act 1995* and call a Special Meeting of Council.

In order to ensure full transparency the meetings will be open to the public to observe the process. Where matters are of a confidential nature, they will be deferred to the conclusion of the Briefing and at that point, the Briefing Session closed to the public. The reports provided are the Officers' professional opinions. Whilst it is acknowledged that Council Members may raise issues that have not been considered in the formulation of the report and recommendation, it is a basic principle that as part of the Briefing Sessions Council Members cannot direct Officers to change their reports or recommendations.

PROCESS

The Briefing Session will commence at 6.00pm and will be chaired by the Mayor or in his/her absence the Deputy Mayor. In the absence of both, Councillors will elect a Chairperson from amongst those present. In general, the *Standing Orders Local Law 2008* will apply, EXCEPT THAT Council Members may speak more than once on any item, there is no moving or seconding items, Officer's will address the Council Members and the order of business will be as follows:

Members of the public present may observe the process and there is an opportunity at the conclusion of the Briefing for a Public Question Time where members of the public may ask questions (no statements) relating only to the business on the Agenda. The Agenda will take the form of:

- Attendance and Apologies
- Declarations of Interest
- Reports for discussion
- Tabled Items
- Public Question Time
- Closure

Where an interest is involved in relation to an item, the same procedure which applies to Ordinary Council Meetings will apply. It is a breach of the City's Code of Conduct for an interest to not be declared. The Briefing Session will consider items on the Agenda only and proceed to deal with each item as they appear. The process will be for the Mayor to call each item number in sequence and ask for questions. Where there are no questions regarding the item, the Briefing will proceed to the next item.

AGENDA CONTENTS

While every endeavour is made to ensure that all items to be presented to Council at the Ordinary Council Meeting are included in the Briefing Session papers, it should be noted that there will be occasions when, due to necessity, items will not be ready in time for the Briefing Session and will go straight to the full Council Agenda as a matter for decision. Further, there will be occasions when items are TABLED at the Briefing Session rather than the full report being provided in advance. In these instances, staff will endeavour to include the item on the Agenda as a late item, noting that a report will be tabled at the agenda Briefing Session.

AGENDA DISTRIBUTION

The Council Briefing Session Agenda will be distributed to Council Members on the FRIDAY prior to the Council Briefing Session. Copies will be made on the City's website for interested members of the public. Spare Briefing Session papers will be available at the Briefing Session for interested members of the public.

RECORD OF BRIEFING

The formal record of the Council Briefing Session will be limited to notes regarding any agreed action to be taken by staff or Council Members. No recommendations will be included and the notes will be retained for reference and are not distributed to Council Members or the public.

LOCATION

The Council Briefing Session will take place in the Council Chamber at the Civic Centre.

DEPUTATIONS

During the Briefing Session, members of the public may, by appointment, present a Deputation relating to items on the current Briefing Session Agenda. A maximum of up to ten minutes (dependent on the number of deputations received) is permitted for each deputation with up to three people to address the Council Members.

Please note that Deputation requests are to be received by no later than **9:00am** on the day of the Briefing Session, and must relate to an item on the current Briefing Session Agenda.

[Deputation online form](#)

Please note:

- Deputation requests must relate to items listed on the current Briefing Session Agenda;
- A Deputation is not to exceed three speakers in number and only those speakers may address the Council Members; and
- Speakers of a Deputation will collectively have a maximum of up to 10 minutes (dependent on the number of deputations received) to address the Council Members, unless an extension of time is granted.

Please ensure mobile phones are switched off before entering the Council Chamber.

For further information please contact Council Support on 9405 5000

RECORDING AND ACCESS TO RECORDINGS OF COUNCIL MEETINGS POLICY

Objective

To ensure there is a process in place to outline the access to recorded Council Meetings.

To emphasise that the reason for recording of Council Meetings is to ensure the accuracy of Council Meeting Minutes and that any reproduction of these Minutes are for the sole purpose of Council business.

Implementation

This Policy shall be printed within the Agenda of all Council Meetings which include:

- Ordinary Council Meeting;
- Special Council Meeting;
- Annual General Meeting of Electors;
- Special Electors Meeting; and
- Briefing Sessions.

To advise the public that the proceedings of the meeting are recorded.

Evaluation and Review Provisions

Recording of Proceedings

1. Proceedings for Meetings detailed in this policy; as well as Deputations and Public Question Time during these meetings shall be recorded by the City on sound recording equipment, except in the case of a meeting where Council closes the meeting to the public.
2. Notwithstanding subclause 1, proceedings of a Meeting, which is closed to the public, shall be recorded where the Council resolves to do so.
3. No member of the public is to use any audio visual technology or devices to record the proceedings of a Meeting, without the written permission of the Mayor or the Mayors Delegate.

Access to Recordings

4. Members of the public may purchase a copy of the recorded proceedings or alternatively, listen to the recorded proceedings at the Civic Centre online if the recording is published on the City of Wanneroo website. Costs of providing a copy of the recorded proceedings to members of the public will include staff time to make the copy of the proceedings; as well as the cost of the digital copy for the recording to be placed on. The cost of staff time will be set in the City's Schedule of Fees and Charges each financial year.
5. Council Members may request a copy of the recording of the Council proceedings at no charge.
6. All Council Members are to be notified when recordings are requested by members of the public, and of Council.
7. COVID-19 Pandemic Situation
During the COVID-19 pandemic situation, Briefing Sessions and Council Meetings that are conducted electronically, will be recorded. The CEO is authorised to make a broadcast of the audio recording of such meetings accessible to the public, as soon as practicable after the meeting.
8. Briefing Sessions and Council Meetings that are recorded. The CEO is authorised to make a broadcast of the audio recording of such meetings accessible to the public, as soon as practicable after the meeting.

A G E N D A

Good evening Councillors, staff, ladies and gentlemen, we wish to acknowledge the traditional custodians of the land we are meeting on, the Whadjuk people. We would like to pay respect to the Elders of the Nyoongar nation, past and present, who have walked and cared for the land and we acknowledge and respect their continuing culture and the contributions made to the life of this city and this region.

Item 1 Attendances

Item 2 Apologies and Leave of Absence

Item 3 Deputations

Item 4 Reports

Declarations of Interest by Council Members, including the nature and extent of the interest. Declaration of Interest forms to be completed and handed to the Chief Executive Officer.

Issue

To consider the annual review of cost estimates for the Yanchep-Two Rocks Development Contribution Plan (DCP).

Background

Amendment No. 122 to District Planning Scheme No. 2 (DPS2) was gazetted in September 2014 and introduced the DCP provisions into DPS2. In April 2015, Council adopted the DCP Report and Cost Apportionment Schedule (PD07-04/15), which applies to the Development Contribution Area (DCA) – Refer **Attachment 1**.

The DCP is subject to an annual review requirement to ensure that the cost contribution amount is correctly set to ensure the collection of sufficient funds to cover the cost of approved infrastructure items over the life of the DCP.

The DCP identifies various community facilities and provides estimates on the total cost, estimated contributions and the timing for the delivery of infrastructure within the Yanchep-Two Rocks area. The infrastructure costs include planning, design, project management costs, site servicing, construction costs and land acquisition costs associated with the following infrastructure:

- Yanchep Surf Life Saving Club;
- Yanchep District Open Space; and

- Capricorn Coastal Node Facilities.

The DCP was originally gazetted in 2014 and has an operation period of 16 years (2030). During this time period the City is required to review the various elements of the DCP at one and five year intervals as per the following:

Annually

- DCP Cost Estimates;
- DCP Cost Indexation;
- Dwelling Estimates; and
- Cost per Dwelling.

5-yearly

- Community Facility Plan (CFP) Assumptions and Recommendations; and
- Full DCP Review.

At the Ordinary Council Meeting on 11 October 2022 (PS03-10/22), Council considered the DCP Annual Review for the 2022-2023 year period and resolved to advertise the revised cost estimates for a period of 28 days. The Annual Review recommended the following:

- An increase in the total infrastructure costs from \$27,931,551 to \$28,427,551 (net infrastructure cost is \$26,162,218 excluding grants contribution);
- An increase in the cost per dwelling from \$3,909.23 to \$4,287.83;
- An increase in the total municipal portion of the net infrastructure costs from 33.52 % to 33.57% (\$8,603,735 to \$8,781,438);

Consultation was undertaken for a minimum period of 28 days in accordance with DPS2 and concluded on 16 November 2022.

Detail

The Annual Review includes all costs to 30 June 2022 (audited expenditure) and the estimated remaining DCP costs, which only applies to the Capricorn Coastal Node Facility, as the District Open Space and Surf Lifesaving Club have already been completed.

The full Yanchep-Two Rocks DCP Report for 2022-2023 (refer **Attachment 2**) has been updated with the revised cost estimates and Capital Expenditure Plan (CEP). The below table depicts any changes in the costs associated with each item of infrastructure.

Figure 1 – Updated Cost Estimate for the Capricorn Coastal Node Facility

Facility	Status	2021/2022 Annual Review	2022/2023 Annual Review	Difference
Yanchep Surf Life Saving Club	Completed	\$7,938,238	\$7,938,238	\$0
Yanchep District Open Space				
- Land	Completed	\$6,530,040	\$6,530,040	\$0
- Oval groundworks	Completed	\$2,873,996	\$2,873,996	\$0
- Oval landscaping	Completed	\$5,318,646	\$5,318,646	\$0
- Pavilion	Completed	\$2,776,631	\$2,776,631	\$0
Capricorn Coastal Node Facilities	Pending	\$2,494,000	\$2,990,000	\$496,000
TOTAL		\$27,931,551	\$28,427,551	\$496,000 (Increase)

Capricorn Coastal Node Facilities

The coastal node cost estimates reflect the original infrastructure defined in the DCP. These works are based on a 'template' coastal node; and includes footpaths, roads, paved areas, drainage, lighting, fencing, gates, outbuildings and covered walkways. The estimated costs have increased by 19.9% from \$2,494,000 to \$2,990,000, as recommended by the quantity surveyor DCWC to reflect the current market rates (refer **Attachment 3**).

The landowner, Capricorn Village Joint Venture (CVJV) has obtained development approval from the Western Australian Planning Commission (WAPC) to construct the beach activity within the foreshore area. The design and cost elements are likely to have changed from the original template design, so it will be necessary for Administration, in consultation with the landowners, to review the scope of works that can be claimed.

Administration has initiated discussions with CVJV to consider the scope of works that can be reasonably included, with consideration for the original scope of the DCP infrastructure. CVJV has advised the City that the Coastal Node Facility works are underway and that the works are due for completion in the 2023/24 financial year period. Upon completion of the works and verification of the expenditure, the actual expenditure will be credited or reimbursed to the landowner from the DCP and municipal accounts with these costs reflected in the annual review as an actual cost.

Administration costs

In accordance with Schedule 15 of DPS2 the following administration costs are proposed to be charged to the DCP:

- Costs to prepare and administer the plan during the period of operation;
- Costs to prepare and review estimates;
- Costs to prepare the cost apportionment schedule;
- Valuation costs; and
- Costs to service loans established by Council to fund early provision of facilities.

The City has continued to utilise the original cost estimate for administering the DCP of \$70,500 per annum, which is consistent with the average of the previous year's actual expenditure since the approval of the DCP.

The administration costs are estimated for the remaining operational period of the DCP from 1 July 2022 to 8 September 2030, which equates to a remaining estimated cost of \$577,521. It should be noted that the Administration costs are estimates only and that the City charges the DCP for actual administration costs, which is disclosed as part of the City's Annual Financial Statements.

Loans to fund infrastructure

On behalf of the DCP, the City has progressively borrowed funds to the amount of approximately \$13.5 million. These loans were required to fund the completion of the Yanchep Surf Lifesaving Club and the acquisition and development of Splendid Park. Borrowing was necessary to comply with the delivery commitments made between the landowners and the City and was a consequence of lower than estimated lot yields, resulting in less than anticipated contributions in the early stages of the DCP operation period. The future interest costs have increased from \$2,404,571 to \$3,265,609, which reflects the total estimated loan servicing cost for the life of the DCP with the repayment of the principal borrowing occurring at the end of the operational period. The increase is primarily due to increases in the variable rate interest that applies to the borrowing.

It is noted that the loan servicing costs have increased from approximately \$260,000 to \$398,000 per annum since the last review, however if lot creation increases then the loan may

be repaid sooner and the extent of interest payable would reduce. Any future reduction in the principal and the associated loan repayment costs will be reflected through the Annual Review process.

Cost Apportionment and Contribution Rates

The methodology for calculating cost contributions is set out in DPS2 and requires the cost contributions to be calculated based on the relative need generated by new dwellings. The City's contribution towards the total cost of facilities is based on the number of existing dwellings (existing demand prior to the creation of the DCP) of 3,089 dwellings and expressed as a proportion of the total estimated dwellings over the operational period of the DCP.

The total estimated lot yield is based on the ID Forecast projections and in effect, the lower the total estimated lot yield the higher the cost per lot and the higher the City's proportion of the total cost. This methodology reflects the principles of *State Planning Policy 3.6 – Infrastructure Contributions* (SPP 3.6) which refers to a need and nexus of costs and the principle that the user pays.

For the 2022-2023 Annual Review the estimated lot yield and actual lot creation is consistent, with only a minor decrease in the total estimated lot yield from 9,215 to 9,203. This translates to a minor increase in the City's portion of the cost from 33.52 % to 33.57% (\$8,603,735 to \$8,781,438) and an increase in the DCP contribution rate from \$3,909.23 to \$4,287.83 per dwelling (i.e. an increase of \$378 per lot).

Consultation

In accordance Schedule 14 of DPS2, where the review of estimated costs recommends those costs be increased, then the local government must advertise the review for a minimum period of 28 days, prior to making a decision to increase the estimated costs.

In accordance with DPS2, the Annual Review was advertised from 18 October to 16 November 2022. Advertising included letters to landowners within the DCP area, with additional information made available at the Civic Centre and on the City's website.

No submissions were received during advertising.

Comment

The DCP is subject to an annual review process to ensure that the cost contribution amount is correctly set to ensure the collection of sufficient funds to cover the cost of approved infrastructure items over the life of the DCP.

The majority of community infrastructure has now been completed, with the exception of the Capricorn Coastal Node works and the remaining loan servicing and administration costs. The increase in the cost per dwelling from \$3,909.23 to \$4,287.83 is primarily due to the \$496,000 increase in the estimated cost for the Capricorn Coastal Node and the loan servicing costs for the infrastructure that has already been completed.

The DCP has been annually reviewed and the Annual Review for 2022/2023 were audited by the City's external auditors (William Buck) and a copy of their findings has been included as **Attachment 4**. The audit opinion concluded that the DCP costs incurred, estimated for remaining development works, and proposed cost per dwelling rate of \$4,287.83 were fairly stated and in compliance to DPS2 and SPP 3.6.

On the basis that no submissions were received during the consultation period, Administration recommends that Council approves the Annual Review as advertised and depicted in **Attachment 1**.

Statutory Compliance

The Annual review of the DCP is prescribed by Part 11 of Schedule 14 of DPS No. 2. In accordance with clause 11.6, where the review of estimated costs recommends those costs be increased, then the City must in writing invite comment on the proposal from owners for a period of not less than 28 days, prior to making any decision to increase the estimated costs.

Whilst no submissions were received, landowners may object to the amount of a cost contribution and request a review by an independent expert. If this does not result in the cost contribution being acceptable then a determination may be made through a process of arbitration.

Strategic Implications

The proposal aligns with the following objective within the Strategic Community Plan 2021 – 2031:

- 5 ~ A well planned, safe and resilient City that is easy to travel around and provides a connection between people and places*
5.1 - Develop to meet current need and future growth

Risk Appetite Statement

In pursuit of strategic objective goal 5, we will accept a Medium level of risk, extended to High in the areas of Community / Reputation & Financial / Commercial impacts. Shifting transport modes and usage in the City may require short term pain for longer term gain as the City supports the development, maintenance and connection of alternatives to car use (e.g. cycle ways) and the supporting infrastructure.

Risk Management Considerations

Risk Title	Risk Rating
ST-G09 Long Term Financial Plan	Medium
Accountability	Action Planning Option
Director Corporate Strategy & Performance	Manage

Risk Title	Risk Rating
ST-S23 Stakeholder Relationships	Low
Accountability	Action Planning Option
Director Corporate Strategy & Performance	Manage

Risk Title	Risk Rating
CO - O17 Financial Management	Medium
Accountability	Action Planning Option
Director Corporate Strategy & Performance	Manage

The above risks relating to the issue contained within this report have been identified and considered within the City's Strategic and Corporate Risk Registers. The annual review of the DCP assists in addressing the impacts of the strategic risk relating to Long Term Financial Planning as it ensures that appropriate budget monitoring, timing and provisions are considered. The strategic risk relating to Stakeholder Relationships applies as a key element in the DCP review process to maintain effective engagement with relevant stakeholders. In addition, the Corporate Risk relating to Financial Management would apply as awareness of financial policies and financial management at unit level will be maintained to promote accountability by business owners and an integrated approach to risk assurance.

Policy Implications

Nil

Financial Implications

The recommendations of the Annual Review were audited by the City's external auditors (William Buck) and a copy of their findings has been included as **Attachment 4**. The audit opinion concluded that the DCP costs incurred, estimates for remaining development works, and proposed rate of \$4,287.83 were fairly stated and in compliance to DPS2 and SPP 3.6.

The City will continue to monitor lot yield creation, interest rates and the remaining cost estimates associated with the Capricorn Coastal Node to ensure adequate funds are received to complete the works and meet the borrowing requirements of the DCP.

It is anticipated that the City will revise the remaining cost estimates based on the detailed design and will include these costs into the next Annual Review.

Voting Requirements

Simple Majority

Recommendation

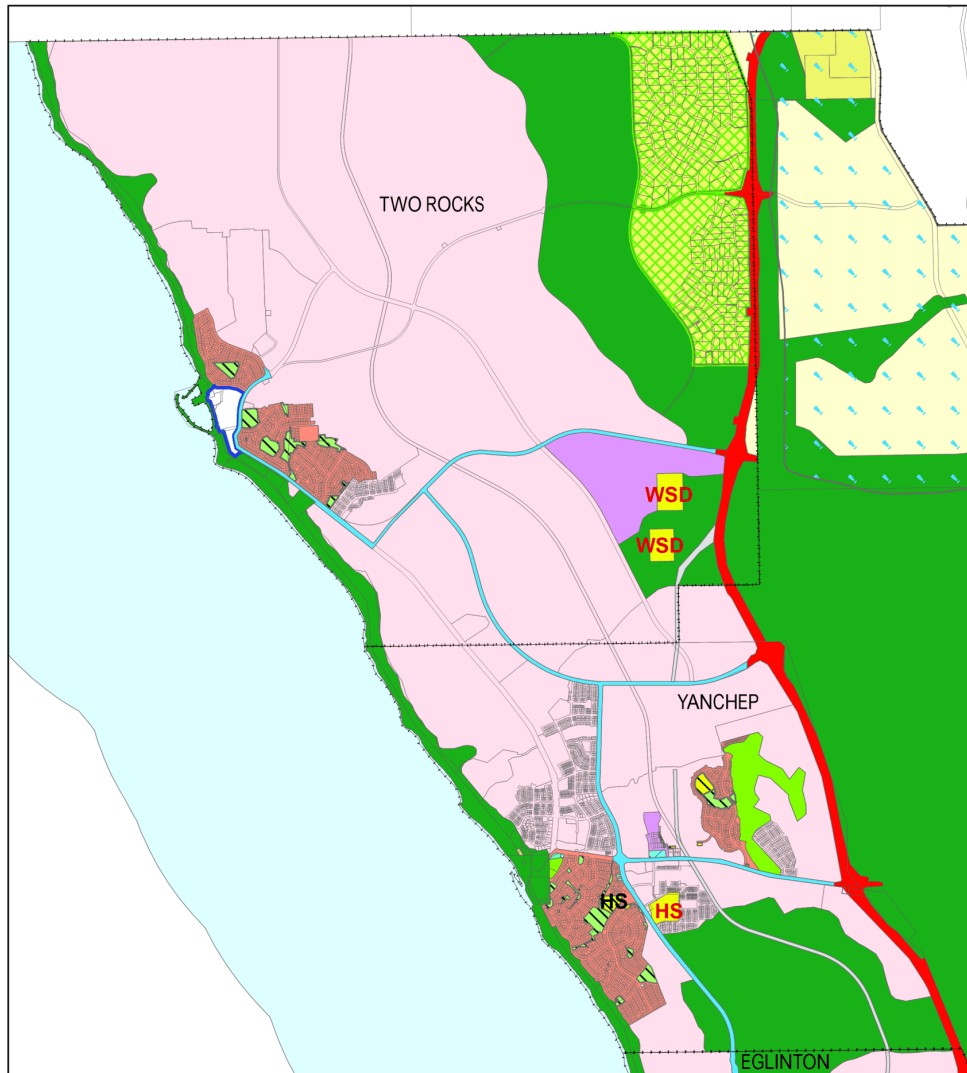

That Council:-

1. **APPROVES** the revised Yanchep-Two Rocks Development Contribution Plan cost estimates in accordance with Clause 11.4 of *District Planning Scheme No. 2* as outlined in Attachment 2, including:
 - a) An increase in the total infrastructure costs from \$27,931,551 to \$28,427,551 (net infrastructure cost is \$26,162,218 excluding grants contribution);
 - b) An increase in the cost per dwelling from \$3,909.23 to \$4,287.83;
 - c) An increase in the total municipal portion of the net infrastructure costs from 33.52% to 33.57% (\$8,603,735 to \$8,781,438);
2. **AUTHORISES** the financial adjustments required to implement the apportionment of costs between the City and the Yanchep-Two Rocks Development Contribution Plan;
3. **NOTES** that no submissions were received in relation to Annual Review of Costs for the Yanchep-Two Rocks Development Contribution Plan; and
4. **NOTES** that the City will continue discussions with Capricorn Village Joint Venture to consider the revised detailed design for the Capricorn Village Coastal Node and include the revised costs and scope of works into the next annual review of costs for the 2023-2024 period.

Yanchep-Two Rocks Development Contribution Plan Report

YANCHEP-TWO ROCKS DEVELOPMENT CONTRIBUTION PLAN REPORT

This Development Contribution Plan (DCP) Report has been prepared in accordance with State Planning Policy 3.6 - Development Contributions for Infrastructure (SPP 3.6 – Revised April 2021). It sets out in detail the calculation of the Cost Contribution for each owner in the Development Contribution Area based on the methodology provided in the DCP within Schedule 15 of District Planning Scheme No. 2, and provides all relevant information in support of the DCP.

1. Development Contribution Area (DCA)

The DCA encompasses the localities of Yanchep and Two Rocks, which form part of the Northern Coastal Growth Corridor (NCGC) of the City of Wanneroo. This area has been subject to a district structure planning process which identified the need for contribution arrangements to be put in place to share the costs of significant community facilities.

The DCA is broadly consistent with the boundaries of the Yanchep-Two Rocks District Structure Plan but only consists of land within the Yanchep-Two Rocks district area capable of being developed to accommodate residential dwellings that will contribute towards the need for future community facilities.

The Yanchep-Two Rocks DCA is shown on the Scheme Map as DCA 2.

2. Purpose

The purpose of DCP Report is to:

- a) enable the application of development contributions for the development of new, and the upgrade of existing infrastructure, which is required as a result of increased demand generated in the development contribution area;
- b) provide for the equitable sharing of the costs of infrastructure and administrative items between owners;
- c) ensure that cost contributions are reasonably required as a result of the subdivision and development of land in the development contribution area; and
- d) coordinate the timely provision of infrastructure.

3. Period of the Plan

16 years from 9 September 2014 to 8 September 2030 (Amendment 166).

4. Operation of the Development Contribution Plan

The Yanchep-Two Rocks DCP has been prepared in accordance with State Planning Policy 3.6: Development Contributions for Infrastructure (SPP 3.6). It came into effect as of Tuesday, 9 September 2014, being the date that Amendment No. 122 to District Planning Scheme No. 2 (DPS 2) was published in the Government Gazette.

Yanchep-Two Rocks Development Contribution Plan Report

5. Application requirements

Where a subdivision, strata subdivision or development application or an extension of land use is lodged which relates to land to which this plan applies, Council shall take the provisions of the plan into account in making a recommendation on or determining that application.

6. Principles

Development contributions have been applied in accordance with the following principles:

1.1. Need and the nexus

The Northern Coastal Growth Corridor Community Facilities Plan (CFP) details the facilities required as a result of projected development within the DCA. As the DCA was largely void of existing residential development at the commencement of the DCP operation, the nexus between required facilities and projected development has been clearly established.

1.2. Transparency

The method for calculating the development contribution amount and the manner in which it is applied has been the subject of extensive consultation with landowners and developers in the DCA. Further, as the mechanism for determining the development contribution has been incorporated into DPS 2 through an amendment to that Scheme, it has been subject to public assessment and scrutiny through the statutory public advertising process.

1.3. Equity

The DCP applies to all developable land within the DCA, with contributions to be levied based on a relative contribution to need. Contributions within the DCA are limited to district facilities within that area. Regional facilities, where the catchment extends across the district boundary or outside of the northern coastal growth corridor, are not included in the DCP. Their provision will be outside of any formal, scheme enforced cost sharing arrangement.

1.4. Certainty

The DCP clearly outlines the facilities for which contributions are to be collected and the timeframe for their delivery. Information pertaining to the review and indexation of costs also forms part of the DCP.

1.5. Efficiency

Development contributions are sought for up-front capital costs only and not for ongoing maintenance and/or operating costs of the facilities once they are constructed. Ongoing maintenance and operational costs for the life of the facilities will be met by the City of Wanneroo.

1.6. Consistency

Development contributions are proposed to be applied uniformly across the DCA, based on the methodology outlined in the DCP and this DCP Report.

1.7. Right of consultation and arbitration

Yanchep-Two Rocks Development Contribution Plan Report

The DCP has been prepared in full consultation with land owners and developers in the DCA. All planning methodologies and cost estimates have been made available for review by stakeholders at all stages of their preparation. Further opportunity for review will be made available as part of the review process outlined in the DCP.

1.8. Accountable

The City is accountable for both the determination and expenditure of development contributions under the provisions of the Scheme.

7. Process for Determining Development Contributions

The DCP utilises the *Per Dwelling* model of calculating development contributions, which involves the levy of a contribution based on the total number of new dwellings proposed to be created within then operating period.

This method has been determined as being the most appropriate method of calculating cost contributions for the following reasons:

- It will maximise the nexus between contributing land/lots/dwellings and the facilities being delivered;
- It is consistent with the approach outlined in SPP 3.6;
- It will eliminate the need to set assumptions on which land deductions will be used to determine developable area as required by a *per hectare* methodology. In doing so, it will eliminate many of the issues raised in submissions by affected landowners during public advertising of Amendment 122 to DPS 2; and
- It will allow the easy calculation of an owner's cost contribution.

Determination of Cost Contribution

The methodology for determining a landowner's cost contribution is in accordance with the following formula:

$$\bullet \quad CC = \frac{TC \times NDU}{TDU}$$

Where:

CC	=	Landowner's Cost Contribution Amount (\$)
TC	=	Total cost of delivering community facilities + Total administrative costs (\$)
NDU	=	Number of additional lots proposed to be created as part of a proposed subdivision; and the number of dwellings proposed to be created as part of an application for planning approval, other than the first dwelling.
TDU	=	Total number of dwellings expected within the DCA.

Where the term "dwelling" is used, the intent is that it relates to a built dwelling. However, where contributions are to be made on subdivisions, the term dwelling may also be taken to mean the number of lots. Where multiple or grouped dwelling sites are proposed, their contributions will be based on the initial subdivided lot, as well as any additional planned dwellings at the time of application for planning approval.

Yanchep-Two Rocks Development Contribution Plan Report

7.1. Supporting Information

In accordance with Clause 5.5 of SPP 3.6 the following information is provided in support of the methodology used to determine development contributions.

Catchment Areas

The DCA is considered to be a district catchment and it is generally consistent with the boundary of the Yanchep-Two Rocks District Structure Plan.

The district catchment translates to the provision of district level facilities, which are higher order facilities that serve multiple neighbourhoods and local catchments, but are not likely to have a wider draw from other district areas. Accordingly, the DCP only seeks to collect contributions for district level community facilities.

Facilities with local and regional catchments are not proposed to be funded through this DCP.

Cost of Infrastructure Items

The infrastructure items included in the DCP have been subject to different levels of planning and design.

Where a concept plan does not exist for the facility, the City has developed a facility model that represents the City's requirements for community use based on similar existing facilities or best practice. This model has been used by a licenced Quantity Surveyor as a basis for determining a construction cost estimate.

Where the planning for a facility has progressed to the point of more detailed designs being prepared (e.g. concept plan, or detailed design and tender documentation), then the more detailed planning and design work has been used by a licenced Quantity Surveyor to prepare a construction cost estimate.

The final cost estimate for each facility is inclusive of a construction cost estimate, external works and services, plus allowances for planning, design and construction contingencies. Land costs, where applicable, have been the subject of a separate valuation process by a licenced valuer.

The cost estimates will be reviewed and refined as more detailed planning is undertaken for each facility on the location, level of co-location and integration, and ultimate design of individual facilities, until such time as the actual expenditure for the works has been incurred.

A scheduled review of the cost estimates will occur annually. Cost estimates will be adjusted to reflect changes in funding, revenue sources and advances in detailed planning and subsequently indexed based on the Building Cost Index or other appropriate index as approved by the qualified person undertaking the certification of costs referred to in Clause 11.3 of Schedule 14 of DPS 2.

Community Infrastructure Plan

The City prepared the CFP which details the need for community facilities resulting from projected population growth. This plan has been approved by Council and has been subject to public comment and consultation with key stakeholders. The CFP was revised in November 2020 (Council report CP01-11/20).

Yanchep-Two Rocks Development Contribution Plan Report

Capital Infrastructure Plan

The DCP has been designed to relate directly to the *City of Wanneroo Long Term Financial Plan* such that the facilities identified in the DCP are reflected in the Financial Management Plan. Furthermore, the review period proposed for the DCP should coincide with the annual review of the Financial Plan to ensure that new facilities required to be delivered under the DCP are identified in the Financial Management Plan and the City's Capital Works Program.

This will also provide a mechanism for alternate funding sources to be considered and incorporated into the funding model for each facility where possible.

Projected Growth Figures

The projected growth in dwellings for the DCA was initially sourced from landowners and developers within the DCA. In 2018, following consultation with land developers and the City of Wanneroo the dwelling projections were updated using 'id' forecasts, which has been applied to the remaining operational period.

Methodology for Determining Proportion of Cost to be Attributed to Future Growth vs. Existing Areas

The methodology for calculating cost contributions set out in the Yanchep-Two Rocks DCP contained in Schedule 15 of DPS 2 requires that the cost contributions be calculated on a proportionate basis relative to the need generated by new dwelling growth. Accordingly, the total cost on which the cost contribution is based has excluded the proportion of costs associated with the following:

- *demand for a facility that is generated by the current population;*
- *demand created by external usage – the proportion of use drawn from outside of the main catchment area; and*
- *future usage – the proportion of usage that will be generated by future development outside of the development contribution plan timeframe."*

In this regard, there were 3,089 dwellings in the Yanchep and Two Rocks area considered to be within the existing catchment of, and generate a need for, the facilities included in the DCP. This figure excludes 541 lots subsequently created under the interim arrangement set out in *Local Planning Policy 3.3: Northern Coastal Growth Corridor Development Contributions*. Contributions received under LPP 3.3 have been credited to the DCP.

For the 16 year life of the Yanchep-Two Rocks DCP an additional 6108 dwellings are projected to be created (total including existing dwellings of 9,197 dwellings), which will also generate demand for the facilities included in the DCP. Residents of both the existing and new dwellings may use the facilities and should therefore be expected to contribute to their cost. Based on the figures above, this has resulted in 66.41% of the cost required to be met by new growth.

No additional need for the facilities is considered to be generated from population outside of Yanchep and Two Rocks DCA and there are no regional level facilities included in the DCP, for which the catchment would extend beyond the DCA. Furthermore, the Alkimos-Eglinton area to the south is serviced by its own district level facilities and is not considered to generate additional need for the facilities in the Yanchep-Two Rocks DCP.

8. Items Included in the Plan

The DCP applies only to district level facilities needed within the DCA as determined by the *Northern Coastal Growth Corridor Community Facilities Plan (as Revised)*.

Yanchep-Two Rocks Development Contribution Plan Report

8.1. Infrastructure Elements

Yanchep-Two Rocks Development Contribution Area – DCA (2)

Yanchep Lagoon
Surf Life Saving Club - Complete
Capricorn Coastal Node
Coastal Node Facilities - Pending
Yanchep Metropolitan Centre
Public Open Space (Active) - Complete

8.2. Administrative Elements

In accordance with DPS 2, "Administrative Costs" include costs associated with:

- i. preparation, administration and review of the Development Contribution Plan;
- ii. preparation and review of the Development Contribution Plan and Cost Apportionment Schedule;
- iii. any arbitration and valuation with respect to this Plan; and
- iv. advice and representation with respect to this Plan including legal, accounting, planning, engineering and other professional advice and representation.

9. Review

Various elements of the DCP are subject to ongoing review, as a result of both the general operation of the DCPs and the requirements of SPP 3.6. It is proposed that the DCP and associated CFP be reviewed (at a minimum) in accordance with the following schedule:

- Annually
 - DCP Cost Estimates;
 - DCP Cost Indexation;
 - Dwelling estimates;
 - Cost per Dwelling; and
- 5-yearly
 - CFP Assumptions and Recommendations
 - Full DCP Review.

Cost Estimates & Indexation - The estimated infrastructure costs will be reviewed at least annually to reflect actual expenditure, changes in funding and revenue sources and indexed based on the Building Cost Index or other appropriate index as approved by the qualified person undertaking the certification of costs referred to in Clause 11.3 of Schedule 14 of DPS 2.

Contribution Amount - The cost per dwelling on which each landowner's contribution amount is based will be reviewed annually (or as required) as a result of the above changes to the costs and dwelling estimates.

Independent Auditors' Report to the City of Wanneroo ("the City") on the Annual Cost Review for Yanchep Two Rocks Development Contribution Plan

Scope

We have performed an audit of the Annual Cost Review of Yanchep Two Rocks Development Contribution Plan ("DCP") and reviewed the methodology used in calculating and estimating the costs for the remaining DCP works, to establish the accuracy of the Annual Cost Review of Yanchep Two Rocks DCP as per the requirement under the District Planning Scheme No. 2 ("DPS 2") and the State Planning Policy 3.6 ("SPP 3.6") and provide independent certification of such costs. Our audit of the Annual Cost Review for 2022/23 covered actual transactions from 1 July 2021 to 30 June 2022 and estimated costs for future years, while ascertaining that the actual expenditure incurred gives a true and fair view and ensure that the assumptions used in the estimations of DCP costs are in accordance with the DPS 2 and SPP 3.6.

The City's Responsibilities

The City is responsible for ensuring that the DCP costs incurred, estimated and the Cost Per Dwellings ("CPD") charged are in accordance with the DPS 2 and related regulations, policies and procedures. The City is responsible for ensuring that all DCP cost records are free of misstatements and omissions, and establish adequate internal controls for DCP cost incurring, estimating and the calculation of CPD rates, and ensure that adequate financial records have been maintained. The City is responsible for providing all financial records and related data, other information, explanations and assistance necessary for the conduct of the audit of the DCP cost reviews.

Compliance with Independence and Other Ethical Requirements

We have complied with the relevant independence and other ethical requirements relating to assurance engagements, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

Auditor's Responsibilities

Our responsibility is to express an opinion on the reasonability of the methodology used, in calculating and estimating costs for the remaining works, and assess the documentation provided to certify that the costs are incurred and estimated as per the District Planning Scheme No. 2 ("DPS 2") and State Planning Policy 3.6 ("SPP 3.6"). We conducted our audit in accordance with Auditing Standards. These Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the methodology used in forming the basis of cost incurring, CPD rate calculation and estimation is free from material misstatement.

The procedures selected depend on the auditor's judgement including the assessment of the risks of material misstatement of the methodology used. In making those risk assessments, the auditor considers internal control relevant to the City's preparation of the methodology used in forming the basis of cost incurring and DCP cost estimations in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control.

William Buck is an association of firms, each trading under the name of William Buck
across Australia and New Zealand with affiliated offices worldwide.

Liability limited by a scheme approved under Professional Standards Legislation.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the City, as well as the City's alignment to DPS 2 and SPP 3.6.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Limitation on the scope

- We have not performed any market evaluation for estimated costs and relied on the third-party report of Donald Cant Watts Corke for validating the reliability of estimated cost of works.
- We have not performed a market property valuation for land costs and relied on the third-party report of Independent Valuers of Western Australia for validating the reliability of the land costs.
- We have relied on the number of lots as outlined on the individual Landgate Deposited Plan ("DP") maps as provided by the City to determine each DP total number of lots.

Audit Opinion

In our opinion, other than stated under the Limitation of Scope Paragraph above, in all material respects, the DCP costs incurred, estimated for remaining development works, and proposed CPD rate of \$4,287.83 (as per DPS 2 CPD formula) were fairly stated and in compliance to DPS 2 and SPP 3.6.

Basis of accounting and restriction of distribution

Without modifying our opinion, we draw your attention to Schedule 15 Developer Contribution Plan of DPS 2, which describes the basis of funding, method of calculating contribution and the CPD rate, for the purpose of reporting to the City. As a result, the methodology used in forming the basis of this may not be suitable for another purpose. Our report is intended solely for the City and should not be distributed or used by other parties' other than the City. The Audit Report is not to be used by any other party for any purpose nor should any other party seek to rely on the opinions, advices or any information contained within this Audit Report.

William Buck Audit (WA) Pty Ltd disclaim all liability to any party other than the City who choose to rely in any way on the contents of this Audit Report does so at their own risk.

4.2 Close of Advertising - Alkimos-Eglinton DCP Annual Review of Costs (2022-2023)

File Ref: 23155V02 – 22/417599
Responsible Officer: Director Planning and Sustainability
Attachments: 5

Issue

To consider the annual review of cost estimates for the Alkimos-Eglinton Development Contribution Plan (DCP).

Background

Amendment No. 122 to District Planning Scheme No. 2 (DPS2) was gazetted in September 2014, and introduced the DCP provisions into DPS2. In 2015, Council adopted the DCP Report and Cost Apportionment Schedule.

The community infrastructure in the DCP generally reflects the recommendations of the Community Facility Plan 2020 (Council Report CP01-11/20) and provides estimates on the cost, estimated contributions and the timing for the delivery of infrastructure within Alkimos and Eglinton. The infrastructure costs include planning, design, project management, construction and land acquisition costs associated with the following infrastructure:

- Surf Life Saving Club;
- Public Open Space (x2);
- Multipurpose Hard Courts (x2);
- Community Centre (x2);
- Library (x2); and
- Indoor Recreation Centres (x2).

In accordance with DPS2, the DCP has an operation period of 25 years (expiring 2039) and during this time period the City is required to review the various elements of the DCP at one and five year intervals as per the following:

- Annually - DCP cost estimates; DCP cost indexation; contributing land area; and cost per hectare.
- Five Yearly - Community Facility Plan (CFP) assumptions and recommendations; and a full DCP review.

The last five-year review was approved by Council on 16 March 2021 (PS01-03/21) and the last annual review on 16 November 2021 (PS01-11/21).

The DCP utilises the 'per hectare' model of calculating development contributions, which involves the calculation and payment of contributions based on the total area of developable land within the Development Contribution Area (DCA) as defined in **Attachment 1**.

A landowner's liability to make a cost contribution arises in accordance with provisions of DPS2 and calculated using the Council-adopted contribution rate, which is currently \$12.08 per square metre.

The DCP account currently holds approximately \$19.9 million, which includes the total contributions received (including interest), less expenditure and accruals to 30 June 2022.

This report is considering the Annual Review requirements of the DCP for the 2022-2023 period to ensure that the cost contribution amount is correctly set to ensure the collection of sufficient funds to cover the cost of approved infrastructure.

At the Ordinary Council Meeting on 11 October 2022 (PS03-10/22), Council considered the DCP Annual Review for the 2022-2023 year period and resolved to advertise the revised cost estimates for a period of 28 days. The Annual Review recommended that Council endorses the cost estimates, including:-

- a) Developer Contribution Plan facility cost estimate of \$103,771,000;
- b) Net contributing land area remaining is 541.45 hectares; and
- c) Cost per hectare is \$159,744.65 (or \$15.97 per square metre).

Consultation was undertaken for a minimum period of 28 days in accordance with DPS2 and concluded on 16 November 2022 with one submission being received.

Detail

The following provides the outcomes of relevant infrastructure cost elements of the Annual Review, including:

- Net Contributing Area (NCA);
- Infrastructure costs;
- Land acquisition valuation;
- Administration costs;
- Cost contribution; and
- Prioritisation of facility provision.

Net Contributing Area

In the past six years, the NCA has reduced by approximately 90 hectares from the original DCP area of 630.56 hectares (2015). The remaining NCA is estimated to be 541.45 hectares. The reduction of remaining developable land has been based on the area of land that has contributed, as well as any known changes or amendments to the structure plan since the last annual review period. The Annual Review applies the remaining NCA of 541.45 hectares to determine the contribution rate per square metre required to complete the required infrastructure works.

Infrastructure costs

The costs of the DCP infrastructure are reviewed and independently verified each year. The City engaged an external quantity surveyor to prepare a revised cost estimate for the facilities up to June 2023. There has been a 25.13% increase in the total cost of providing the infrastructure from \$82,932,000 to \$103,771,000. The increase primarily relates to an escalation of costs applied by the quantity surveyor to reflect the current market conditions. The City will continue to revise the costs annually in accordance with DPS2, until the infrastructure costs have been finalised.

Land acquisition valuation

The estimated acquisition costs have been updated and are included into the facility cost estimates. The land valuation was completed in accordance with the requirements of DPS2, which requires the local government to appoint a licensed valuer.

It is noted that the valuations were previously based on englobo values (unserviced land), with some additional costs for servicing included into the facility development cost. The valuation principles were discussed with the major landowners and their representatives through the Alkimos Eglinton Technical Work Group, where servicing and site works costs were considered a necessary cost element in the valuation methodology to ensure a fair market value was being reflected in the DCP cost estimates.

On this basis, the land valuation has increased by 100% from the 2021-2022 Annual Review of \$101 per m2 to \$200 per m2. The increase reflects the requirements of the DCP to acquire land in a level and serviced state necessary to deliver the required infrastructure. These costs form part of the overall cost estimates for each item of infrastructure, as defined in updated DCP report and cost estimates, as depicted in the Cost Apportionment Schedule in **Attachment 2**.

Administration Costs

In accordance with Schedule 15 of DPS2, the following administration costs can be charged to the DCP:

- Costs to prepare and administer the plan during the period of operation;
- Costs to prepare and review estimates;
- Costs to prepare the cost apportionment schedule;
- Valuation costs; and
- Costs to service loans established by the City to fund early provision of facilities.

The City has utilised the original cost estimate for administering the DCP of \$76,500 per annum, which is generally consistent with the previous year's actual expenditure. The administration costs are estimated for the remaining operational period of the DCP from 1 July 2022 to 8 September 2039, which equates to a remaining estimated administration cost of \$1,489,770. It should be noted that the administration costs include quantity surveying and valuation consultant costs associated with the annual review process. Further, only the actual administration costs incurred are charged to the DCP and that these costs form part of the actual expenditure, which is disclosed in the Annual Financial Statements.

Cost Contribution

The contribution rate has increased from \$12.08 to \$15.97 per square metre, which is a reflection of an increase in the revised facility cost estimates, including land acquisition. The increased costs were identified in a full review of the infrastructure costs prepared by the QS Consultant (refer **Attachment 3**) and includes indexation as prescribed by *State Planning Policy 3.6 Infrastructure Contributions* (SPP 3.6).

Prioritisation of facility provision

The Capital Expenditure Plan (CEP) forms part of the DCP Report and reflects the recommendations of the Community Facility Plan (CFP). In this regard, the CEP was approved by Council on 16 March 2021 (PS01-03/21) as part of the five-year fundamental review. The ability of the DCP to meet the timeframes for providing the infrastructure is highly dependent upon the availability of DCP funds and the availability of suitably located and serviced land from the affected landowners.

The CEP has been updated to reflect the revised cost estimates and the anticipated timing for the provision of the following infrastructure, as depicted in the five year fundamental review recommendations for the following infrastructure:

1. Alkimos Indoor Recreation Centre (provided as a part of the Alkimos Aquatic and Recreation Centre);

2. Alkimos Regional Community Centre and Library (district library provision to be captured within proposed regional library);
3. Alkimos District Community Centre;
4. North Eglington Indoor Recreation Centre; and
5. Alkimos Surf Life Saving Club.

The review of the CEP in relation to infrastructure prioritisation would normally occur as part of the five year fundamental review of the CFP, which is not due until 2025. However, due to higher construction and land costs identified in this annual review further consideration for the infrastructure timing is required to ensure adequate funds will be available in the DCP account and the identified infrastructure aligns with landowners staging requirements, community need and the availability of DCP funds to complete the works.

The ability for the DCP to fund the infrastructure prioritisation is directly affected by lot sales and construction costs, which will fluctuate over the operational period of the DCP. Significant increases in construction costs and lower contribution income can result in a shortfall in funding. In this regard, the DCP is currently generating approximately \$2 million per year and the DCP account currently holds just under \$20 million, which equates to approximately \$40 million in total funds over the next 10 years. However, the CEP currently depicts approximately \$90 million in infrastructure projects for the next 10 years, which is significantly higher than the DCP is likely to receive, based on current contribution levels.

To mitigate potential shortfalls in funding and to align land availability with the infrastructure timing, Administration will initiate a review of the CEP in consultation with the landowners, to inform the next annual review.

Alkimos Aquatic and Recreation Centre

There has been significant discussion between the City, Alkimos-Eglington landowners and the State Government regarding the co-location of the Aquatic and Indoor Recreation Centres within the Alkimos District Centre. This matter was presented to Council in October 2021 (CP02-11/21) as the preferred option for the purposes of public consultation.

The Indoor Recreation Centre is a DCP-funded component of the development, which requires further discussion with the DCP landowners to determine the specific scope of works and apportionment of the relevant project costs. A cost apportionment methodology was discussed with the major landowner group and has been agreed in principle. However, the specific detailed scope and apportionment of costs for the Indoor Recreation Centre component of the Aquatic Centre will require further consideration. Administration will continue discussions with the DCP landowners to reach an agreement on the detailed cost apportionment arrangement and will report to Council as part of the next annual review of costs for this DCP.

State Planning Policy 3.6 (Contribution Cap)

In April 2021, the State Government finalised SPP 3.6, which introduced a limit of \$5,000 per dwelling that applies to community infrastructure DCP's. This DCP does not enable a direct comparison of the square metre rate to the per lot cap. Clarification has been requested from the Department of Planning, Lands and Heritage (DPLH) on applying the \$5,000 cap to an area based DCP (rather than a lot/dwelling based DCP) and Administration is currently awaiting a formal response. In this regard, this issue may become more important for estimating future income due to increasing building and land costs, unless the matter of indexation has been resolved and applied to the community infrastructure cap imposed by the State Government. Administration is continuing to discuss with State Government the issue created by having a fixed cap and has requested the cap to be indexed to enable DCP contribution rates to reflect increases and decreases in the cost of facility provision.

Consultation

In accordance with Schedule 14 of DPS2, where the review of estimated costs recommends those costs be increased, then the local government must advertise the review for a period of 28 days, prior to making a decision to increase the estimated costs.

Advertising was carried out between 18 October and 16 November 2022. Administration wrote to the major landowners within the DCP that are affected by the annual review and made information available at the Civic Centre and on the City's website.

One submission was received from Woodsome Management Pty Ltd on behalf of the major Alkimos Eglinton Landowner's namely Development WA, Eglinton Estates, PEET, Cedar Woods & Urban Quarter (refer **Attachment 4**). The issues raised and Administrations response is provided in the following comments section.

Comment

The DCP is subject to an annual review process to ensure that the cost contribution amount is correctly set to ensure the collection of sufficient funds to cover the cost of approved infrastructure items over the life of the DCP.

At the conclusion of the advertising period, one submission was received. The salient issues raised in the submission are reflected below (also refer full submission in **Attachment 4**) along with a response by Administration.

1. *Annual Review - Supports the findings of the annual review, however raises concern regarding the significant cost escalation in construction and land valuation and the resulting increase in the DCP Rate from \$12.08 to \$15.97 per square metre.*

Administration Response – Notes the landowners' support for the annual review recommendations. Administration shares the landowners concern regarding cost increases and will continue to liaise with the DCP landowners to ensure the timely and cost effective provision of the required infrastructure. It is noted that Administration will initiate a review of the Community Infrastructure priorities to inform the Capital Expenditure Plan (CEP) with consideration for the availability of serviced land, infrastructure design and the availability of funding, including consideration for general local government revenue and State/Federal grant funding.

2. *Cost Escalation and SPP 3.6 (Contribution Cap) – Based on the average lot size the revised DCP Rate would equate to over \$5,900 per lot, which is higher than the SPP 3.6 cap. Recommends that the facilities specifications could be reduced and other funding sources be pursued to mitigate the cost escalation. Also noted, that this issue has been raised with the Department of Planning, Lands and Heritage (DPLH) and supports ongoing collaborative review of this matter.*

Administration Response – As described in the Detail Section of this report, the DCP does not enable a direct comparison of the square metre rate to the per lot cap. Clarification has been requested from the Department Planning, Lands and Heritage (DPLH) on applying the \$5,000 cap to an area based DCP (rather than a lot/dwelling based DCP) and Administration is currently awaiting a formal response. Administration will continue to seek clarification on this issue and other matters (including indexation of the \$5,000 cap) with the DPLH.

The Community facility cost estimates are based on template designs, which reflect a minimum standard for the relevant infrastructure. Administration will continue to refine the infrastructure designs and the associated cost estimates to ensure the standard and scope of the works are consistent with the infrastructure defined in DPS 2. As mentioned in 1

above, Administration will initiate a review of the Community Infrastructure priorities to inform the Capital Expenditure Plan (CEP) with consideration for the availability of serviced land, infrastructure design and the availability of funding, including consideration for general local government revenue and State/Federal grant funding, as recommended by SPP 3.6.

3. Alkimos Aquatic and Recreation Centre (Co-location Costs) - *The cost of co-locating the Alkimos Regional Aquatic Facility and Alkimos Indoor Recreation Centre were reported to the Alkimos Eglinton Land Owners (AELO) to be more costly than standalone facilities. We acknowledge there is more work to do in this regard, consistent with the information presented in the 11 October OCM Agenda, and look forward to working collaboratively with the City to resolve this.*

Administration Response – Noted. Administration will continue to liaise with landowners to establish a final position on the apportionment of costs for the aquatic and recreation centre facilities. Council has supported the stand-alone facility cost estimate, until a final position on the cost apportionment has been determined in consultation with the landowners.

Administration will continue to liaise with the landowners to finalise the cost apportionment methodology and the detailed cost apportionment based on the principle of a shared and economical cost benefit.

4. Land Valuation Approach - *We note the City has considered the approach to land valuation further and are valuing land based on being serviced and in a level state, necessary to deliver the required infrastructure. This has increased the cost from \$101 per m² to \$200 per m². This approach to land valuation is supported.*

Administration Response – Noted.

Based on the submissions and responses provided, Administration recommends that Council approves the Annual Review as advertised and depicted in the DCP Report (refer **Attachment 2**).

Statutory Compliance

The City must annually review the estimated costs of the DCP, which requires the City to complete public consultation in accordance with DPS2. Landowners may object to the amount of a cost contribution and request a review by an independent expert. If this does not result in the cost contribution being acceptable to the landowners then landowners can request that the cost contribution be determined through a process of arbitration. A similar right exists for the process of determining the value of any land acquired through the DCP.

Strategic Implications

The proposal aligns with the following objective within the Strategic Community Plan 2021 – 2031:

5 ~ A well planned, safe and resilient City that is easy to travel around and provides a connection between people and places

5.1 - Develop to meet current need and future growth

Risk Appetite Statement

In pursuit of strategic objective goal 5, we will accept a Medium level of risk, extended to High in the areas of Community / Reputation & Financial / Commercial impacts. Shifting transport modes and usage in the City may require short term pain for longer term gain as the City

supports the development, maintenance and connection of alternatives to car use (e.g. cycle ways) and the supporting infrastructure.

Risk Management Considerations

Risk Title	Risk Rating
ST-G09 Long Term Financial Plan	Moderate
Accountability	Action Planning Option
Director Corporate Strategy & Performance	Manage

Risk Title	Risk Rating
ST-S23 Stakeholder Relationships	Moderate
Accountability	Action Planning Option
CEO	Manage

The above risks relating to the issue contained within this report have been identified and considered within the City's Strategic Risk Registers. The Annual Review assists in addressing the impacts of the strategic risk relating to Long Term Financial Planning as it ensures that appropriate budget monitoring, timing and provisions are considered. In addition, the strategic risk relating to Stakeholder Relationships applies as a key element in the DCP review process is maintaining effective engagement with relevant stakeholders.

Policy Implications

Nil

Financial Implications

The proposed revision of costs for the 2022/2023 period recommends an increase in the total costs by \$20.8 million from \$82,932,000 to \$103,771,000 and the associated contribution rate increasing from \$12.08 to \$15.97 per square metre.

The Annual Review has been audited by the City's external auditors (William Buck) and their findings included as **Attachment 5**. The audit opinion concluded that the DCP costs incurred, estimated for remaining development works and a proposed rate of \$159,744.65 per hectare (\$15.97 per/m²) were fairly stated and in compliance to DPS2.

The Annual Review is recommending various cost estimates for the specific infrastructure defined in DPS2 and this has been included into the revised Capital Expenditure Plan (CEP) in the DCP Report, as appended in **Attachment 2**. The infrastructure facility costs and timing for delivery is subject to change and is used to inform the City's capital works programme, annual budgeting and the long term financial plan.

Voting Requirements

Simple Majority

Recommendation

That Council:-

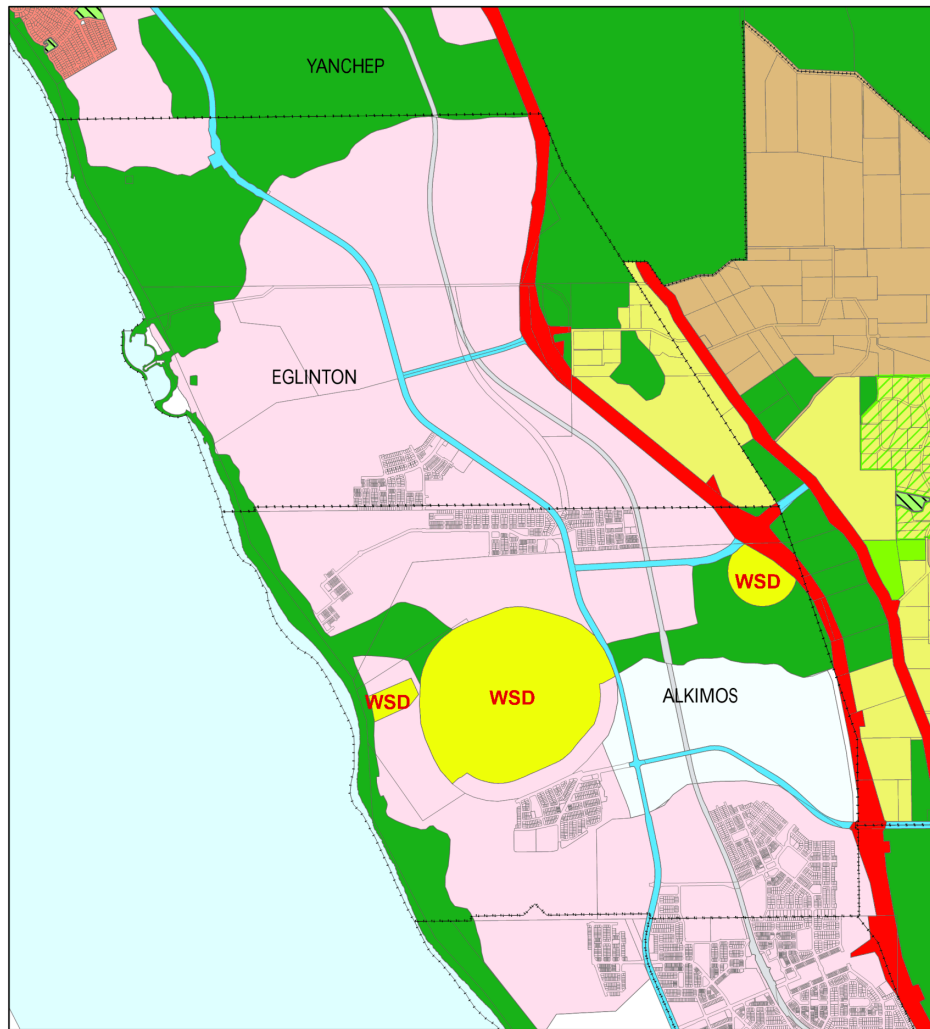

1. **APPROVES** the Annual Review of the Alkimos-Eglinton Development Contribution Plan cost estimates for the 2022-2023 period in accordance with Schedule 14 of District Planning Scheme No. 2 and as outlined in the Development Contribution Plan Report appended as Attachment 2, including:
 - a) **Developer Contribution Plan facility cost estimate of \$103,771,000;**

- b) Net contributing land area remaining is 541.45 hectares; and
 - c) Cost per hectare is \$159,744.65 (or \$15.97 per square metre).
2. **NOTES** the submission received from the Alkimos-Eglinton landowners in relation to Annual Review of Costs (2022-2023) appended as Attachment 4;
 3. **NOTES** that Administration will initiate a review of the Community Infrastructure priorities to inform the Capital Expenditure Plan with consideration for the availability of serviced land, infrastructure design and the availability of funding, including consideration for general local government revenue and State/Federal grant funding.
 4. **NOTES** that Administration will continue to liaise with the landowners to finalise the cost apportionment methodology and the detailed cost apportionment based on the principle of a shared and economical cost benefit.

ALKIMOS- EGLINTON DEVELOPMENT CONTRIBUTION PLAN REPORT

This Development Contribution Plan (DCP) Report has been prepared in accordance with State Planning Policy 3.6: Development Contributions for Infrastructure (SPP 3.6). It sets out in detail the calculation of the Cost Contribution in the Development Contribution Area based on the methodology provided in the DCP and Schedules 14 and 15 of District Planning Scheme No. 2, and provides all relevant information in support of the DCP.

1. Development Contribution Area (DCA)

The DCA is defined as the Alkimos Eglinton locality, which forms part of the Northern Coastal Growth Corridor (NCGC) of the City of Wannon.

This area has been subject to a district structure planning process, which identified the need for contribution arrangements to be put in place to share the costs of significant community facilities.

The DCA is consistent with the boundaries of the Alkimos Eglinton District Structure Plan and consists of all land within the Alkimos Eglinton district area capable of being developed to accommodate residential dwellings that will contribute towards the need for future community facilities.

The Alkimos Eglinton DCA is shown on the Scheme map as DCA 1.

2. Purpose

The purpose of this DCP Report is to:

- a) enable the application of development contributions for the development of new, and the upgrade of existing infrastructure, which is required as a result of increased demand generated in the development contribution area;
- b) provide for the equitable sharing of the costs of infrastructure and administrative items between owners;
- c) ensure that cost contributions are reasonably required as a result of the subdivision and development of land in the development contribution area; and
- d) coordinate the timely provision of infrastructure.

3. Period of the Plan

25 years from 9 September 2014 to 8 September 2039.

4. Operation of the Development Contribution Plan

The Alkimos Eglinton DCP has been prepared in accordance with *State Planning Policy 3.6: Development Contributions for Infrastructure (SPP 3.6)*. It came into effect as of Tuesday, 9 September 2014, being the date that Amendment No. 122 to District Planning Scheme No. 2 (DPS 2) was published in the Government Gazette.

5. Application requirements

Where a subdivision, strata subdivision or development application or an extension of land use is lodged which relates to land to which this plan applies, Council shall take the provisions of the plan into account in making a recommendation on or determining that application.

6. Principles

Development contributions will be applied in accordance with the following principles:

1.1. Need and the nexus

The Northern Coastal Growth Corridor Community Facilities Plan (CFP) details the facilities required as a result of projected development within the DCA. As the DCA was largely void of existing residential development at the commencement of the DCP's operation, the nexus between required facilities and projected development has been clearly established.

1.2. Transparency

The method for calculating the development contribution amount and the manner in which it is applied has been the subject of extensive consultation with landowners and developers in the DCA. Further, as the mechanism for determining the development contribution has been incorporated into DPS 2 through an amendment to that Scheme, it has been subject to public assessment and scrutiny through the statutory public advertising process.

1.3. Equity

The DCP applies to all developable land within the DCA, with contributions to be levied based on a relative contribution to need. Contributions within the DCA are limited to district facilities within that area. Regional facilities, where the catchment extends across the district boundary or outside of the northern coastal growth corridor, are not included in the DCP. Their provision will be outside of any formal, scheme enforced cost sharing arrangement.

1.4. Certainty

The DCP clearly outlines the facilities for which contributions are to be collected and the timeframe for their delivery. Information pertaining to the review and indexation of costs also forms part of the DCP.

1.5. Efficiency

Development contributions are sought for up-front capital costs only and not for ongoing maintenance and/or operating costs of the facilities once, they are constructed. Ongoing maintenance and operational costs for the life of the facilities will be primarily met by the City of Wanneroo.

1.6. Consistency

Development contributions are proposed to be applied uniformly across the DCA, based on the methodology outlined in the DCP and this DCP report.

1.7. Right of consultation and arbitration

The DCP has been prepared in full consultation with landowners and developers in the DCA. All planning methodologies and cost estimates have been made available for review by stakeholders at all stages of their preparation. Further opportunity for review will be made available as part of the review process outlined in the DCP.

1.8. Accountable

The City is accountable for both the determination and expenditure of development contributions under the provisions of the Scheme.

7. Process for Determining Development Contributions

The Alkimos-Eglinton DCP utilises the *Per Hectare* model of calculating development contributions, which involves the levy of a contribution based on the total area of developable land subject to a subdivision application, rather than the number of lots or dwellings proposed to be created as a result of that subdivision.

This model subsidises higher density development at the expense of lower density and is considered appropriate for use in the DCA as there is limited existing development and an underlying objective in the district structure plan to achieve higher residential densities than what has previously been delivered in the North West Corridor.

The *Per Hectare* model utilises 'net contributing area' rather than 'gross contributing area' as the contributing area in recognition of the fact that 'net contributing area' best represents the area of land that will contribute to the need for community facilities.

Determination of Contributing Area

'Net contributing area' is calculated as follows:

- i. Gross land area, less the area of:
 - o existing development or land with valid subdivision approvals not conditional on the payment of development contributions;
 - o land reserved under the Metropolitan Region Scheme for Parks and Recreation;
 - o land reserved under the Metropolitan Region Scheme for Public Purpose;
 - o land designated under the Metropolitan Region Scheme as 'Primary Regional Roads', 'Other Regional Roads' or 'Railways'; and
 - o land designated under the Metropolitan Region Scheme as 'industrial'.
- ii. A deduction of the following non-developable land uses identified in Local Structure

Plans from the total area determined in point (i):

- Local Roads;
- Public Open Space;
- Primary Schools;
- Service Commercial;
- Business Enterprise; and
- Retail (including retail core of Regional, District and Neighbourhood Activity Centres)

iii. A deduction of the following percentage of the total area for land zoned Mixed Use:

- 75% for Mixed Use located in land designated as 'Regional & District Activity Centres' in the Local Structure Plan (25% of the area is included in the net contributing area)
- 30% for Mixed Use located in land designated as 'Coastal Village Activity Centres' in the Local Structure Plan (70% of the area is included in the net contributing area); and
- 10% for Mixed Use located in land designated as 'Urban' in the Local Structure Plan (90% of the area is included in the net contributing area).

Maps illustrating the extent of contributing area within the DCA are included at **Attachment 1**.

Determination of Cost Contribution

The methodology for determining a landowner's cost contribution is in accordance with the following formula:

- $CPH = TC / NCA$
- $CC = CPH \times GSA$

Where:

- CC = Landowner's Cost Contribution Amount (\$)
- CPH = Cost per hectare (\$/ha)
- TC = Total cost of delivering community facilities + Total administrative costs (\$)
- NCA = Net contributing area (ha)
- CC = Cost Contribution Amount (\$)
- GSA = Gross area of proposed subdivision (ha)

The Cost Apportionment Schedule, included at **Attachment 3**, outlines in detail the distribution of costs for the DCA.

7.1. *Supporting Information*

In accordance with Clause 5.5 of SPP 3.6, the following information is provided in support of the methodology used to determine development contributions.

Catchment Areas

The DCA is considered a district catchment and it is generally consistent with the boundary of the Alkimos-Eglinton District Structure Plan.

The district catchment translates to the provision of District level facilities, which are higher order facilities that serve multiple neighbourhoods and local catchments, but are not likely to have the wider draw from other district areas. Accordingly, the DCP only seeks to collect contributions for district level community facilities.

Facilities with local and regional catchments are not proposed to be funded through this DCP.

Cost of Infrastructure Items

It has not been possible to determine the exact scope of facilities required, as their final location and nature has not yet been determined. This detail will be identified as more detailed planning is undertaken within the development area.

Consequently, the approach to facility provision has focussed on delivering broad multipurpose facilities that can adapt to changing future uses and avoid costly duplication of purpose built facilities. Inherent in this approach is the use of co-location and integration, the creation of community hubs and the acknowledgement of the role that community facilities play in anchoring development within an activity centre or community focal point.

This approach has required the City to develop standard models for each of the facilities identified in the DCP that represent the City's requirements for community use. These models have been developed using existing facility examples with various elements modified to represent best practice or to resolve management issues inherent in those facilities used as a basis for model development. These models were used by a Quantity Surveyor as a basis for determining the cost estimates incorporated into this DCP Report.

The final cost estimate for each facility is inclusive of a construction cost estimate, external works and services, plus allowances for planning, design and construction contingencies. Land costs, where applicable, have been the subject of a separate valuation process.

The cost estimates will be reviewed and refined as more detailed planning is undertaken on the location, level of co-location and integration, and ultimate design of individual facilities.

A scheduled review of the cost estimates will occur annually. Cost estimates will be adjusted to reflect changes in funding, revenue sources and advances in detailed planning and subsequently indexed based on the Building Cost Index or other appropriate index as approved by the qualified person undertaking the certification of costs referred to in Clause 11.3 of Schedule 14 of DPS 2.

Community Infrastructure Plan

The City prepared the CFP, which details the need for community facilities resulting from projected population growth. This plan has been approved by Council and has been subject to public comment and consultation with key stakeholders. The CFP was revised by Council in 2020 and informed the 5-year fundamental Review of the DCP at that time.

Capital Infrastructure Plan

The DCP has been designed to relate directly to the *City of Wanneroo Long Term Financial Plan* such that the facilities identified in the DCP are reflected in the Financial Management Plan. Furthermore, the review period proposed for the DCP will coincide with the annual review of the Financial Plan to ensure that new facilities required to be delivered under the DCP are identified in the Financial Management Plan and the City's Capital Works Program.

This will also provide a mechanism for alternate funding sources to be considered and incorporated into the funding model for each facility where possible.

An overview of the capital expenditure resulting from the operation of the DCP that will need to be reflected in the City's Long Term Financial Management Plan is included at **Attachment 2**, noting that these figures will be subject to ongoing review.

Methodology for Determining Proportion of Cost to be Attributed to Future Growth vs. Existing Areas

The methodology for calculating cost contributions set out in the Alkimos-Eglinton DCP contained in Schedule 18 of DPS 2 requires that the cost contributions be calculated on a proportionate basis relative to the need generated by new dwelling growth. Accordingly, the total cost on which the cost contribution is based has excluded the proportion of costs associated with the following:

- *demand for a facility that is generated by the current population;*
- *demand created by external usage – the proportion of use drawn from outside of the main catchment area; and*
- *future usage – the proportion of usage that will be generated by future development outside of the development contribution plan timeframe.*

The DCA was void of existing residential development or population at the commencement of DCP preparation. Lots that have been developed within the DCA since this time have made an interim contribution under *Local Planning Policy 3.3: Northern Coastal Growth Corridor Development Contributions*.

No additional need for the facilities is considered to be generated from population outside of Alkimos and Eglinton and there are no regional level facilities included in the DCP for which the catchment would extend beyond the DCP area.

Accordingly, the DCP requires 100% of the cost of delivering the necessary facilities be met by future growth. Further rationale behind this approach is as follows:

- None of the facilities identified in the Northern Coastal Growth Corridor Community Facilities Plan would be delivered if the new residential growth did not occur. It can therefore be clearly stated that the need for new facilities arises directly as a result of current and projected residential growth.
- The catchment of each of the district facilities proposed in the Alkimos-Eglinton DCP is confined to the district in which it is located.

Alkimos Eglinton Development Contribution Plan Report 2022-2023
Period (includes 5 Year Fundamental Review - Revised October 2020)

- The need for the facilities has been determined following analysis of the projected population within the DCA only. Any additional need resulting from residential areas outside the DCA is considered to be inconsequential.
- None of the facilities proposed to be delivered through DCP are considered necessary to support community activity in existing developed areas. Current demand in these areas is already met through the existing provision of district facilities within the coastal ward of the City of Wanneroo and regional level facilities in the greater City of Wanneroo and the City of Joondalup.

The 100% funding liability may be offset by external grants or other funding sources in order to reduce the contribution amount required under the DCP, however other contributions have not been included in the funding model as part of the DCP as their successful application cannot be guaranteed or assumed until more detail is known of the nature, scale and location of the facilities proposed.

It is expected that the inclusion of grant funding would form part of an ongoing review of the DCP. In this regard, Council has established a Working Group for the DCA comprising of landowners, City Administration and Council representatives and any other persons considered appropriate by Council to make recommendations to Council in respect to the timing and arrangements of DCP works. A key role of this group is to identify and pursue additional funding sources.

8. Items Included in the Plan

The DCP applies only to district level facilities needed within the DCA as determined by the *Northern Coastal Growth Corridor Community Facilities Plan*; or a proportion of a Regional Facility designed to cater for District Level Infrastructure, where the infrastructure is co-located.

8.1. Infrastructure Elements

Alkimos Eglinton Development Contribution Area – DCA (1)

Alkimos South Coastal Village
Surf Life Saving Club
Alkimos Regional Parks and Recreation Reserve
Public Open Space (Active)
Multipurpose Hard Courts
Alkimos Secondary Centre
Community Centre
Library
Indoor Recreation Centre (Co-located with the Alkimos Aquatic Centre)
Eglinton District Centre
Indoor Recreation Centre
Community Centre
Library
Public Open Space (Active)
Multipurpose Hard Courts

Full details of the facility cost estimates, can be seen at **Attachment 3**.

8.2. Administrative Elements

Under Development Contribution Plan No.2, "Administrative Items" include:

- i. preparation, administration and review of the Development Contribution Plan;
- ii. preparation and review of the Development Contribution Plan and Costs Apportionment Schedule;
- iii. any arbitration and valuation with respect to this Plan; and
- iv. advice and representation with respect to this Plan including legal, accounting, planning, engineering and other professional advice and representation.

Both incurred and recurring administrative costs shall be shared equally between the Alkimos Eglinton and Yanchep Two Rocks DCPs. Full details of Administration costs can be seen in the Cost Apportionment Table (**Attachment 3**), which reflects the actual administration costs incurred and estimated remaining costs for the operation period of the DCP.

9. Review

Various elements of the DCP are subject to ongoing review, as a result of both the general operation of the DCPs and the requirements of SPP 3.6. It is proposed that the DCP and associated CFP be reviewed (at a minimum) in accordance with the following schedule:

- Annually
 - DCP Cost Estimates;
 - DCP Cost Indexation;
 - Contributing Land Area;
 - Cost per Hectare; and
- 5-yearly (next due in 2025)
 - CFP Assumptions and Recommendations
 - Full DCP Review.

Cost Estimates & Indexation

The estimated infrastructure costs shown in **Attachments 2 and 3** of this report will be reviewed at least annually to reflect changes in funding and revenue sources and indexed based on the Building Cost Index or other appropriate index as approved by the qualified person undertaking the certification of costs referred to in Clause 11.3 of Schedule 14 of DPS 2 and made available to affected landowners as part of each annual review.

Contributing Land Area

The 'contributing land area' is determined by deducting various land uses from the overall developable area, as outlined in Section 7 of this report. The area of most of these land uses is fixed by the Metropolitan Regional Scheme (however this may change from time to time as a result of gazetted amendments) with the exception of the area of existing development which will change as land is progressively developed. The contributing land area will therefore need to be regularly reviewed to reflect the current level of development and any gazetted changes made to the Metropolitan Region Scheme.

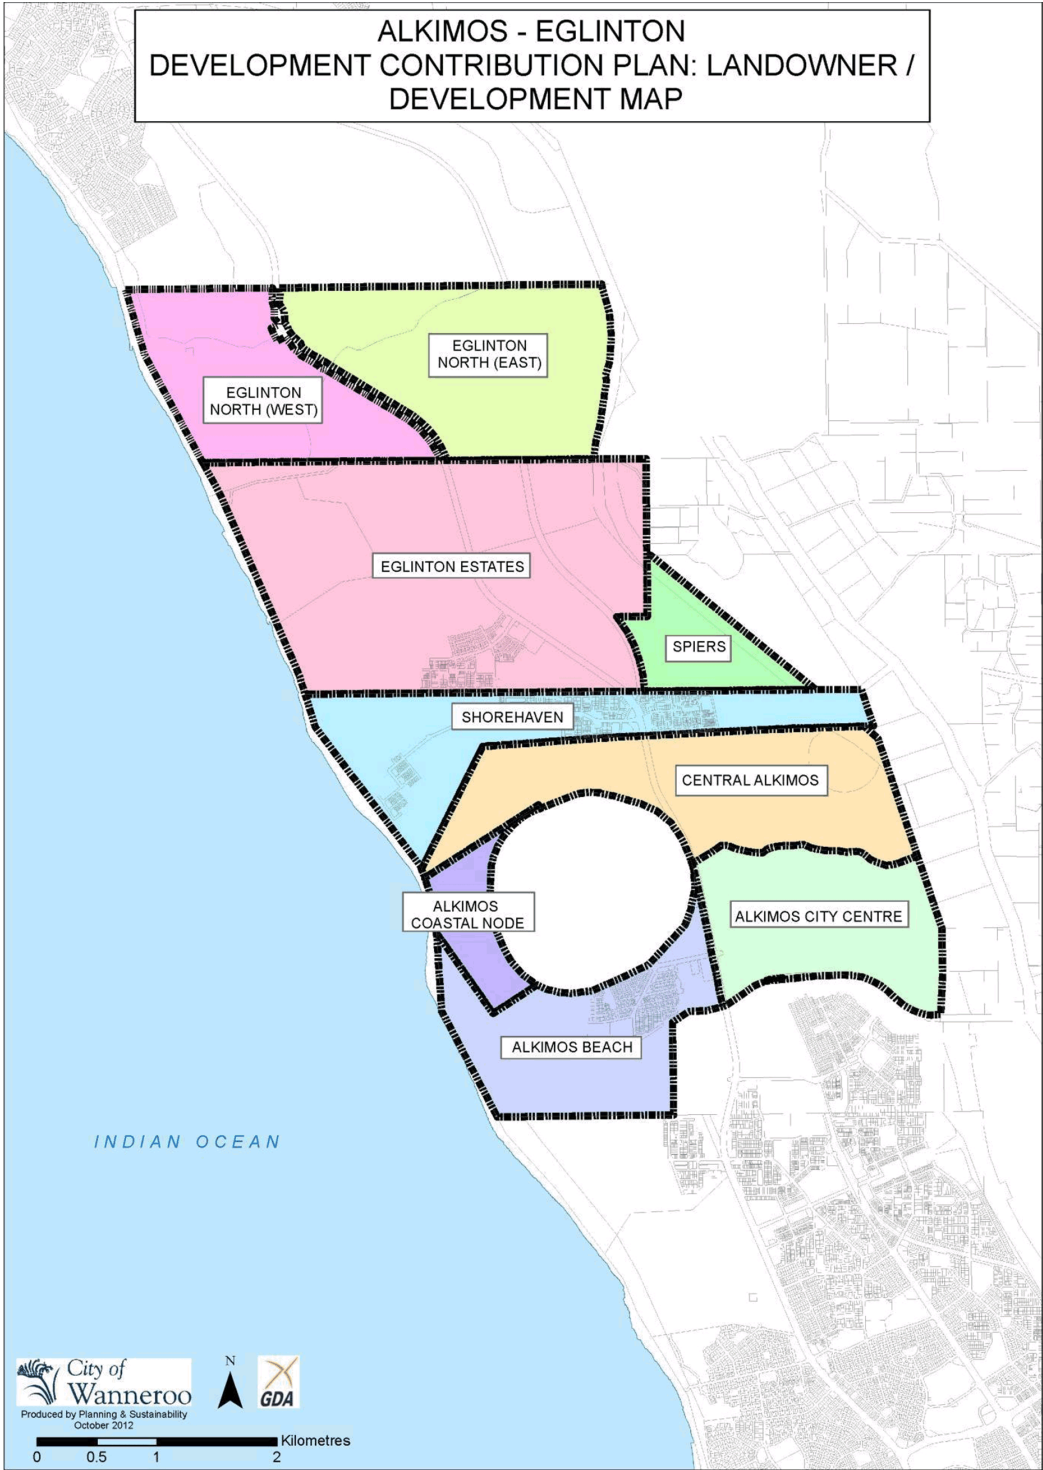

Contribution Amount

The cost per hectare on which each landowner's contribution amount is based will be reviewed annually (or as required) as a result of the above changes to the costs and contribution area and defined in the Cost Apportionment Schedule.

Chief Executive Officer
City of Wanneroo
Locked Bag 1
WANNEROO WA 6946

Attention: Mike Hudson (By email)

Dear Sir,

ALKIMOS EGLINTON DEVELOPMENT CONTRIBUTION PLAN [DCP]

Annual Review

Further to the City of Wanneroo's (City) email correspondence 18 October 2022, on behalf of the Alkimos Eglinton Landowner's namely Development WA, Eglinton Estates, PEET, Cedar Woods & Urban Quarter, thank you for the invitation to provide our formal comments on the DCP Annual Review for 2022/2023.

Whilst there is some concern with the cost of escalation and the increase in levy, the AELO support the Council's resolution from the 11 October 2022 Ordinary Council Meeting (OCM) and specifically supports the following:

- a) Development Contribution Plan facility cost estimate of \$103,771,000;
- b) Net contributing land area remaining is 541.45 hectares; and
- c) Cost per hectare is \$159,744.65 (or \$15.97 per m²).

We note that the new contribution rate reflects a combined increase in construction costs by approximately 19% and land costs by 98% from last year. Overall, this has resulted in an increased DCP facilities cost of approximately 25% (from \$83M \$104M). It also appears there is no change of scope in the specification of the facilities, which is supported.

The impact of this cost increase on the DCP rate is noted at approximately 32% (\$12.08/m² to \$15.97/m²).

Impact of Cost Escalation & State Planning Policy 3.6 (Cap Contributions)

We note the impact of cost escalation is the primary cause of the increase in levy. We also note that based on an example average lot size (375m²) within the Alkimos Eglinton Development Contribution Area, the contribution would equate to over \$5,900 per lot, which is greater than the cap established under SPP 3.6.

We are not advocating to move towards a per lot methodology, however wish to highlight that the cost of escalation needs to be balanced against the specification of the facilities being delivered. To mitigate the cost of escalation, the specification could be reduced to offset the facility build cost and potentially other sources of funding may be required to fully deliver the facilities.

We note the City's commentary in the 11 October OCM Agenda that this issue has been raised with the Department of Planning, Lands and Heritage (DPLH) and support ongoing collaborative review of this matter.

Alkimos Aquatic and Recreation Centre (Co-location Costs)

A question that remains unresolved is why the cost of co-locating the Alkimos Regional Aquatic Facility and Alkimos Indoor Recreation Centre were reported to the AELO to be more costly than standalone facilities. We acknowledge there is more work to do in this regard, consistent with the information presented in the 11 October OCM Agenda, and look forward to working collaboratively with the City to resolve this.

Land Valuation Approach

We note the City have considered the approach to land valuation further and are valuing land based on being serviced and in a level state, necessary to deliver the required infrastructure. This has increased the cost from \$101 per m² to \$200 per m². This approach to land valuation is supported.

If you would like to discuss any aspects of this submission or have any questions please contact the undersigned - Tasio Cokis on 9388 1199.

Yours Sincerely

Woodsome Management Pty Ltd on behalf of the AELO
Cc DevelopmentWA, Eglinton Estates Pty Ltd, Peet Ltd, Cedar Woods & Urban Quarter.

Independent Auditors' Report to the City of Wanneroo ("the City") on the Annual Cost Review for Alkimos Eglinton Development Contribution Plan

Scope

We have performed an audit of the Annual Cost Review of Alkimos Eglinton Development Contribution Plan ("DCP") and reviewed the methodology used in calculating and estimating the costs for the remaining DCP works, to establish the accuracy of the Annual Cost Review of Alkimos Eglinton DCP as per the requirement under the District Planning Scheme No. 2 ("DPS 2") and the State Planning Policy 3.6 ("SPP 3.6") and provide independent certification of such costs. Our agreed scope of work relied on a third party for verification of the square meters ("M2") used to calculate the developer contributions. Our audit of the Annual Cost Review for 2022/23 covered actual transactions from 1 July 2021 to 30 June 2022 and estimated costs for future years, while ascertaining that the actual expenditure incurred gives a true and fair view and ensure that the assumptions used in the estimations of DCP costs are in accordance with the DPS 2 and SPP3.6.

The City's Responsibilities

The City is responsible for ensuring that the DCP costs incurred, estimated and the Cost Per Hectare ("CPH") charged are in accordance with the DPS 2 and related regulations, policies and procedures. The City is responsible for ensuring that all DCP cost records are free of misstatements and omissions, and establish adequate internal controls for DCP cost incurring, estimating and the calculation of CPH rates, and ensure that adequate financial records have been maintained. The City is responsible for providing all financial records and related data, other information, explanations and assistance necessary for the conduct of the audit of the DCP cost reviews.

Compliance with Independence and Other Ethical Requirements

We have complied with the relevant independence and other ethical requirements relating to assurance engagements, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

Auditor's Responsibilities

Our responsibility is to express an opinion on the reasonability of the methodology used, in calculating and estimating costs for the remaining works, and assess the documentation provided to certify that the costs are incurred and estimated as per the DPS 2. We conducted our audit in accordance with Auditing Standards. These Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the methodology used in forming the basis of cost incurring, CPH rate calculation and estimation is free from material misstatement. An audit involves performing procedures to obtain audit evidence about the methodology used in forming the basis on the relevance of DCP costs incurred and estimations made for the remaining DCP development works.

wa.info@williambuck.com
williambuck.com

William Buck is an association of firms, each trading under the name of William Buck across Australia and New Zealand with affiliated offices worldwide.
Liability limited by a scheme approved under Professional Standards Legislation.

The procedures selected depend on the auditor's judgement including the assessment of the risks of material misstatement of the methodology used. In making those risk assessments, the auditor considers internal control relevant to the City's preparation of the methodology used in forming the basis of cost incurring and DCP cost estimations in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the City, as well as the City's alignment to DPS 2 and SPP 3.6.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Limitation on the scope

- We have not performed any market evaluation for estimated costs and relied on the third-party reports of Donald Cant Watts Corke for validating the reliability of estimated cost of works.
- We have relied on the M2 as outlined on the individual Landgate Deposited Plan ("DP") maps as provided by the City to determine each DP total M2.

Audit Opinion

In our opinion, other than stated under the Limitation of Scope Paragraph above, in all material respects, the DCP costs incurred, estimated for remaining development works, and proposed CPH rate of \$159,744.65 (as per DPS 2 CPH formula) were fairly stated and in compliance to DPS 2 and SPP 3.6.

Basis of accounting and restriction of distribution

Without modifying our opinion, we draw your attention to Schedule 15 Developer Contribution Plan of DPS 2, which describes the basis of funding, method of calculating contribution and the CPH rate, for the purpose of reporting to the City. As a result, the methodology used in forming the basis of this may not be suitable for another purpose. Our report is intended solely for the City and should not be distributed or used by other parties' other than the City. The Audit Report is not to be used by any other party for any purpose nor should any other party seek to rely on the opinions, advices or any information contained within this Audit Report.

William Buck Audit (WA) Pty Ltd disclaim all liability to any party other than the City who choose to rely in any way on the contents of this Audit Report does so at their own risk.

4.3 Local Planning Policy - Compliance 4.14 Review

File Ref: 8222 – 22/401786
Responsible Officer: Director Planning and Sustainability
Attachments: 3

Issue

To consider a review of Local Planning Policy 4.14: Compliance.

Background

Local Planning Policy 4.14: Compliance (LPP 4.14) sets out the manner in which the City will investigate and take action against any alleged breach of the Planning and Development Act 2005, the City's District Planning Scheme No 2 (DPS 2), the Building Act 2011, the Building Regulations 2012, the Local Government Act 1995 and related Local Laws. The Policy does not apply to the enforcement of other legislation or approvals, whether administered by the City or not. Attachment 1 provides the current version of the Policy as approved at the Ordinary Council Meeting on 16 February 2021.

Detail

The purpose of Local Planning Policy 4.14: Compliance is to establish a consistent, transparent and integrated approach for planning and building compliance.

The Policy seeks to ensure that any alleged non-compliances and breaches of the relevant legislation are investigated in a fair, transparent and equitable manner. The Policy also facilitates negotiated outcomes where it is found that a breach of the relevant legislation or conditions of approval or permit have not been complied with.

The Policy enables Administration to undertake legal, accountable and defensible enforcement action when voluntary compliance is not forthcoming.

A review of LPP 4.14 has been completed by Administration with only minor changes recommended. Attachment 2 provides a tracked changes copy of the proposed revised LPP 4.14.

Consultation

As the proposed changes to the Policy are minor, advertising is not required.

Comment

Administration's approach to development compliance involves assisting owners and occupiers to achieve statutory compliance voluntarily. Officers provide guidance and education, communicating the City's expectations verbally and in writing. Often there is a need to request changes in behaviour or to set intermediate compliance milestones in advance of achieving fully compliant outcomes. This approach aligns with the City's Values of Customer Focused, Respect, Improvement, Collaboration and

Accountability. Enforcement and legal action is the last resort when compliance is not being achieved.

Compliance Services delivers a range of statutory Planning compliance, Building compliance, Swimming Pool Safety Barrier compliance and Local Law compliance services. In the 2021/22 financial year, Compliance Services continued to deliver proactive swimming pool and spa safety barrier audits and a proactive sand drift inspection program that focuses on major development sites to promote compliance and maintain community safety.

The City's current approach to Planning and Building compliance is predominantly based on investigating an alleged non-compliance or a breach following a complaint or enquiry being received. All complaints of alleged non-compliance are investigated to determine the level of public and environmental risk and are prioritised in the manner outlined in clause 2.0 of the Policy. The circumstances where the City may determine not to take compliance action are outlined in clause 3.0 of the Policy. This reflects a nuanced and pragmatic approach to development compliance.

The remainder of the Policy provides guidance to Administration on the process of undertaking compliance action. An underlying principle is escalating consequences for ongoing non-compliance that are proportionate to each specific matter and circumstance.

Administration considers that the current approach to development compliance is working well and is only recommending very minor wording changes to Section 4 of the Policy which does not change the intent or function of the Policy. Administration is seeking Council agreement to proceed with the proposed minor changes to LPP 4.14 as provided in Attachment 3, and publish a notice of the amendments.

Statutory Compliance

The Policy was prepared under the provisions of Clause 3, Schedule 2, Part 2, Division 2 of the Planning and Development (Local Planning Schemes) Regulations 2015 (the Regulations) and complements relevant planning and building legislation.

Strategic Implications

The proposal aligns with the following objective within the Strategic Community Plan 2021 – 2031:

7 ~ A well governed and managed City that makes informed decisions, provides strong community leadership and valued customer focused services

7.1 - Clear direction and decision making

Risk Management Considerations

There are no existing Strategic or Corporate risks within the City's existing risk registers which relate to the issues contained in this report.

Policy Implications

The current version of Local Planning Policy 4.14: Compliance was approved at the Ordinary Council Meeting on 16 February 2021. Administration commenced a scheduled review of the Policy in September 2022 and is recommending minor changes only, to improve the clarity of

the Policy. Administration intends to review this Policy on a 4 year cycle in the future, noting that a review can be undertaken earlier if required.

Financial Implications

Voting Requirements

Simple Majority

Recommendation

That Council:-

- 1. Pursuant to Clause 5 and Clause 4(4) of the deemed provisions for local planning schemes contained in Schedule 2 of the Planning and Development (Local Planning Schemes) Regulations 2015:**
 - a) AGREES that proposed amendments to Local Planning Policy 4.14: Compliance are minor and do not warrant advertising; and**
 - b) PROCEEDS with the amendments to Local Planning Policy 4.14: Compliance as referred to in (1.a) above; and**
- 2. Subject to Item (1) above, REQUESTS Administration publish a notice of the amendments made to Local Planning Policy 4.14: Compliance, pursuant to Clause 5 and Clause 4(4) of the deemed provisions for local planning schemes contained in Schedule 2 of the Planning and Development (Local Planning Schemes) Regulations 2015.**

Local Planning Policy Framework
Local Planning Policy 4.14: Compliance

PART 1 – POLICY OPERATION

Owner	Health and Compliance
Implementation	16 February 2021
Next Review	Biennial – September 2022

Policy Development and Purpose

This Policy is prepared under the provisions of clause 3, Schedule 2, Part 2, Division 2 of the Planning and Development (Local Planning Schemes) Regulations 2015 (the Regulations).

The purpose of the Policy is to establish a consistent, transparent and integrated approach for planning and building compliance.

Policy Objectives

The Policy objectives are:

1. To ensure that development complies with the provisions of the District Planning Scheme No.2 (the Scheme), the Planning and Development Act 2005 and conditions of development approval.
2. To ensure that building works and breaches comply with the provisions of the Building Act 2011, the Building Regulations 2012 and building permit conditions, together with any relevant provisions contained in the Local Government Act 1995 and Local Laws adopted by the Council.
3. To ensure that any alleged non-compliances and/or breaches of the relevant legislation are investigated in a fair, transparent and equitable manner.
4. To facilitate negotiated outcomes where it is found that a breach of the relevant legislation or conditions of approval or permit have not been complied with.
5. To undertake legal, accountable and defensible enforcement.

Definitions

Building: has the same meaning as the term defined in section 3 of the Building Act 2011

Building Commission: means a Commission of the Western Australian Department of Commerce

Building Work: has the same meaning as the term defined in section 3 of the Building Act 2011

City: means the administrative officials serving the elected Council of the local government

Council: means the elected Council of the local government

Development: has the same meaning as the term defined in section 4 of the Planning and Development Act 2005

District: means the boundaries of the City of Wanneroo

Planning and Sustainability
Local Planning Policy Framework
Local Planning Policy 4.14: Compliance

Discovery of Non-compliance

The City may become aware of an alleged non-compliance or a breach by a land owner or occupier within the District through either a site inspection, aerial photography or a complaint. In the case of a complaint, the City will investigate all complaints whether received in writing, by telephone or in person.

Inspections

The City will not, as a matter of course, carry out inspections of properties to determine if the development on land is compliant. However, should a site inspection reveal a non-compliance, the City is obliged to investigate the matter and determine what course of action to take if any. All complaints of alleged non-compliance, will be investigated by the City to determine the level of public and environmental risk as described under clause 2 of the Policy.

PART 2 – GENERAL POLICY PROVISIONS

The Policy applies to alleged breaches of the Planning and Development Act 2005, the District Planning Scheme, the Building Act 2011, the Local Government Act 1995 and Local Laws.

Planning issues relating to amenity and/or adverse impacts on adjoining properties will be dealt with before building issues, with the exception of buildings that are deemed to be high risk, dangerous or unsafe. Dangerous and unsafe buildings may be dealt with under both the planning and building legislation simultaneously.

1.0 Jurisdiction

- 1.1 Any compliance issue falling outside the jurisdiction of the City will be referred to the relevant authority for action, and the complainant will be advised accordingly. No further action will be taken by the City.
- 1.2 Any compliance issue falling partly within the jurisdiction of the City and partly within the jurisdiction of another authority, that part falling within City's jurisdiction will be dealt with in accordance with this Policy, and that part falling outside the City's jurisdiction will be referred to the relevant authority for action, and the complainant will be advised accordingly.

2.0 Priority

- 2.1 Compliance priorities will be processed in the following order, irrespective of the number or frequency of complaints received, namely:-
 - (a) Dangerous and/or unsafe works, and matters of significant nuisance with a high risk of adversely impacting on public amenity, health and/or safety regardless of the constructed/installation date;

Planning and Sustainability
Local Planning Policy Framework

Local Planning Policy 4.14: Compliance

- (b) Any matter involving irreversible and permanent damage to a building or place on the State Register of Heritage Places or on the Municipal Heritage Inventory established under the scheme, or the natural environment;
- (c) All other compliance issues not referred to in 1 and 2 above, will be progressed in the order in which the City becomes aware of the matter;
- (d) All compliance matters will be investigated where the City has reasonable grounds to suspect that non-compliant activity is occurring.
- (e) The City will not take action in relation to those complaints which the Council determines are either frivolous, or have been made with the intention to create mischief.

3.0 Determine Not To Take Compliance Action

- 3.1 The City may determine not to take compliance action where:-
- (a) On the balance of issues, it is not within the public interest to do so;
 - (b) The non-compliance does not require approval, or at the time of development or building work the non-compliance would not have required approval.
 - (c) The non-compliance is building work constructed/installed pre 2 April 2012, prior to the introduction of the Building Act 2011.
 - (d) A deviation from approved plans will not adversely impact the adjoining properties or streetscape, any approvals or requirements of the relevant legislation.
 - (f) After reasonable investigation, it is uncertain that the matter is compliant or is incapable of being made compliant due to a lack of specific information in the plans and documents of any relevant approval or a lack of certainty at the time of development as to the legal status of the development or the requirement to obtain approval;
 - (g) The extent of the non-compliance is so minor that the distinction between complying and not complying with the relevant legislation would be unnoticeable to the general public; or
 - (h) The non-compliance has been in existence for a substantial period of time and has had no apparent adverse impact on the amenity, health or safety of the adjoining properties, the streetscape, the locality or the natural environment, and the land use, development or building work pose no potential risk to the public or the natural environment.

Planning and Sustainability
Local Planning Policy Framework

Local Planning Policy 4.14: Compliance

- 3.2 In determining not to take compliance action, the City is not legitimising or giving its consent or approval to the non-compliance, but has decided, in the particular circumstance, not to pursue the matter.
- 3.3 Notwithstanding clause 3.1 and 3.2 of the Policy, the City may in the future determine to take action to require compliance, in any particular case, pursuant to clause 6 of the Policy.

4. Undertaking Compliance Action

- 4.1 The City will issue a notice advising that a non-compliant development, building work or breach of the Local Government Act 1995 and/or Local Laws has been identified, and that contact with the City is required within 7 days, to discuss the breach and time frame for compliance.
- 4.2 After the expiry of the notice period outlined in clause 4.1 with no contact made with the City or no reasonable time frame for compliance established, the City will issue a notice requiring that a non-compliant development, building work or breach of the Local Government Act 1995 and/or Local Laws be made compliant within 28 days where:-
 - (a) An outstanding condition of development approval, non-compliant development or building work has not been complied with to the City's satisfaction, within a specified time.
 - (b) Clauses 8.2 and 8.3 of the scheme have been breached relating to the preservation of the local amenity and unkempt land, respectively.
 - (c) There is a breach of the Local Government Act 1995 or relevant Local Law.
- 4.3 Notwithstanding clause 4.1 and 4.2 of the Policy, where the non-compliance or breach of the conditions of approval and/or the scheme is determined by the City to have a significant adverse impact on the amenity, health and/or safety of the public or the natural environment, a notice may be issued to the land owner requiring that the land use or the building work be stopped immediately and the non-compliance or breach be rectified within a timeframe appropriate to the severity of the non-compliance or breach, as determined by the City.
- 4.4 The City may at its absolute discretion temporarily defer the commencement of enforcement action where an application for planning, building or Local Law approval has been submitted in respect of the alleged breach, within 28 days of the City's notice outlined in clause 4.2 above, or such further period agreed in writing by the City.
- 4.5 After the expiry of the notice period outlined in clause 4.2, the City may at its absolute discretion issue a further notice of a lesser period requiring that a non-compliant development, building work or breach of the Local Government Act 1995 and/or Local Laws be made compliant

Planning and Sustainability
Local Planning Policy Framework

Local Planning Policy 4.14: Compliance

- 4.6 If after the notice period the non-compliance referred to in clauses 4.1, 4.2, 4.3 or 4.5 of the Policy, has not ceased or been rectified as directed, or where land is being used unlawfully or without approval, the following action may apply simultaneously:-
- 4.6.1. The issuing of the following:
- a. An infringement to the offending party in accordance with the penalties prescribed in the Planning and Development Regulations 2009, the relevant Local Law, or any other applicable law the City is empowered to issue an infringement under, as the case may be;
 - b. A written direction pursuant to section 214 of the Planning and Development Act 2005 will be issued requiring the non-compliance be made compliant within 60 days from the date of the direction, or another period specified by the City. The written direction may require (amongst other things) the land owner/recipient to obtain subsequent development approval, cease the unapproved development, remove any unapproved structures or undertake prescribed work;
 - c. A building order may be issued under section 110 of the Building Act 2011 in respect to particular building work, demolition work or incidental structure specifying the period in which to comply with the order;
 - d. A notice under Section 3.25 of the Local Government Act 1995; and/or
 - e. A notice under the respective Local law;
- 4.6.2. If non-compliance has not been rectified after the expiry of the date of the written direction, order or notice or other period specified by the City as the case may be, the commencement of legal action:
- a. As provided for under Section 10 of the Planning and Development Act 2005;
 - b. To enforce a penalty under Section 115 of the Building Act 2011;
 - c. Under Section 9.24 of the Local Government Act 1995; and/or
 - d. As provided for under the relevant Local Law
- 4.7 Nothing in this Clause 4 precludes the City from commencing prosecution in respect of a non-compliance at any time.
- 4.8 Notwithstanding clauses 4.1, 4.2, 4.3, 4.4 and 4.5 of the Policy, the City may, having regard to clause 6 of the Policy, grant an extension of time, where in the opinion of the City there has been a genuine attempt by the land owner to address the non-compliance.

Planning and Sustainability
Local Planning Policy Framework

Local Planning Policy 4.14: Compliance

- 4.9 Where a City decision relating to non-compliance is referred to the State Administrative Tribunal, (SAT) or Council for review by the land owner, the City will defer any further compliance action until the matter has been determined by SAT or Council, unless an order has been made under section 111(2) of the Building Act 2011.
- 4.10. If the City is of the opinion that the referral by the land owner to SAT is frivolous, vexatious or used to delay or frustrate the action of the City to require the land use, development or building work to be made compliant, the City will not support any requests for adjournments to the SAT proceedings.

5 Subsequent Approvals

- 5.1 Under clause 65 of the deemed provisions of the Regulations, the Council has the discretion to give subsequent development approval to a development already existing or commenced without having applied for or received the Council's approval. Sometimes is referred to as retrospective approval.
- 5.2 Clause 65, does not affect the power of the Council to take legal action for a breach of the scheme or the Planning and Development Act 2015. Section 51 of the Building Act 2011 provides for the authorisation of unauthorised occupancy of a building or building work by retrospectively issuing an occupancy permit or building approval certificate.
- 5.3 When considering subsequent approval, the Council shall have regard for the following:-
- (a) The extent of compliance of the development or building work with the relevant legislation, regulations, scheme provisions and policies.
 - (b) The ability of the development or building work to be made compliant.
- 5.4 Subject to the receipt of a complete application and the payment of the appropriate fees the Council may issue a subsequent approval with or without conditions.
- 5.5 The Planning and Development Regulations 2009, Schedule 2 prescribes the maximum fees, and in respect to development applications (other than extractive industries) where development has commenced or been carried out, the fee for the subsequent approval is the prescribed development fee which includes an additional charge to reflect a financial penalty for commencing the development without approval.
- 5.6 In respect to unauthorised building works, the fees are set out in the City's schedule of building fees. The unauthorised works need to be certified and inspected.
- 5.7 Before a land owner with unapproved development or unauthorised building works is advised to apply for subsequent approval or a Building Approval Certificate, the City shall ensure that the retrospective approval or permit has the prospect of being issued.
- 5.8 If the City determines that an unapproved development or unauthorised building work cannot be made compliant by the issue of a subsequent approval or a building approval certificate, the land owner may be liable for a penalty.

6 Discretionary Action

- 6.1 Where there are extenuating circumstances associated with the reason for non-compliance in relation to a development or building work, the City shall have regard for the following when deciding the course of action it may take against the land owner in relation to the matter:-
- (a) The need to reinforce the orderly and proper development of the District.
 - (b) The public interest served by requiring the land owner to comply with the law.
 - (c) The factual circumstances which may have caused the non-compliance and/or the breach of the applicable laws and requirements relating to the development, building or building work.

7 Proof of Compliant Development

- 7.1 Under clause 6.3.3 of the Scheme it states in relation to development that:- "No use shall commence until such time as all conditions of approval have been satisfied and the development from which the use is to be conducted has been completed in accordance with approved plans, unless otherwise agreed in writing by the Council."
- 7.2 In order to satisfy clause 6.3.3 of the Scheme, the land owner or authorised agent shall certify to the City that the development has been completed in accordance with all the relevant conditions of the approval.
- 7.3 To facilitate this, a condition shall be included on all conditional development approvals, unless the Council determines otherwise, stating:-
- "The owner/applicant is to submit the "Certification of Compliance with Development Approval Conditions" form certifying that all of the conditions specified in the approval by the Council for the development of the land have been completed in accordance with the approved plans, and the certification is to be lodged with the Council within 14 days from the date of practical completion, and applies to all of the conditions, except for those conditions relating to on-going compliance."*
- 7.4 The City shall determine those use classes requiring development approval which will require "certification", but in any event will include the general land use categories of multi-residential, commercial and industrial.
- 7.5 Attached to the Policy is a copy of the "Certification of Compliance with Development Approval Conditions" form. The form will be attached to the City of Wanneroo Development Approval, and is to be completed and certified by the land owner or the applicant as the authorised agent of the owner and returned to the City within the prescribed time.

Planning and Sustainability
Local Planning Policy Framework
Local Planning Policy 4.14: Compliance

8. Proof of Compliant Building Work

- 8.1 Under section 33 of the Building Act 2011 and regulation 4 of the Building Regulations 2012, the responsible person is required within 7 days of completion of the works, to submit a Notice of Completion form BA7 to the City notifying that the works are complete. If the form is not submitted to the City within the specified time, the responsible person may be liable for a penalty of \$10,000.
- 8.2 In respect to commercial buildings, the City issues a Certificate of Occupancy, which confirms that the building has been completed in accordance with the conditions of the permit.
- 8.3 For all other building work, any dispute about the building not complying with the conditions of approval, will become a matter to be resolved between the owner and the builder, and if the matter remains unresolved, it may be referred to the Building Commission for determination.
- 8.4 Private building surveyors are responsible for ensuring that privately certified buildings are compliant following completion. In respect to privately certified building applications the City only determines if the correct information has been provided with the application, prior to issuing a building permit.
- 8.5 The City's Building Services' is responsible for assessing building applications and issuing building permits for those buildings that are not privately certified.
- 8.6 In addition, the City's Building Services' is responsible for processing all applications for single houses, grouped dwellings, and multiple dwellings under the Residential Design Codes to ensure the applications comply, whether or not the plans have been privately certified.

9 Limitations

- 9.1 This Policy only relates to development and building works where a development approval and a building permit are required or have been issued.
- 9.2 The policy does not apply to zoning anomalies, inconsistencies with adopted or endorsed structure plans.
- 9.3 Where there is a difference between the provision of the Planning and Development Act 2005 and the Scheme, the Scheme prevails.

NOTE:-

1. The Certification shall be signed by the land owner or by an authorised agent of the land owner.
2. Clause 6.3.1 of the City of Wanneroo District Planning Scheme No. 2 states that:- ***“...no person shall use any land or building affected by the conditions or suffer or permit them to be used or otherwise commence or carry out or suffer or permit the commencement or carrying out of any development on land otherwise than in accordance with the conditions.”*** , and
3. Clause 6.3.3 of the Scheme states ***that “No use shall commence until such time as all conditions of approval have been satisfied and the development from which the use is to be conducted has been completed in accordance with approved plans, unless otherwise agreed in writing by the Council.”***
4. Until the Council receives the completed *“Certification of Compliance with Development Approval Conditions”* form as required as a condition of development approval, the development will be deemed to be non-compliant.
5. Any queries regarding the completion of the *“Certificate of Compliance with Development Approval Conditions”* should be directed to the Council’s Approval Services by telephone 9405 5000 or by e-mail on enquiries@wanneroo.wa.gov.au.

The completed Certification can be hand delivered to the Council Office, mailed to City of Wanneroo, Locked Bag 1, Wanneroo WA 6946 or emailed to enquiries@wanneroo.wa.gov.au.

PART 1 – POLICY OPERATION

Policy Development and Purpose

This Policy is prepared under the provisions of clause 3, Schedule 2, Part 2, Division 2 of the Planning and Development (Local Planning Schemes) Regulations 2015 (the Regulations).

The purpose of the Policy is to establish a consistent, transparent and integrated approach for planning and building compliance.

Policy Objectives

The Policy objectives are:

1. To ensure that development complies with the provisions of the District Planning Scheme No.2 (the Scheme), the Planning and Development Act 2005 and conditions of development approval.
2. To ensure that building works and breaches comply with the provisions of the Building Act 2011, the Building Regulations 2012 and building permit conditions, together with any relevant provisions contained in the Local Government Act 1995 and Local Laws adopted by the Council.
3. To ensure that any alleged non-compliances and/or breaches of the relevant legislation are investigated in a fair, transparent and equitable manner.
4. To facilitate negotiated outcomes where it is found that a breach of the relevant legislation or conditions of approval or permit have not been complied with.
5. To undertake legal, accountable and defensible enforcement.

Discovery of Non-compliance

The City may become aware of an alleged non-compliance or a breach by a land owner or occupier within the District through either a site inspection, aerial photography or a complaint. In the case of a complaint, the City will investigate all complaints whether received in writing, by telephone or in person.

Inspections

The City will not, as a matter of course, carry out inspections of properties to determine if the development on land is compliant. However, should a site inspection reveal a non-compliance, the City is obliged to investigate the matter and determine what course of action to take if any.

All complaints of alleged non-compliance, will be investigated by the City to determine the level of public and environmental risk as described under clause 2 of the Policy.

PART 2 – GENERAL POLICY PROVISIONS

The Policy applies to alleged breaches of the Planning and Development Act 2005, the District Planning Scheme, the Building Act 2011, the Local Government Act 1995 and Local Laws.

Planning issues relating to amenity and/or adverse impacts on adjoining properties will be dealt with before building issues, with the exception of buildings that are deemed to be high risk, dangerous or unsafe. Dangerous and unsafe buildings may be dealt with under both the planning and building legislation simultaneously.

1.0 Jurisdiction

- 1.1 Any compliance issue falling outside the jurisdiction of the City will be referred to the relevant authority for action, and the complainant will be advised accordingly. No further action will be taken by the City.
- 1.2 Any compliance issue falling partly within the jurisdiction of the City and partly within the jurisdiction of another authority, that part falling within City's jurisdiction will be dealt with in accordance with this Policy, and that part falling outside the City's jurisdiction will be referred to the relevant authority for action, and the complainant will be advised accordingly.

2.0 Priority

- 2.1 Compliance priorities will be processed in the following order, irrespective of the number or frequency of complaints received, namely:-
 - (a) Dangerous and/or unsafe works, and matters of significant nuisance with a high risk of adversely impacting on public amenity, health and/or safety regardless of the constructed/installation date;

- (b) Any matter involving irreversible and permanent damage to a building or place on the State Register of Heritage Places or on the Municipal Heritage Inventory established under the scheme, or the natural environment;
- (c) All other compliance issues not referred to in 1 and 2 above, will be progressed in the order in which the City becomes aware of the matter;
- (d) All compliance matters will be investigated where the City has reasonable grounds to suspect that non-compliant activity is occurring.
- (e) The City will not take action in relation to those complaints which the Council determines are either frivolous, or have been made with the intention to create mischief.

3.0 Determine Not To Take Compliance Action

3.1 The City may determine not to take compliance action where:-

- (a) On the balance of issues, it is not within the public interest to do so;
- (b) The non-compliance does not require approval, or at the time of development or building work the non-compliance would not have required approval.
- (c) The non-compliance is building work constructed/installed pre 2 April 2012, prior to the introduction of the Building Act 2011.
- (d) A deviation from approved plans will not adversely impact the adjoining properties or streetscape, any approvals or requirements of the relevant legislation.
- (f) After reasonable investigation, it is uncertain that the matter is compliant or is incapable of being made compliant due to a lack of specific information in the plans and documents of any relevant approval or a lack of certainty at the time of development as to the legal status of the development or the requirement to obtain approval;
- (g) The extent of the non-compliance is so minor that the distinction between complying and not complying with the relevant legislation would be unnoticeable to the general public; or
- (h) The non-compliance has been in existence for a substantial period of time and has had no apparent adverse impact on the amenity, health or safety of the adjoining properties, the streetscape, the locality or the natural environment, and the land use, development or building work pose no potential risk to the public or the natural environment.

- 3.2 In determining not to take compliance action, the City is not legitimising or giving its consent or approval to the non-compliance, but has decided, in the particular circumstance, not to pursue the matter.

3.3 Notwithstanding clause 3.1 and 3.2 of the Policy, the City may in the future determine to take action to require compliance, in any particular case, pursuant to clause 6 of the Policy.

4. Undertaking Compliance Action

4.1 The City ~~may will~~ issue a ~~notice~~ correspondence advising that a non-compliant development, building work or breach of the Local Government Act 1995 and/or Local Laws has been identified, and that contact with the City is required within 7 days, to discuss the breach and time frame for compliance.

4.2 After the expiry of the ~~notice~~ period outlined in clause 4.1 with no contact made with the City or no reasonable time frame for compliance established, the City will issue a ~~notice~~ letter requiring that a non-compliant development, building work or breach of the Local Government Act 1995 and/or Local Laws be made compliant within 28 days where:-

- (a) An outstanding condition of development approval, non-compliant development or building work has not been complied with to the City's satisfaction, within a specified time.
- (b) Clauses 8.2 and 8.3 of the scheme have been breached relating to the preservation of the local amenity and unkempt land, respectively.
- (c) There is a breach of the Local Government Act 1995 or relevant Local Law.

4.3 Notwithstanding clause 4.1 and 4.2 of the Policy, where the non-compliance or breach of the conditions of approval and/or the scheme is determined by the City to have a significant adverse impact on the amenity, health and/or safety of the public or the natural environment, a written direction pursuant to section 214 ~~notice of the Planning and Development Act 2005~~ may be issued to the land owner requiring that the land use or the building work be stopped immediately and the non-compliance or breach be rectified within a timeframe appropriate to the severity of the non-compliance or breach, as determined by the City.

4.4 The City may at its absolute discretion temporarily defer the commencement of enforcement action where an application for planning, building or Local Law approval has been submitted in respect of the alleged breach, within 28 days of the City's ~~notice~~ letter outlined in clause 4.2 above, or such further period agreed in writing by the City.

4.5 After the expiry of the ~~notice~~ period outlined in clause 4.2, the City may at its absolute discretion issue a further notice of a lesser period ~~letter~~ requiring that a non-compliant development, building work or breach of the Local Government Act 1995 and/or Local Laws be made compliant

4.6 If after the expiry of the time ~~notice~~ period the non-compliance referred to in clauses 4.1, 4.2, 4.3 or 4.5 of the Policy, has not ceased or been rectified as directed, or where land is being used unlawfully or without approval, the following action may apply simultaneously:-

Planning and Sustainability
Local Planning Policy Framework
Local Planning Policy 4.14: Compliance

- 4.6.1. The issuing of the following:
- a. An infringement to the offending party in accordance with the penalties prescribed in the Planning and Development Regulations 2009, the relevant Local Law, or any other applicable law the City is empowered to issue an infringement under, as the case may be;
 - b. A written direction pursuant to section 214 of the Planning and Development Act 2005 will be issued requiring the non-compliance be made compliant within 619 days from the date of the direction, or another period specified by the City. The written direction may require (amongst other things) the land owner/recipient to obtain subsequent development approval, cease the unapproved development, remove any unapproved structures or undertake prescribed work;
 - c. A building order may be issued under section 110 of the Building Act 2011 in respect to particular building work, demolition work or incidental structure specifying the period in which to comply with the order;
 - d. A notice under Section 3.25 of the Local Government Act 1995; and/or
 - e. A notice under the respective Local law;
- 4.6.2. If non-compliance has not been rectified after the expiry of the date of the written direction, order or notice or other period specified by the City as the case may be, the commencement of legal action:
- a. As provided for under Section 10 of the Planning and Development Act 2005;
 - b. To enforce a penalty under Section 115 of the Building Act 2011;
 - c. Under Section 9.24 of the Local Government Act 1995; and/or
 - d. As provided for under the relevant Local Law
- 4.7 Nothing in this Clause 4 precludes the City from commencing prosecution in respect of a non-compliance at any time.
- 4.8 Notwithstanding clauses 4.1, 4.2, 4.3, 4.4 and 4.5 of the Policy, the City may, having regard to clause 6 of the Policy, grant an extension of time, where in the opinion of the City there has been a genuine attempt by the land owner to address the noncompliance.
- 4.9 Where a City decision relating to non-compliance is referred to the State Administrative Tribunal, (SAT) or Council for review by the land owner, the City will defer any further compliance action

until the matter has been determined by SAT or Council, unless an order has been made under section 111(2) of the Building Act 2011.

- 4.10 If the City is of the opinion that the referral by the land owner to SAT is frivolous, vexatious or used to delay or frustrate the action of the City to require the land use, development or building work to be made compliant, the City will not support any requests for adjournments to the SAT proceedings.

5 Subsequent Approvals

- 5.1 Under clause 65 of the deemed provisions of the Regulations, the Council has the discretion to give subsequent development approval to a development already existing or commenced without having applied for or received the Council's approval. Sometimes is referred to as retrospective approval.
- 5.2 Clause 65, does not affect the power of the Council to take legal action for a breach of the scheme or the Planning and Development Act 2015. Section 51 of the Building Act 2011 provides for the authorisation of unauthorised occupancy of a building or building work by retrospectively issuing an occupancy permit or building approval certificate.
- 5.3 When considering subsequent approval, the Council shall have regard for the following:-
- (a) The extent of compliance of the development or building work with the relevant legislation, regulations, scheme provisions and policies.
 - (b) The ability of the development or building work to be made compliant.
- 5.4 Subject to the receipt of a complete application and the payment of the appropriate fees the Council may issue a subsequent approval with or without conditions.
- 5.5 The Planning and Development Regulations 2009, Schedule 2 prescribes the maximum fees, and in respect to development applications (other than extractive industries) where development has commenced or been carried out, the fee for the subsequent approval is the prescribed development fee which includes an additional charge to reflect a financial penalty for commencing the development without approval.
- 5.6 In respect to unauthorised building works, the fees are set out in the City's schedule of building fees. The unauthorised works need to be certified and inspected.
- 5.7 Before a land owner with unapproved development or unauthorised building works is advised to apply for subsequent approval or a Building Approval Certificate, the City shall ensure that the retrospective approval or permit has the prospect of being issued.

- 5.8 If the City determines that an unapproved development or unauthorised building work cannot be made compliant by the issue of a subsequent approval or a building approval certificate, the land owner may be liable for a penalty.
- 6 Discretionary Action
- 6.1 Where there are extenuating circumstances associated with the reason for noncompliance in relation to a development or building work, the City shall have regard for the following when deciding the course of action it may take against the land owner in relation to the matter:-
- (a) The need to reinforce the orderly and proper development of the District.
 - (b) The public interest served by requiring the land owner to comply with the law.
 - (c) The factual circumstances which may have caused the non-compliance and/or the breach of the applicable laws and requirements relating to the development, building or building work.
- 7 Proof of Compliant Development
- 7.1 Under clause 6.3.3 of the Scheme it states in relation to development that:- “No use shall commence until such time as all conditions of approval have been satisfied and the development from which the use is to be conducted has been completed in accordance with approved plans, unless otherwise agreed in writing by the Council.”
- 7.2 In order to satisfy clause 6.3.3 of the Scheme, the land owner or authorised agent shall certify to the City that the development has been completed in accordance with all the relevant conditions of the approval.
- 7.3 To facilitate this, a condition shall be included on all conditional development approvals, unless the Council determines otherwise, stating:-
- “The owner/applicant is to submit the “Certification of Compliance with Development Approval Conditions” form certifying that all of the conditions specified in the approval by the Council for the development of the land have been completed in accordance with the approved plans, and the certification is to be lodged with the Council within 14 days from the date of practical completion, and applies to all of the conditions, except for those conditions relating to on-going compliance.”
- 7.4 The City shall determine those use classes requiring development approval which will require “certification”, but in any event will include the general land use categories of multi-residential, commercial and industrial.
- 7.5 Attached to the Policy is a copy of the “Certification of Compliance with Development Approval Conditions” form. The form will be attached to the City of Wanneroo Development Approval, and is to be completed and certified by the land owner or the applicant as the authorised agent of the owner and returned to the City within the prescribed time.

8. Proof of Compliant Building Work

- 8.1 Under section 33 of the Building Act 2011 and regulation 4 of the Building Regulations 2012, the responsible person is required within 7 days of completion of the works, to submit a Notice of Completion form BA7 to the City notifying that the works are complete. If the form is not submitted to the City within the specified time, the responsible person may be liable for a penalty of \$10,000.
- 8.2 In respect to commercial buildings, the City issues a Certificate of Occupancy, which confirms that the building has been completed in accordance with the conditions of the permit.
- 8.3 For all other building work, any dispute about the building not complying with the conditions of approval, will become a matter to be resolved between the owner and the builder, and if the matter remains unresolved, it may be referred to the Building Commission for determination.
- 8.4 Private building surveyors are responsible for ensuring that privately certified buildings are compliant following completion. In respect to privately certified building applications the City only determines if the correct information has been provided with the application, prior to issuing a building permit.
- 8.5 The City's Building Services' is responsible for assessing building applications and issuing building permits for those buildings that are not privately certified.
- 8.6 In addition, the City's Building Services' is responsible for processing all applications for single houses, grouped dwellings, and multiple dwellings under the Residential Design Codes to ensure the applications comply, whether or not the plans have been privately certified.

9. Limitations

- 9.1 This Policy only relates to development and building works where a development approval and a building permit are required or have been issued.
- 9.2 The policy does not apply to zoning anomalies, inconsistencies with adopted or endorsed structure plans.
- 9.3 Where there is a difference between the provision of the Planning and Development Act 2005 and the Scheme, the Scheme prevails.

CERTIFICATION OF COMPLIANCE WITH DEVELOPMENT APPROVAL CONDITIONS

Planning and Sustainability
Local Planning Policy Framework
Local Planning Policy 4.14: Compliance

CITY OF WANNEROO

Property address:

Unit No..... Street No Lot No..... Street Name.

SuburbPost Code

Name of Landowner: Name of the

Applicant:

Date of Development Approval:.....Date of Practical Completion

Development Approval Reference Number:

Description of the Approved Development: Conditions

of Approval to be satisfied at the date of practical completion:-

Condition Numbers:

I hereby confirm that the above conditions of approval have been completed in accordance with the approved plans.

SIGNED:..... Date:

The completed Certification is to be returned to the Approval Services in the Planning and Sustainability Directorate within 14 days of the practical completion of the development. Until the Certificate is received by the Council the development will be deemed to be non-compliant under clause 6.3 of District Zoning Scheme No 2.

NOTE:-

1. The Certification shall be signed by the land owner or by an authorised agent of the land owner.
2. Clause 6.3.1 of the City of Wanneroo District Planning Scheme No. 2 states that:- "...no person shall use any land or building affected by the conditions or suffer or permit them to be used or otherwise commence or carry out or suffer or permit the commencement or carrying out of any development on land otherwise than in accordance with the conditions." , and
3. Clause 6.3.3 of the Scheme states that "No use shall commence until such time as all conditions of approval have been satisfied and the development from which the use is to be conducted has been completed in accordance with approved plans, unless otherwise agreed in writing by the Council."
4. Until the Council receives the completed "Certification of Compliance with Development Approval Conditions" form as required as a condition of development approval, the development will be deemed to be non-compliant.
5. Any queries regarding the completion of the "Certificate of Compliance with Development Approval Conditions" should be directed to the Council's Approval Services by telephone 9405 5000 or by e-mail on enquiries@wanneroo.wa.gov.au.

The completed Certification can be hand delivered to the Council Office, mailed to City of Wanneroo, Locked Bag 1, Wanneroo WA 6946 or emailed to enquiries@wanneroo.wa.gov.au.

Owner	Health and Compliance
Implementation	16 February 2021
Next Review	31 October 2026

PART 1 – POLICY OPERATION

Policy Development and Purpose

This Policy is prepared under the provisions of clause 3, Schedule 2, Part 2, Division 2 of the Planning and Development (Local Planning Schemes) Regulations 2015 (the Regulations).

The purpose of the Policy is to establish a consistent, transparent and integrated approach for planning and building compliance.

Policy Objectives

The Policy objectives are:

1. To ensure that development complies with the provisions of the District Planning Scheme No.2 (the Scheme), the Planning and Development Act 2005 and conditions of development approval.
2. To ensure that building works and breaches comply with the provisions of the Building Act 2011, the Building Regulations 2012 and building permit conditions, together with any relevant provisions contained in the Local Government Act 1995 and Local Laws adopted by the Council.
3. To ensure that any alleged non-compliances and/or breaches of the relevant legislation are investigated in a fair, transparent and equitable manner.
4. To facilitate negotiated outcomes where it is found that a breach of the relevant legislation or conditions of approval or permit have not been complied with.
5. To undertake legal, accountable and defensible enforcement.

Definitions

- Building: has the same meaning as the term defined in section 3 of the Building Act 2011
- Building Commission: means a Commission of the Western Australian Department of Commerce
- Building Work: has the same meaning as the term defined in section 3 of the Building Act 2011
- City: means the administrative officials serving the elected Council of the local government
- Council: means the elected Council of the local government
- Development: has the same meaning as the term defined in section 4 of the Planning and Development Act 2005
- District: means the boundaries of the City of Wanneroo

Discovery of Non-compliance

The City may become aware of an alleged non-compliance or a breach by a land owner or occupier within the District through either a site inspection, aerial photography or a complaint. In the case of a complaint, the City will investigate all complaints whether received in writing, by telephone or in person.

Inspections

The City will not, as a matter of course, carry out inspections of properties to determine if the development on land is compliant. However, should a site inspection reveal a non-compliance, the City is obliged to investigate the matter and determine what course of action to take if any.

All complaints of alleged non-compliance, will be investigated by the City to determine the level of public and environmental risk as described under clause 2 of the Policy.

PART 2 – GENERAL POLICY PROVISIONS

The Policy applies to alleged breaches of the Planning and Development Act 2005, the District Planning Scheme, the Building Act 2011, the Local Government Act 1995 and Local Laws.

Planning issues relating to amenity and/or adverse impacts on adjoining properties will be dealt with before building issues, with the exception of buildings that are deemed to be high risk, dangerous or unsafe. Dangerous and unsafe buildings may be dealt with under both the planning and building legislation simultaneously.

1.0 Jurisdiction

- 1.1 Any compliance issue falling outside the jurisdiction of the City will be referred to the relevant authority for action, and the complainant will be advised accordingly. No further action will be taken by the City.
- 1.2 Any compliance issue falling partly within the jurisdiction of the City and partly within the jurisdiction of another authority, that part falling within City's jurisdiction will be dealt with in accordance with this Policy, and that part falling outside the City's jurisdiction will be referred to the relevant authority for action, and the complainant will be advised accordingly.

2.0 Priority

- 2.1 Compliance priorities will be processed in the following order, irrespective of the number or frequency of complaints received, namely:-
 - (a) Dangerous and/or unsafe works, and matters of significant nuisance with a high risk of adversely impacting on public amenity, health and/or safety regardless of the constructed/installation date;

- (b) Any matter involving irreversible and permanent damage to a building or place on the State Register of Heritage Places or on the Municipal Heritage Inventory established under the scheme, or the natural environment;
- (c) All other compliance issues not referred to in 1 and 2 above, will be progressed in the order in which the City becomes aware of the matter;
- (d) All compliance matters will be investigated where the City has reasonable grounds to suspect that non-compliant activity is occurring.
- (e) The City will not take action in relation to those complaints which the Council determines are either frivolous, or have been made with the intention to create mischief.

3.0 Determine Not To Take Compliance Action

3.1 The City may determine not to take compliance action where:-

- (a) On the balance of issues, it is not within the public interest to do so;
- (b) The non-compliance does not require approval, or at the time of development or building work the non-compliance would not have required approval.
- (c) The non-compliance is building work constructed/installed pre 2 April 2012, prior to the introduction of the Building Act 2011.
- (d) A deviation from approved plans will not adversely impact the adjoining properties or streetscape, any approvals or requirements of the relevant legislation.
- (f) After reasonable investigation, it is uncertain that the matter is compliant or is incapable of being made compliant due to a lack of specific information in the plans and documents of any relevant approval or a lack of certainty at the time of development as to the legal status of the development or the requirement to obtain approval;
- (g) The extent of the non-compliance is so minor that the distinction between complying and not complying with the relevant legislation would be unnoticeable to the general public; or
- (h) The non-compliance has been in existence for a substantial period of time and has had no apparent adverse impact on the amenity, health or safety of the adjoining properties, the streetscape, the locality or the natural environment, and the land use, development or building work pose no potential risk to the public or the natural environment.

- 3.2 In determining not to take compliance action, the City is not legitimising or giving its consent or approval to the non-compliance, but has decided, in the particular circumstance, not to pursue the matter.

- 3.3 Notwithstanding clause 3.1 and 3.2 of the Policy, the City may in the future determine to take action to require compliance, in any particular case, pursuant to clause 6 of the Policy.
4. Undertaking Compliance Action
 - 4.1 The City may issue correspondence advising that a non-compliant development, building work or breach of the Local Government Act 1995 and/or Local Laws has been identified, and that contact with the City is required within 7 days, to discuss the breach and time frame for compliance.
 - 4.2 After the expiry of the period outlined in clause 4.1 with no contact made with the City or no reasonable time frame for compliance established, the City will issue a letter requiring that a non-compliant development, building work or breach of the Local Government Act 1995 and/or Local Laws be made compliant within 28 days where:-
 - (a) An outstanding condition of development approval, non-compliant development or building work has not been complied with to the City's satisfaction, within a specified time.
 - (b) Clauses 8.2 and 8.3 of the scheme have been breached relating to the preservation of the local amenity and unkempt land, respectively.
 - (c) There is a breach of the Local Government Act 1995 or relevant Local Law.
 - 4.3 Notwithstanding clause 4.1 and 4.2 of the Policy, where the non-compliance or breach of the conditions of approval and/or the scheme is determined by the City to have a significant adverse impact on the amenity, health and/or safety of the public or the natural environment, a written direction pursuant to section 214 of the Planning and Development Act 2005 may be issued to the land owner requiring that the land use or the building work be stopped immediately and the non-compliance or breach be rectified within a timeframe appropriate to the severity of the non-compliance or breach, as determined by the City.
 - 4.4 The City may at its absolute discretion temporarily defer the commencement of enforcement action where an application for planning, building or Local Law approval has been submitted in respect of the alleged breach, within 28 days of the City's letter outlined in clause 4.2 above, or such further period agreed in writing by the City.
 - 4.5 After the expiry of the period outlined in clause 4.2, the City may at its absolute discretion issue a letter requiring that a non-compliant development, building work or breach of the Local Government Act 1995 and/or Local Laws be made compliant
 - 4.6 If after the expiry of the time period the non-compliance referred to in clauses 4.1, 4.2, 4.3 or 4.5 of the Policy, has not ceased or been rectified as directed, or where land is being used unlawfully or without approval, the following action may apply simultaneously:-

- 4.6.1. The issuing of the following:
 - a. An infringement to the offending party in accordance with the penalties prescribed in the Planning and Development Regulations 2009, the relevant Local Law, or any other applicable law the City is empowered to issue an infringement under, as the case may be;
 - b. A written direction pursuant to section 214 of the Planning and Development Act 2005 will be issued requiring the non-compliance be made compliant within 61 days from the date of the direction, or another period specified by the City. The written direction may require (amongst other things) the land owner/recipient to obtain subsequent development approval, cease the unapproved development, remove any unapproved structures or undertake prescribed work;
 - c. A building order may be issued under section 110 of the Building Act 2011 in respect to particular building work, demolition work or incidental structure specifying the period in which to comply with the order;
 - d. A notice under Section 3.25 of the Local Government Act 1995; and/or
 - e. A notice under the respective Local law;
- 4.6.2. If non-compliance has not been rectified after the expiry of the date of the written direction, order or notice or other period specified by the City as the case may be, the commencement of legal action:
 - a. As provided for under Section 10 of the Planning and Development Act 2005;
 - b. To enforce a penalty under Section 115 of the Building Act 2011;
 - c. Under Section 9.24 of the Local Government Act 1995; and/or
 - d. As provided for under the relevant Local Law
- 4.7 Nothing in this Clause 4 precludes the City from commencing prosecution in respect of a non-compliance at any time.
- 4.8 Notwithstanding clauses 4.1, 4.2, 4.3, 4.4 and 4.5 of the Policy, the City may, having regard to clause 6 of the Policy, grant an extension of time, where in the opinion of the City there has been a genuine attempt by the land owner to address the noncompliance.
- 4.9 Where a City decision relating to non-compliance is referred to the State Administrative Tribunal, (SAT) or Council for review by the land owner, the City will defer any further compliance action until the matter has been determined by SAT or Council, unless an order has been made under section 111(2) of the Building Act 2011.

- 4.10 If the City is of the opinion that the referral by the land owner to SAT is frivolous, vexatious or used to delay or frustrate the action of the City to require the land use, development or building work to be made compliant, the City will not support any requests for adjournments to the SAT proceedings.

5 Subsequent Approvals

- 5.1 Under clause 65 of the deemed provisions of the Regulations, the Council has the discretion to give subsequent development approval to a development already existing or commenced without having applied for or received the Council's approval. Sometimes is referred to as retrospective approval.
- 5.2 Clause 65, does not affect the power of the Council to take legal action for a breach of the scheme or the Planning and Development Act 2015. Section 51 of the Building Act 2011 provides for the authorisation of unauthorised occupancy of a building or building work by retrospectively issuing an occupancy permit or building approval certificate.
- 5.3 When considering subsequent approval, the Council shall have regard for the following:-
- (a) The extent of compliance of the development or building work with the relevant legislation, regulations, scheme provisions and policies.
 - (b) The ability of the development or building work to be made compliant.
- 5.4 Subject to the receipt of a complete application and the payment of the appropriate fees the Council may issue a subsequent approval with or without conditions.
- 5.5 The Planning and Development Regulations 2009, Schedule 2 prescribes the maximum fees, and in respect to development applications (other than extractive industries) where development has commenced or been carried out, the fee for the subsequent approval is the prescribed development fee which includes an additional charge to reflect a financial penalty for commencing the development without approval.
- 5.6 In respect to unauthorised building works, the fees are set out in the City's schedule of building fees. The unauthorised works need to be certified and inspected.
- 5.7 Before a land owner with unapproved development or unauthorised building works is advised to apply for subsequent approval or a Building Approval Certificate, the City shall ensure that the retrospective approval or permit has the prospect of being issued.
- 5.8 If the City determines that an unapproved development or unauthorised building work cannot be made compliant by the issue of a subsequent approval or a building approval certificate, the land owner may be liable for a penalty.

6 Discretionary Action

- 6.1 Where there are extenuating circumstances associated with the reason for noncompliance in relation to a development or building work, the City shall have regard for the following when deciding the course of action it may take against the land owner in relation to the matter:-
- (a) The need to reinforce the orderly and proper development of the District.
 - (b) The public interest served by requiring the land owner to comply with the law.
 - (c) The factual circumstances which may have caused the non-compliance and/or the breach of the applicable laws and requirements relating to the development, building or building work.

7 Proof of Compliant Development

- 7.1 Under clause 6.3.3 of the Scheme it states in relation to development that:- “No use shall commence until such time as all conditions of approval have been satisfied and the development from which the use is to be conducted has been completed in accordance with approved plans, unless otherwise agreed in writing by the Council.”
- 7.2 In order to satisfy clause 6.3.3 of the Scheme, the land owner or authorised agent shall certify to the City that the development has been completed in accordance with all the relevant conditions of the approval.
- 7.3 To facilitate this, a condition shall be included on all conditional development approvals, unless the Council determines otherwise, stating:-
- “The owner/applicant is to submit the “Certification of Compliance with Development Approval Conditions” form certifying that all of the conditions specified in the approval by the Council for the development of the land have been completed in accordance with the approved plans, and the certification is to be lodged with the Council within 14 days from the date of practical completion, and applies to all of the conditions, except for those conditions relating to on-going compliance.”
- 7.4 The City shall determine those use classes requiring development approval which will require “certification”, but in any event will include the general land use categories of multi-residential, commercial and industrial.
- 7.5 Attached to the Policy is a copy of the “Certification of Compliance with Development Approval Conditions” form. The form will be attached to the City of Wanneroo Development Approval, and is to be completed and certified by the land owner or the applicant as the authorised agent of the owner and returned to the City within the prescribed time.

8. Proof of Compliant Building Work

- 8.1 Under section 33 of the Building Act 2011 and regulation 4 of the Building Regulations 2012, the responsible person is required within 7 days of completion of the works, to submit a Notice of Completion form BA7 to the City notifying that the works are complete. If the form is not submitted to the City within the specified time, the responsible person may be liable for a penalty of \$10,000.
 - 8.2 In respect to commercial buildings, the City issues a Certificate of Occupancy, which confirms that the building has been completed in accordance with the conditions of the permit.
 - 8.3 For all other building work, any dispute about the building not complying with the conditions of approval, will become a matter to be resolved between the owner and the builder, and if the matter remains unresolved, it may be referred to the Building Commission for determination.
 - 8.4 Private building surveyors are responsible for ensuring that privately certified buildings are compliant following completion. In respect to privately certified building applications the City only determines if the correct information has been provided with the application, prior to issuing a building permit.
 - 8.5 The City's Building Services' is responsible for assessing building applications and issuing building permits for those buildings that are not privately certified.
 - 8.6 In addition, the City's Building Services' is responsible for processing all applications for single houses, grouped dwellings, and multiple dwellings under the Residential Design Codes to ensure the applications comply, whether or not the plans have been privately certified.
- 9 Limitations
- 9.1 This Policy only relates to development and building works where a development approval and a building permit are required or have been issued.
 - 9.2 The policy does not apply to zoning anomalies, inconsistencies with adopted or endorsed structure plans.
 - 9.3 Where there is a difference between the provision of the Planning and Development Act 2005 and the Scheme, the Scheme prevails.

The completed Certification is to be returned to the Approval Services in the Planning and Sustainability Directorate within 14 days of the practical completion of the development. Until the Certificate is received by the Council the development will be deemed to be non-compliant under clause 6.3 of District Zoning Scheme No 2.

NOTE:-

1. The Certification shall be signed by the land owner or by an authorised agent of the land owner.
2. Clause 6.3.1 of the City of Wanneroo District Planning Scheme No. 2 states that:- "...no person shall use any land or building affected by the conditions or suffer or permit them to be used or otherwise commence or carry out or suffer or permit the commencement or carrying out of any development on land otherwise than in accordance with the conditions." , and
3. Clause 6.3.3 of the Scheme states that "No use shall commence until such time as all conditions of approval have been satisfied and the development from which the use is to be conducted has been completed in accordance with approved plans, unless otherwise agreed in writing by the Council."
4. Until the Council receives the completed "Certification of Compliance with Development Approval Conditions" form as required as a condition of development approval, the development will be deemed to be non-compliant.
5. Any queries regarding the completion of the "Certificate of Compliance with Development Approval Conditions" should be directed to the Council's Approval Services by telephone 9405 5000 or by e-mail on enquiries@wanneroo.wa.gov.au.

The completed Certification can be hand delivered to the Council Office, mailed to City of Wanneroo, Locked Bag 1, Wanneroo WA 6946 or emailed to enquiries@wanneroo.wa.gov.au.

4.4 Response to Petition (PT02-11/22) requesting to remove speed humps from Blackmore Avenue, Girrawheen

File Ref: 3120V012 – 22/443788
Responsible Officer: Director Assets
Attachments: 2

Issue

To consider petition PT02-11/22, received at the meeting of Council held on 8th November 2022, requesting that the speed humps installed on Blackmore Avenue, Girrawheen not be reinstated, and that alternative traffic treatments be installed.

Background

At the Ordinary Council Meeting on 8th November 2022, Council received a Petition signed by 142 residents from the Girrawheen area which reads as follows:

“We support the removal of speed humps on Blackmore Avenue because they are a hindrance to local residents and ineffective in reducing road safety issues. We ask the Council to consider other mechanisms. We request this issue to be dealt with in a timely manner with a preference for a decision at the last council meeting for the year.”

Refer to **Attachment 1** for a locality map showing the location of Blackmore Avenue within the road network.

Detail

Blackmore Avenue is classified as a Local Distributor road in the City's Functional Road Hierarchy and extends from Beach Road to Templeton Crescent in Girrawheen, a length of approximately 800m. As a local road in a residential area, the state default Built-Up Area 50km/h speed limit is applicable to the full length of the road.

The carriageway is 10m wide with a central red asphalt median with intermittent raised islands. There are 8 sets of speed humps along the length of the road, located approximately 100 metres apart. A photograph of one of the speed humps, as originally installed, is included as **Attachment 2**. Transperth bus route (service 448) uses Blackmore Avenue. It is one of 3 roads servicing Girrawheen that provide access from Beach Road between Wanneroo Road and Mirrabooka Avenue. A footpath is constructed on both side of Blackmore Avenue to cater for pedestrians, with four midblock crossing points located along the road.

On 14 June 2017, the City was allocated \$150,000 funding through the Department of Transport (DoT) to install traffic calming measures at the Beach Road end of Girrawheen Avenue to address issues of hooning and speeding, funded as a “Local Projects, Local Jobs” initiative.

A traffic management scheme was developed and public consultation with the residents along Girrawheen Avenue was conducted in October / November 2018, when more than 75% of residents who responded supported the installation of the speed humps, which were installed in March 2019.

Road resurfacing of Blackmore Avenue was carried out in October / November 2022, which resulted in the temporary removal of the speed humps, which have been scheduled to be reinstated during December 2022 at a height of 70mm in accordance with the MRWA guidelines for bus routes.

Consultation

No consultation has been carried out by Administration regarding support for any of the alternative traffic treatments to the speed humps.

Comment

An assessment of Blackmore Avenue carried out in 2017 using the Local Area Traffic Management Policy gave a score of 34 points, which indicated that while the road did not qualify for City funded traffic management, there were issues of speeding on the road that required attention through law enforcement and driver education. Acceptance of external funding for the installation of traffic treatments allowed the City to implement a traffic management scheme on the road to address the speeding and hooning issues.

Total removal of all the speed humps could allow the road to revert to 2018 traffic volumes and speeds, which could reduce the level of safety that currently exists.

Administration had considered an isolated traffic treatment at one end of Blackmore Avenue, as originally requested, however this option highlighted the potential that motorists would speed along the remaining section of Blackmore Avenue to make up the time spent negotiating the isolated traffic treatment device. An alternative approach was agreed with the Department of Transport (DoT) and in response the City developed two cost effective traffic management options for consideration by DoT in April 2018:

- Option 1: Median Islands and Street Trees; and
- Option 2: Speed cushions and Median Islands

DoT advised the following:

“DoT’s preference would be the speed cushions as they will slow traffic and allow cyclists to bypass the squeeze points created by the speed cushions. Additionally the other option which has trees in a wider median may make it difficult for vehicles to give the 1m mandatory passing distance to bicycles along the length of Blackmore Ave.”

In order to consider the general community concerns relating to the installation of speed cushions, further investigation indicated that the installation of Main Roads WA approved Watts Profile Speed Humps would achieve the same result and potentially be more suitable based on the following;

- Watts profile speed humps are less noisy than speed cushions and therefore more accepted by residents;
- Watts profile speed humps can be traversed irrespective of exact lane alignment meaning better vision of the road ahead;
- Watts profile speed humps are constructed from more permanent material resulting in less maintenance and ongoing costs;
- Watts profile speed humps are line marked across the full width of the road providing better visibility at night; and
- Watts profile speed humps extend for the full width of the road therefore not requiring centre islands which means better passing opportunities when cyclists are on the road.

A further TMS option (Option 3) consisting of Watts Profile Speed Humps in place of the speed cushions was subsequently developed and forwarded to DoT for consideration; DoT advised its' support of the revised scheme. Consequently Watts Profile speed humps were installed along Blackmore Avenue.

Installation of the speed humps has been effective in reducing the speed of vehicles that travel along Blackmore Avenue. Traffic counts have been carried out in different locations on Blackmore Avenue since 2009. A summary of the analysis of these results is given below:

Blackmore Avenue				
Location	Date	Volume per day	85 th Percentile speed (Speed at which or below 85% of the motorists are driving)	Mean speed
South of Nanovich Ave	September 2021	3,151	39	33
	December 2011	3,952	51	45
North of Nelligan Ave	September 2021	2,473	46	39
	April 2016	4,193	60	50
South of Templeton Cres	September 2021	2,386	38	33
	February 2009	3,796	44	39

Review of the above traffic count data before and after the speed hump installation showed a reduction of the 85th percentile (operating) vehicle speed of 12km/h south of Nanovich Avenue, 14km/h south of Nelligan Avenue and 6km/h south of Templeton Crescent. This indicates that the majority of motorists are now travelling at or below the built up area speed limit of 50km/h. In addition to that, Blackmore Avenue has seen a noticeable traffic volume reduction after the installation of the speed humps.

Speed is a critical factor in both the incidence and severity of road crashes. Main Roads WA crash data for the 5-year period between January 2014 and December 2018 showed 5 (2 medical & 3 property damage) accidents on Blackmore Avenue, whilst just 1 property damage only crash has been reported since the speed humps were installed.

At the meeting of Council on 28 June 2016 (Item AS01-06/16 refers), the removal of speed humps on Aldersea Circle in Clarkson was considered. Similar to the petition for Blackmore Avenue, a number of alternative options to address vehicle speeds in Aldersea Circle were raised by the community and the outcomes of an analysis of the proposals is summarised in the table below:

Suggested Treatment	Pros	Cons
Signage and Enforcement	Removes issues with vehicle noise	<ul style="list-style-type: none"> • Main Roads WA would not allow the installation of 50 km/h signs • Police are limited in resources available for enforcement • Speeds are likely to rise following removal of speed humps
Rubberised speed cushions	Likely to be as effective as the speed humps	<ul style="list-style-type: none"> • More noisy than Watts Profile speed hump • Better vision of the road ahead • Less maintenance

		<ul style="list-style-type: none"> • Better visibility at night time • Better passing opportunities for cyclist
Horizontal Deflection (e.g. slow points)	Can be designed to be as effective as speed humps	<ul style="list-style-type: none"> • Vehicle noise issues still possible from accelerating vehicles and trailers going over kerbing • Impacts on property access • Considerable cost to the City
Roundabouts	Effective in reducing speeds in close proximity to the roundabouts	<ul style="list-style-type: none"> • Land acquisition would have major impact on some residents • Require treatments between intersections • Considerable cost to the City • Noise associated with acceleration and deceleration of vehicles at roundabouts
Median Islands	Removes issues with vehicle noise	<ul style="list-style-type: none"> • Impacts on property access • Much less effective in reducing vehicle speeds • Considerable cost to the City
Partial Removal of Speed humps (remove every second set of humps)	May reduce noise locally depending on alternative treatment	<ul style="list-style-type: none"> • Where humps are removed, speeds can return to previous levels • Residents where speed humps remain may feel aggrieved

The costs for the above listed treatments vary from a few thousand dollars (signage) to well over a million dollars (roundabouts).

Due to the PTA Bus route and the location of property accesses on Blackmore Avenue, Administration considers the installation of alternative traffic treatments will not be as effective as speed humps in the reduction of vehicle speed. Installation of alternative devices is possible but these are considerably more expensive. Horizontal displacement devices could be used and these would eliminate the noise caused by vertical displacement but there would still be noise generated by the deceleration and acceleration of vehicles. Additionally, the size of these treatments would mean that they would either restrict access to properties on Blackmore Avenue or would need to be placed at intervals where they would have reduced effect on vehicle speeds.

Assessment of traffic speeds on Blackmore Avenue since the installation of the speed humps have shown that they have been effective in reducing the speed of motorists and minimised the risk of crashes. Based on this data, the removal of the speed humps from Blackmore Avenue will likely result in the vehicle speeds returning to the levels recorded prior to the installation of traffic treatments. This increase in speed will increase the likelihood and severity of crashes. In the case of removal of the speed humps, the risk of a serious crash occurring on Blackmore Avenue will increase and consider to be unacceptable.

Speed humps were selected as an effective measure to supplement the already installed red asphalt median, which was not considered to be reducing traffic speeds sufficiently. All the other traffic treatments suggested would require significant modifications to the road network and may not be as effective in reducing the speeds of cars, due to the requirement to

accommodate buses. As the speed humps are working effectively, the City does not propose to remove them at this stage and will reinstate them during the resurfacing works.

Statutory Compliance

Nil

Strategic Implications

The proposal aligns with the following objective within the Strategic Community Plan 2021 – 2031:

5 ~ A well planned, safe and resilient City that is easy to travel around and provides a connection between people and places

5.4 - People can move around easily

Risk Appetite Statement

In pursuit of strategic objective goal 5, we will accept a Medium level of risk, extended to High in the areas of Community / Reputation & Financial / Commercial impacts. Shifting transport modes and usage in the City may require short term pain for longer term gain as the City supports the development, maintenance and connection of alternatives to car use (e.g. cycle ways) and the supporting infrastructure.

Risk Management Considerations

Risk Title	Risk Rating
CO-023 Safety of Community	Low
Accountability	Action Planning Option
Director Community & Place	manage

Risk Title	Risk Rating
CO-001 Relationship Management	Low
Accountability	Action Planning Option
Director Corporate Strategy & Performance	manage

The above risks relating to the issue contained within this report have been identified and considered within the City's Corporate Risk Register. Action plans have been developed to manage this risk to improve the existing management systems.

Policy Implications

The provisions of Local Area Traffic Management Policy apply in assessing the request made in this petition.

Financial Implications

The cost for the new treatments varies from a few thousand dollars (signage) to well over a million dollars (roundabouts). Should Council resolve to consider other traffic treatment options, further concepts and cost estimates would inform the exact financial implications noting that the draft Long Term Financial Plan does not make any provisions for any further traffic treatments in Blackmore Avenue.

Voting Requirements

Simple Majority

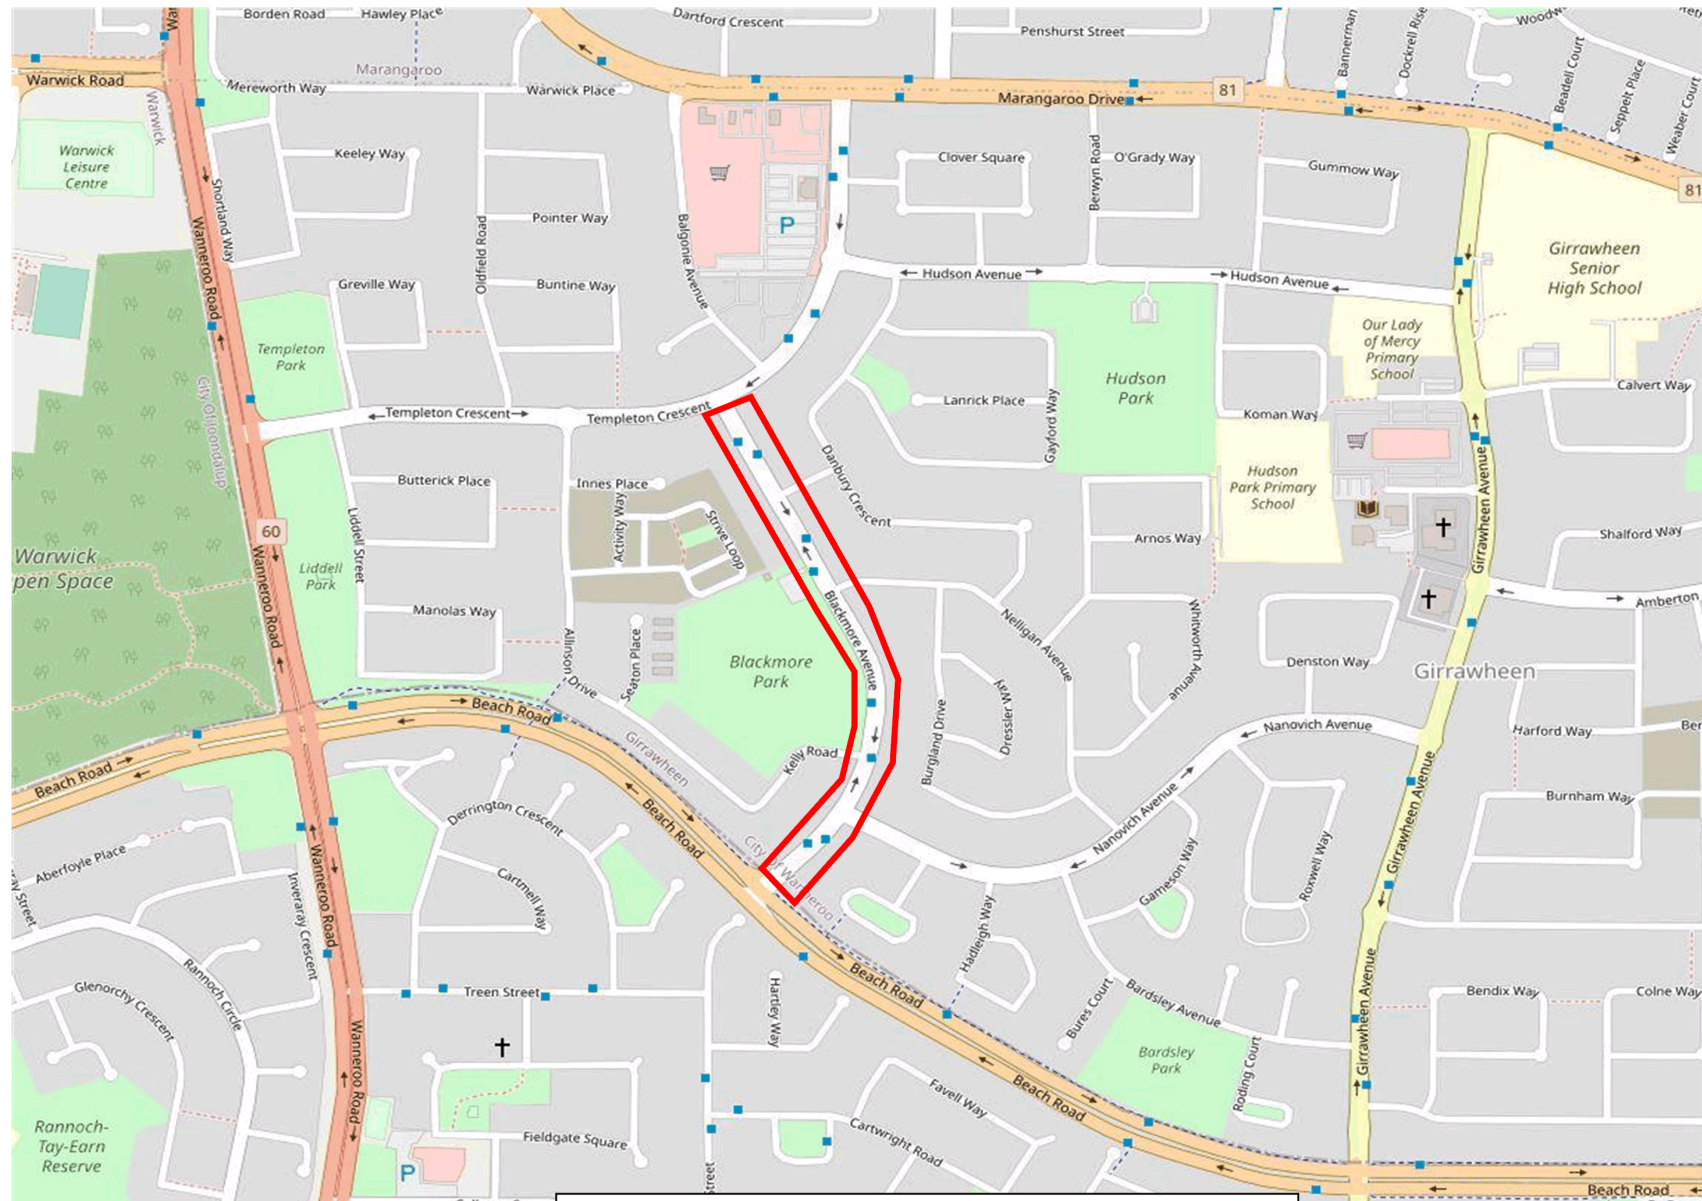

Recommendation

That Council:-

1. **NOTES** that the speed humps on Blackmore Avenue are providing a demonstrated road safety benefit to the community;
2. **DOES NOT** support the Petitioner's request to remove speed humps from Blackmore Avenue, Girrawheen; and
3. **ADVISES** the petition organiser of Council's decision.

Issue

To consider the progression of the Alkimos Aquatic and Recreation Centre project to the detailed design phase.

Background

Since 2018, the City has been planning for the provision of the Alkimos Aquatic and Recreation Centre. The project has been subject to thorough Needs and Feasibility studies, Business Planning, stakeholder engagement and endorsement of the Alkimos Aquatic and Recreation Centre Concept 5 (**Attachment 1**).

Detail

The project has now reached a stage where the majority of funding is in place through internal and external funding sources as follows:

Funding Source	Amount
Federal Government (2019)	\$5,000,000
State Government	\$10,000,000
City of Wanneroo	\$14,358,000
Developer Contribution Plan (DCP)	\$10,642,000
Total	\$40,000,000
Federal Government (2022)	\$25,000,000
Total	\$65,000,000

The development of detailed design and quantity survey costings can now commence and provide greater accuracy and clarity as to the future options for the facility, whilst being cognisant of the current volatile construction market.

The commencement of detailed design allows for the project timeline to progress towards the projected delivery date of mid-2026.

Stage	Start	End
Documentation Preparation and Tender for Detailed Design	Nov 2022	April 2023
Detailed Design and Documentation Preparation for Construction Tender	April 2023	Aug 2024
Construction (incl. Tender)	Sept 2024	May 2026

Consultation

Consultation with the community and key stakeholders has been undertaken on a number of occasions throughout the project, culminating in the public endorsement of the Concept 5 as reported to Council in March 2022 (CP02-03/22).

Consultation and engagement will continue through the detailed design stage with external technical stakeholders, sporting and community groups, as well as the Council Member Project Working Group.

Comment

The components of the Alkimos Aquatic and Recreation Centre project completed to date include:

- Needs and Feasibility studies
- Business Plan development
- Site selection
- Concept Design development
- Community consultation on Concept Design
- Advocacy for external funding.

The next phases required to progress the project is the preparation of the documentation and tender for detailed design and undertaking the detailed design.

With the majority of funding secured for the project, subject to receipt and completion of the agreement for the \$25M Federal Government funding, the project can now progress to the detailed design phase. A flexible approach to the overall delivery through the inclusion of separable portions within the detailed design contract will allow the City to consider, if required, a staged delivery of the Alkimos Aquatic and Recreation Centre should the market conditions impact the project. In addition, specialist construction advice and value-engineering will be applied through the detailed design phase and the City will continue advocacy efforts in a bid to secure additional external funding for the project.

Negotiations for the acquisition of the land for the Alkimos Aquatic and Recreation Centre are nearing completion and it is anticipated a report on this matter will be presented to Council in early 2023.

Statutory Compliance

Nil

Strategic Implications

The proposal aligns with the following objective within the Strategic Community Plan 2021 – 2031:

1 ~ An inclusive and accessible City with places and spaces that embrace all

1.3 - Facilities and activities for all

Risk Appetite Statement

In pursuit of strategic objective goal 1, we will accept a Medium level of risk. The recent pandemic has challenged our previous event delivery, place activation and community connection processes, and the City accepts that meeting community expectations in a more restrictive environment needs flexibility and innovation if community connection is to develop and grow in contrast to social and individual isolation.

Risk Management Considerations

Risk Title	Risk Rating
ST-G09 Long Term Financial Planning	Medium
Accountability	Action Planning Option
Director Corporate Strategy & Performance	Manage

Risk Title	Risk Rating
ST-S23 Stakeholder Relationships	Low
Accountability	Action Planning Option
Director Corporate Strategy & Performance	Manage

Risk Title	Risk Rating
ST-S26 Resilient & Productive Communities	Medium
Accountability	Action Planning Option
Director Community and Place	Manage

The above risks relating to the issue contained within this report have been identified and considered within the City's Strategic risk register. Action plans have been developed to manage these risks to support existing management systems.

Policy Implications

Nil

Financial Implications

The current funding for the Alkimos Aquatic and Recreation Centre is at a level of \$65M as follows:

Funding Source	Amount
Federal Government (2019)	\$5,000,000
State Government	\$10,000,000
City of Wanneroo	\$14,358,000
Developer Contribution Plan (DCP)	\$10,642,000
Total	\$40,000,000
Federal Government (2022)	\$25,000,000
Total	\$65,000,000

The City's funding contribution will be sourced from the Regional Recreational Reserve.

The Federal Government initially provided a grant of \$5M and the formal agreement between the City and the Department of Social Services was executed on 15 January 2021, with the funds being released to the City in July 2023.

Administration continues to liaise with the Department of Infrastructure, Transport, Regional Development, Community and the Arts to finalise the agreement for the additional \$25M Federal Government funding.

The State Government has committed \$10M towards the project through the WA Recovery Plan funding program, with \$1M released for planning and design development in 2021 and the remaining \$9M being released for construction in 2023.

The City will continue to advocate for additional external funding for the project as well as investigating funding sources for components of the facility such as renewable geothermal heating and solar power generation.

Voting Requirements

Simple Majority

Recommendation

That Council ENDORSES the Alkimos Aquatic and Recreation Centre project progressing to the detailed design phase aligned to Concept Design 5 in Attachment 1.

Attachments:

1. [Alkimos Aquatic & Recreation Centre - Endorsed Concept 5](#) 22/450659

Place Activation

4.6 Place Strategy 2023 - 2027

File Ref: 28431V03 – 22/427569
Responsible Officer: Director Community and Place
Attachments: 2

Issue

To consider the City of Wanneroo Place Strategy 2023 – 2027 for adoption.

Background

In 2018, the City's first Place Framework (the Framework) was adopted to provide the initial direction on the implementation of a Place Approach at the City. Since this time, significant work has been undertaken to test the Framework and trial various approaches and methodologies, including:

- Defining nine Place Management Area boundaries, profiles and land use visions as part of the City's future Local Planning Strategy;
- Preparing and implementing Local Area Plans for three priority areas in Yanchep/Two Rocks, Wanneroo and Girrawheen/Koondoola;
- Developing Place Hubs/Offices in each of the priority areas at the Yanchep Two Rocks Access Centre and Girrawheen Hub, noting that the Civic Centre is already located in Wanneroo;
- Transitioning the City's community events calendar to focus more on local, place-based initiatives;
- Supporting community-led initiatives, funding and working with established and developing Town Teams;
- Defining interim place visions for the Yanchep and Alkimos City Centres to inform planning of Metronet infrastructure;
- Using place planning methodologies to support the urbanisation of East Wanneroo;
- Improving the City's Community Engagement Framework to support higher levels of engagement and empowerment; and
- Exploring different ways of working to influence place-based outcomes.

In undertaking this work, Administration further developed its understanding of how a place approach may be best implemented in a large, outer-metropolitan local government context. It was considered necessary to undertake a comprehensive review of the Framework, with the outcomes to be incorporated into a Place Strategy that better defined the City's Place Approach and provided a roadmap for its implementation moving forward.

Detail

The Place Strategy 2023 - 2027 (the Strategy) has been prepared and is included at **Attachment 1**. It outlines the strategic direction, high level vision and objectives with regard to the City's Place Approach, and supports the building of community and organisational capacity to influence and achieve the City's place vision *"To create vibrant, progressive, prosperous and distinctive places. To support strong and connected communities"*.

The following principles have been identified to assist the City in implementing the Strategy and enhance the diversity of the City's places and our people's connection to them:

1. *Connection to place:* Acknowledge and incorporate Aboriginal and Torres Strait Islander people's connection to place into City planning and decision making;
2. *Understanding place:* Support working in place initiatives to better understand community needs and provide local access to services;
3. *Holding the vision:* Protect and advocate for the community's vision for their places;
4. *Community driven solutions:* Focus on community-driven solutions to address local needs through place management and land use planning;
5. *Embracing the place story:* Plan for new and repurposed spaces to reflect the diversity, character and distinctiveness of place that is reflective of local heritage and natural environment; and
6. *Testing, trialling, innovating:* To drive improvement to our places and processes, while acknowledging that the Place Approach is evolutionary.

The Strategy is divided into the following components, which together make up the City's Place Approach:

Place Development

This is about creating and implementing a distinctive vision for the City's places in consultation with local residents, and designing/creating physical spaces and urban form that reflect this vision. This process is enhanced through community engagement and activation. Key elements of this component include:

- *The Development Process:* integrating sense of place considerations within the established urban planning framework and statutory planning processes by aligning with the Local Planning Strategy, District and Local Structure Plans, subdivision development and Local Development Plans.
- *Planning for Great Places:* understanding the mechanisms, tools and approaches used by the City to identify and define local residents' sense of place, values and service priorities and integrate these into the City's planning, budgeting and project management processes. These tools include Sense of Place Statements, Local Area Plans and Place Activation Plans.

Place Management

This is about responding to local community priorities through the coordination of services provided in place, and integrated governance, facilitation, collaboration and leadership approaches. Key elements of this component include:

- *How We Work:* the way in which the City operates and functions to provide local services and respond to local priorities. This includes establishing a 'Vision Keeper', multi-disciplinary Place Teams, and working in place to be closer to local communities.
- *Events, Place Making and Place Activation:* focuses on how a space is used to improve community wellbeing and safety, and contribute to a positive 'sense of place'. Although this includes City-run community and civic events, it also includes a strong focus on supporting and empowering local community and business stakeholders to improve and activate their local area through education, training, funding support and streamlined City approval processes.

Community Engagement and Communications:

Effective engagement and communication with local communities about matters that affect them underpins all aspects of the Strategy. Key elements of these components include:

- *Engagement:* the Strategy seeks to enhance the City's engagement approach by focusing on how the City can 'empower' the community to develop and lead projects, initiatives and decision-making.
- *Communications:* tailoring communication to focus on initiatives relevant to specific areas or places, using methods preferred by local communities that avoid jargon and are driven by knowledge of local priorities.

Implementation

Should Council endorse the Strategy, an implementation plan will be prepared to identify specific actions to support the delivery of the Strategy. Key elements of this will focus on:

- *Governance:* how to embed and resource the City's Place approach across the community and organisation.
- *Evaluation:* how to measure progress, capture lessons learnt, enhance the Place Approach and identify areas of improvement to address any shortcomings.

Consultation

The preparation of the Place Strategy has been informed through extensive research, informal discussions with business and community stakeholders involved in place activation initiatives, learnings from the implementation of the Place Framework and the development of various discussion papers.

Community feedback on the Strategy was sought through promotion of an online survey that sought comment on each aspect of the place approach. The survey was open for the period 24 October to 6 November 2022 and was promoted via:

- Direct emails to Place Strategy project subscribers;
- Direct email to Yanchep/Two Rocks, Wanneroo, and Girrawheen/Koondoola Local Area Plan subscribers;
- City's Website via Your Say;
- City's Facebook page; and
- Libraries Newsletter.

The City received 53 responses to the survey, which are summarised in **Attachment 2** and the table below (it should be noted that not all questions were compulsory to answer).

Overall, there is general support for the intention of the Place Strategy.

	Place Development	Place Management	Community Engage/Comms.
Strongly agree/ agree	62%	62%	60%
Neither	13%	8%	8%
Disagree or strongly disagree	2%	4%	2%
No response	23%	26%	30%

A summary of the qualitative feedback received from the survey responses is outlined below. No changes to the Strategy were considered necessary in response to these comments,

however, many of the comments have been noted for consideration in the preparation of the implementation plan.

Summary of Community Feedback
Place Development
<ul style="list-style-type: none"> • Important to protect the natural flora and fauna and maintain a connection to history and heritage. • Plan doesn't go into detail on improving security in the area for residents. • Would like more people friendly areas around the shopping centre, tavern and cultural centre. • Acknowledge that the City works with developers and other Government decision-makers. How is this promoted? • Concentrate on roads, rubbish and parks.
Place Management
<ul style="list-style-type: none"> • Would like to connect with the Noongar people and stories of this land should be interwoven into every aspect of creating a sense of community. • There are issues with road/parking outside of the post office. • More trees and seating areas. • Concerned each area may become too siloed causing negative outcomes such as NIMBY's, overregulation and restrictions that may cause areas to be watered down to meet generic planning requirements, rather than allowing more freedom of creativity. • Make sure there is communication and collaboration, so things are being duplicated by different events or activities. Work together instead of competing. • There are multiple levels to the Council so talking to one person results in delays. Council should build on what events is successful to support growth.
Community Engagement & Communication.
<ul style="list-style-type: none"> • Use local schools to engage with their community through newsletters and assemblies. • There are no common platforms for community engagement, like an app. • Concerned there would be inaction if there are too many people involved it's difficult to make decisions. • The more meeting and tourism places the better. Places for all ages and peoples to gather. • It's too complicated with too much red tape. It puts people off engaging with the City to do things.

Comment

The 2018 Place Framework was successful in raising the profile of the City's Place Approach and facilitating the necessary initial work to understand how it may be best implemented.

The development of the Place Strategy has provided the opportunity to integrate the Place Approach with City systems and align with other important strategic documents such as the Strategic Community Plan, Social Strategy, Economic Development Strategy, Smart Cities Strategy and future Local Planning Strategy. The Place Strategy assists in achieving multiple strategic goals and priorities within the City's Strategic Community Plan 2021 - 2031 and supports the realisation of our vision; *"A welcoming community, connected through local opportunities"*.

The Strategy will guide the next phase of the City's Place Approach and is intended to enhance the capability of the City and community to take a lead role in the development and management of local communities and places. A detailed Implementation Plan will be prepared that outlines how the City will execute the Strategy and include timeframes, and address budget and resource considerations.

It is acknowledged that there are potential challenges that will be further explored and addressed through the Implementation Plan, such as:

- Capacity, resourcing and cost of service delivery and infrastructure provision across the geographic size of the City;
- Shifting to work in different ways to maximise impact in a constrained economic environment; and
- Measuring the impact of the Strategy, and how it will influence place-based outcomes.

Statutory Compliance

Nil

Strategic Implications

The proposal aligns with the following objective within the Strategic Community Plan 2021 – 2031:

1 ~ An inclusive and accessible City with places and spaces that embrace all

1.2 - Valued public places and spaces

Risk Appetite Statement

In pursuit of strategic objective goal 1, we will accept a Medium level of risk. The recent pandemic has challenged our previous event delivery, place activation and community connection processes, and the City accepts that meeting community expectations in a more restrictive environment needs flexibility and innovation if community connection is to develop and grow in contrast to social and individual isolation.

Risk Management Considerations

Risk Title	Risk Rating
ST-S23 Stakeholder Relationships	Moderate
Accountability	Action Planning Option
Director Corporate Strategy and Performance	Manage

Risk Title	Risk Rating
ST-S26 Resilient and Productive Communities	Moderate
Accountability	Action Planning Option
Director Community & Place	Manage

The above risks relating to the issue contained within this report have been identified and considered within the City's Strategic risk register. Action plans have been developed to manage this risk to support existing management systems.

Policy Implications

Nil

Financial Implications

Implementation of the Place Strategy 2023 – 2027 will be dependent on budget as determined through the service unit planning and budget development process on an annual basis.

Voting Requirements

Simple Majority

Recommendation

That Council ADOPTS the City of Wanneroo Place Strategy 2023 – 2027 included at Attachment 1.

Acknowledgement of Country

The City of Wanneroo acknowledges the Traditional Custodians of the land we are working on, the Whadjuk people. We pay respect to the Elders of the Noongar nation past, present and emerging, who have walked and cared for the land. And we acknowledge and respect the continuing culture and the contributions made to the life of this City and this region.

Introduction

The concept of Place or 'Sense of Place' refers to the emotive, spiritual and physical relationship between people and their geographical location.

Our community has said that they want their places to be vibrant, distinctive and prosperous. This Place Strategy will explore the different components that enable the creation of great places and assist to achieving the City's vision.

The City's Vision:

A welcoming Community connected through local opportunities

The creation of great places is complex and has many layers. Projects for Public Spaces, a not-for-profit organisation in the United States, has evaluated thousands of public spaces around the world and found that successful places generally share the following four qualities:

1. They are accessible;
2. People are engaged in activities;
3. The space is comfortable, safe and has a good image; and
4. It is a sociable place where people can meet and relax.

These four qualities have helped to build the foundation for this Strategy.

City of Wanneroo Context

As an outer metropolitan growth Council, the City of Wanneroo is large and diverse. It is 685km² in size and spans approximately 50kms from the northern to the southern boundaries (Figure 1).

The City has 36 suburbs that span from Two Rocks in the north, to Girrawheen in the south. Our suburbs comprise coastal areas, rural land, conservation reserves, recreation and sporting parks, industrial precincts, established suburban areas and new housing estates. As an organisation, the City of Wanneroo is committed to honouring the unique and diverse characteristics of these places and shaping the way that they grow.

The City of Wanneroo is situated in Whadjuk country and the word 'Wanneroo' is a Noongar word which means 'place of Aboriginal woman's digging stick'. In Noongar Boodja (country) there are 14 language groups. At the time of early European settlement, the Whadjuk people were divided by the Swan River into four resident groups, each with its own Country.

STRATEGIC COMMUNITY PLAN

The City of Wanneroo Strategic Community Plan (SCP) 2021 - 2031 sets the future direction of the City and incorporates the themes of vibrant, accessible, distinctive and connected places. This Place Strategy assists to realise the SCP's vision, purpose, goals and priorities:

Strategic Community Plan 2022 - 2032

VISION:
A welcoming community connected through local opportunities

PURPOSE:
To create a strong community with local opportunities to participate, be active, feel secure, contribute and belong

Goal 1	An inclusive and accessible City with places and spaces that embrace all
Goal 2	A City that celebrates rich cultural histories, where people can visit and enjoy unique experiences
Goal3	A vibrant, innovative City with local opportunities for work, business and investment
Goal 4	A sustainable City that balances the relationship between urban growth and the environment
Goal 5	A well planned City that is easy to travel around and provides a connection between people and places
Goal 6	A future focused City that advocates, engages and partners to progress the priorities of the community
Goal 7	A well governed and managed City that makes informed decisions, provides strong community leadership and valued customer focused services

Place Strategy 2023 - 2027

PURPOSE:
To create vibrant, progressive, prosperous and distinctive places.
To support strong and connected communities.

The Journey

PLACE FRAMEWORK

The City's first Place Framework was endorsed in 2018 and informed the early strategic planning, policy work and guidance for the development of the City's Place Approach. Works completed under the Place Framework include:

Planning for Great Places:

- Defined nine Place Management Area (PMA) boundaries, profiles and land use visions as part of the Local Planning Strategy.
- Prepared Local Area Plans (LAPs) for Yanchep/Two Rocks, Wanneroo and Girrawheen/Koondoola to understand and identify community priorities, and plan local services and projects more efficiently.
- Adopted local area visions for the Alkimos and Yanchep activity centres to inform and respond to the planning and development of the future METRONET train stations and associated rail precincts.

How We Work:

- Reviewed the various community hub models operating in the City and identified what makes them successful.

- Developed a Place Hub in each of the Local Areas - Yanchep, Wanneroo and Girrawheen.
- Tested and trialled different methods of service delivery tailored to the local needs of the community.

Events, Placemaking and Activation:

- Prepared and implemented Place Activation Plans for key precincts/nodes across the City.
- Prepared and tested place activation principles to supporting community-led initiatives and collaborations (CLIC).
- Transitioned the City's community events calendar to focus on local, place-based initiatives.
- Enhancing the City's Food Truck Program to include place activation elements.

Communications and Engagement:

- Improved the City's community engagement framework to support higher levels of engagement and empowerment through online and face to face conversations.

As the City's new Place Approach was implemented, a number of challenges and opportunities were identified:

Challenges

Opportunities

Coordinated approach to planning and development

The complex nature of urban development has historically been difficult to consistently define, capture and protect local area visions or sense of place aspirations as part of the various stages of planning, design, approval and construction.

Embedding sense of place as a key consideration in the planning and development process.

Implications of existing policy

Many of the City's existing policies, strategies, practises and procedures are City-wide rather than targeting local level outcomes, which may not support the creation of great places.

Developing streamlined policies and procedures that support the creation of great places and focus on the benefits to our community.

Geographic context

The geographical size of the City can make it difficult to effectively plan for all of the City's places and deliver visible outcomes at a local level.

The City has many unique places that can be planned for, protected and enhanced.

Resourcing

The cost of service delivery and infrastructure provision across such a large area is significant.

Consider the demand on financial resources and highlight the efficiencies as part of future place planning processes, particularly in relation to the design, delivery, and the ongoing maintenance and management of our places.

Changing community expectation

As our community grows so does the demand and expectation for access to high quality services, shopping centres, community facilities, public open spaces and infrastructure associated with accessing these locations and services. There is pressure to do 'more with less'.

Working in a different way to deliver place-based outcomes that seek to understand community need and solve local problems with local solutions. Empowering and supporting community to improve and activate their local places.

PLACE STRATEGY

This Place Strategy has been designed as a continuation of the Place Framework and seeks to address the challenges and opportunities, formalise learnings from testing and trialling new approaches, and support the ongoing implementation of the City's Place Approach (Figure 2: City of Wanneroo Place Approach).

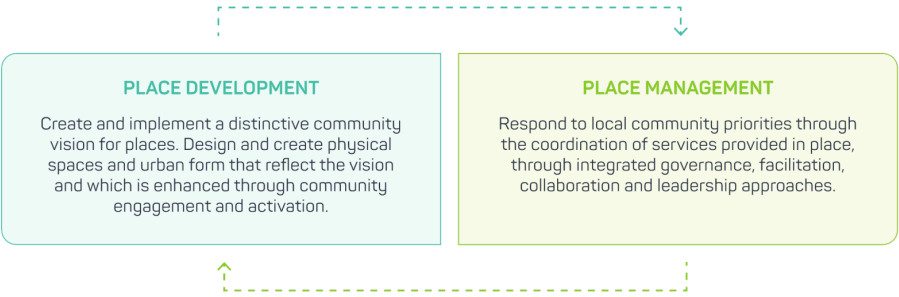

Figure 2: City of Wanneroo Place Approach

This Place Strategy identifies the following components:

PLACE STRATEGY 2022 – 2024	
Place Development	Place Management
The Development Process Planning for Great Places	How we work Events, Placemaking & Activation
Community Engagement and Communications	

↓

Implementation

Place Strategy Vision:

*To create vibrant, progressive, prosperous and distinctive places.
To support strong and connected communities.*

PRINCIPLES

The principles in **Table 1: Place Principles** have been developed to assist the City in implementing the Place Strategy and enhance the diversity of the City's places and our people's connection to them.

CONNECTION TO PLACE Acknowledge and incorporate Aboriginal and Torres Strait Islander peoples connection to place into City planning and decision making.	UNDERSTANDING PLACE Support working in place initiatives to better understand community needs and provide local access to services.
HOLDING THE VISION Protect and advocate for the community's vision for their places.	COMMUNITY DRIVEN SOLUTIONS Focus on community-driven solutions to address local needs through place management and land use planning.
EMBRACING THE PLACE STORY Plan for new and repurposed spaces to reflect the diversity, character and distinctiveness of place that is reflective of local heritage and natural environment.	TESTING, TRIALLING, INNOVATING Test, trial and innovate to drive improvement to our places and processes, while acknowledging that the Place Approach is evolutionary.

Table 1: Place Principles

Place Areas

To support the planning, development, management and coordination of the various places across the City a classification framework has been established. This is the first of its kind for the City of Wanneroo so will evolve over the coming years.

This classification framework identifies four typologies of place, to support the creation of great places and manage the application of a Place Approach over such an extensive geographic area.

- 1. Place Management Areas:** Large geographic areas characterised by similar land uses.
- 2. Local Areas and Activity Centres:** Areas identified as having unique communities of interest, sense of place or character.
- 3. Strategic Locations:** Locations outside of Activity Centres that have potential to benefit from place activation considerations.
- 4. Other Places:** Other places across the City where activation outcomes are needed on a short term and/or temporary basis.

LOCAL AREAS & ACTIVITY CENTRES

Local areas and activity centres are important geographic areas that provide a focus for coordinated Place Management and activation efforts, with the aim of retaining a sense of place and character through coordinated projects and services.

Three local areas were identified within the Place Framework based on communities of interest where place based efforts had already gained some traction:

- Yanchep / Two Rocks
- Wanneroo
- Girrawheen / Koondoola

Each Local Area will usually have one or more activity centres, which are community focal points that include activities such as commercial, retail, higher-density housing, entertainment, tourism, civic, higher education and medical services. They are the focus for:

- city-led and community-led placemaking/activation initiatives
- coordinated Place Management efforts
- place-based teams and working in place

STRATEGIC LOCATIONS

Strategic locations are other important places outside of Activity Centres and have been identified by the City as a place that is intended to attract people, be vibrant, and offer a range of goods and services.

Strategic locations include places such as:

- Alkimos Aquatic & Recreation Centre
- Girrawheen Hub
- Yanchep Lagoon

These locations have potential to benefit from place activation considerations, but require a clearer methodology to support future activation outcomes.

OTHER PLACES

There are a number of other places across the City where activation outcomes are short term and/or temporary. Current examples of activation initiatives in local parks and other places include:

- Markets and events in public open space;
- Food truck activation in public open space and main street areas; and
- Programs and services offered in established areas and existing community facilities.

PLACE MANAGEMENT AREAS

Nine Place Management Areas (PMAs) have been identified (refer Figure 3) to provide a link between land use planning and the City's Place Approach and support the coordination of service delivery and decision-making at a strategic level. Their purpose is to:

- Inform the strategic land use planning basis of the Local Planning Strategy by providing narratives about each area including their history, demographics and how they will develop; and
- Act as focal points for the deployment of the Place Approach by identifying communities of interest within the PMA.

1. Developing Coastal: "Innovative coastal developments connected to each other and the wider urban area through major transport links, contained within bustling urban centres which allow the area to independently prosper".

Suburbs: Two Rocks (part), Yanchep (part), Eglinton, Alkimos, Jindalee

2. Established Coastal: "Inviting and distinctive neighbourhoods offering a range of community services and facilities linked through quality infrastructure and green spaces which connect residents to each other".

Suburbs: Butler, Quinns Rocks, Merriwa, Ridgewood, Mindarie, Clarkson, Tamala Park

3. Established Rural: "The food bowl of the north and budding tourist area with retained agricultural farmlands and innovative industries employing sustainable new technologies to future-proof Wanneroo".

Suburbs: Two Rocks (part), Yanchep (part), Carabooda (part), Nowergup (part)

4. Conservation: "Significant parcels of conservation land with no plans for future development but which contain important connections to neighbouring local government areas."

Suburbs: Yanchep (part), Nowergup (part), Pinjar (part)

5. Developing Industrial: "An industrial precinct and leader in innovative technologies, including automation and robotics with supporting education and training facilities, employing over 20,000 people and offering opportunities for major industries to locate and expand."

Suburbs: Nowergup (part), Pinjar (part) and Neerabup

6. Central Wanneroo: "History and heritage retained within a diverse urban fabric surrounded by vibrant activity hubs containing recreation opportunities and major employment centres"

Suburbs: Neerabup (part), Carramar, Banksia Grove, Wanneroo (part), Tapping, Ashby, Sinagra, Hocking, Pearsall, Woodvale (part)

7. Transitional Rural: "An emerging urban area with a range of housing and lifestyle choices that retains its historic and cultural values and offers attractive green trails, native vegetation, lakes and wetlands."

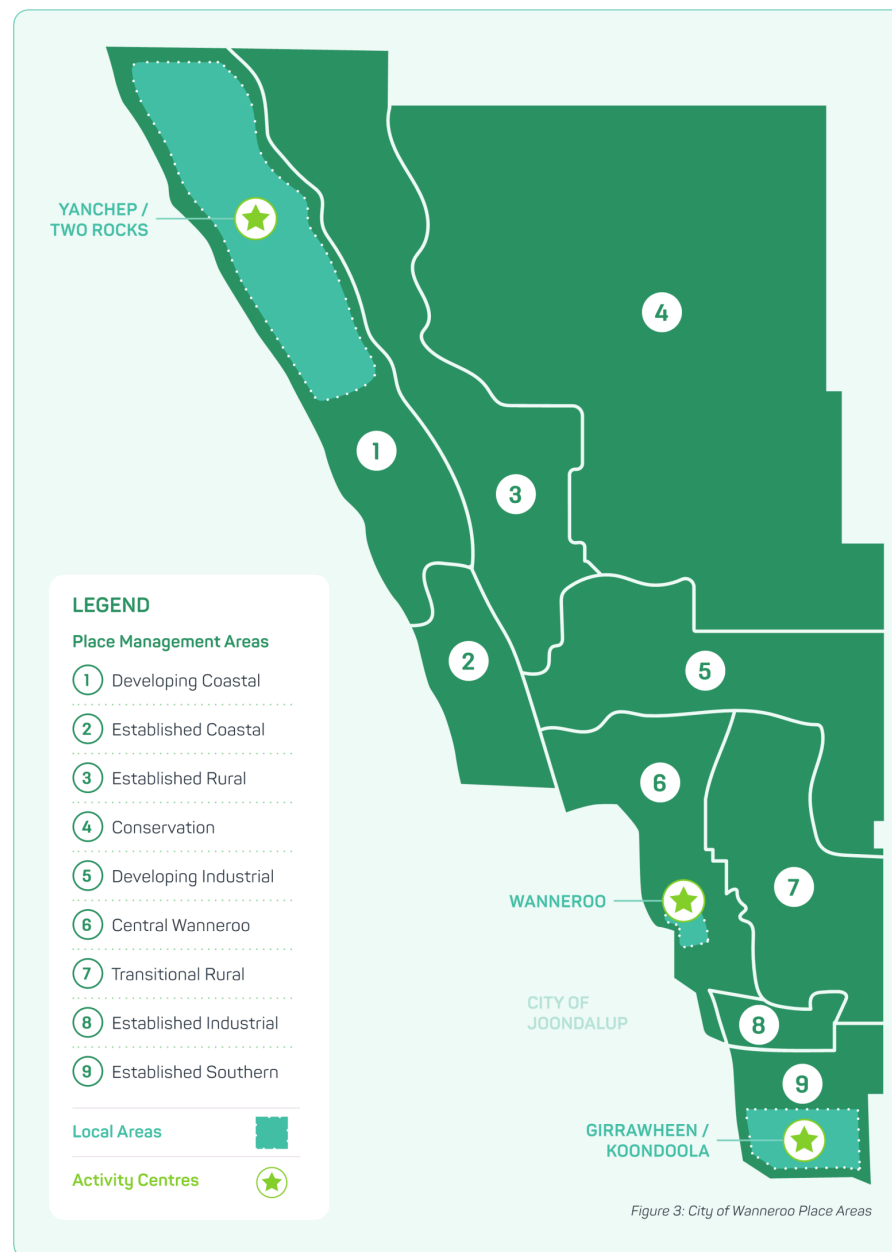

Suburbs: Pinjar (part), Mariginiup (part), Wanneroo (part), Jandabup (part), Gngara (part)

8. Established Industrial: "A well-established industrial hub delivering over 15,000 jobs with a strong concentration of manufacturing, construction engineering businesses, many of which provide support for the mining industry and automotive-related services."

Suburbs: Wangara, Gngara (part), Landsdale (part)

9. Established Southern: "Mixed-use, revitalised hubs reflecting a vibrant and diverse population, containing a range of housing and employment choices, whilst retaining significant green open spaces, natural bushlands and wildlife".

Suburbs: Madeley, Darch, Landsdale (part), Marangaroo, Alexander Heights, Girrawheen, Koondoola

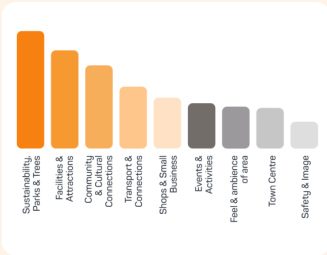

The City has completed extensive work developing, protecting and implementing local area visions through various planning and development phases and City initiatives.

A summary of the three Local Area Plan visions and key priorities, provided below, outline the different priorities that the community shared with the City throughout engagement and conversation.

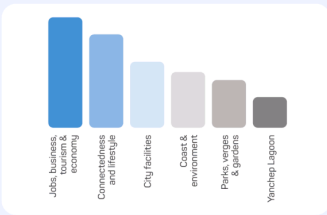

WANNEROO LOCAL AREA

A friendly community with a small country town feel that includes a mix of lifestyle choices. People appreciate the beauty and sustainability of the natural environment, Lake Joondalup foreshore and the abundance of local parks and leisure facilities. The many shared cycling and pedestrian paths to shops and excellent cultural facilities enables connection during the day and the evening. Interpretation of local history, including Aboriginal culture, tells the rich and diverse stories of this place. The town centre provides friendly spaces to catch up with friends and family.

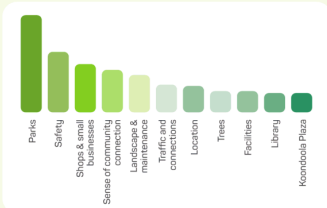

YANCHEP TWO ROCKS LOCAL AREA

A family focused and pedestrian friendly community where the look and feel of the place reflects the region's natural environment, beauty and coastal lifestyle. Its sustainable developments retain the coastal village roots and there is strong connectivity from beach to bush. People can live and work locally without undertaking excessive travel and value the employment and business opportunities that this area provides.

GIRRAWHEEN KOONDoola LOCAL AREA

A friendly and inclusive neighbourhood that celebrates diversity, underpinned by a vibrant economy based on its unique culture. It's safe, walkable streets are enjoyed by all ages with well-maintained parks and facilities that support community activities and connection. People are drawn to this place for its natural beauty, bushland and convenient location, and choose to stay for the family, friends and neighbours that make up the community.

Focus Areas

The size and growth rate of the City of Wanneroo presents a significant challenge the implementation of Place Approach and requires a unique approach. In acknowledging that the City does not need to activate and actively manage all of our places, **Table 2** identifies Place Management priority areas and focus areas for the duration of this Strategy.

Table two (below) identifies the three broad focus areas and provides guidance on where and how place management and activation initiatives could be implemented:

	FOCUS AREA 1 Local Areas & Activity Centres	FOCUS AREA 2 Strategic Locations	FOCUS AREA 3 Other Places
WHY?	Activity centres are naturally a destination for local people and present the best opportunity to create great places.	These locations have potential to benefit from place management interventions and considerations.	Other places across the City play an important role in developing community spirit, fostering a local sense of pride.

Table 2: Events, Placemaking and Activation Approach

As the Place Approach becomes more embedded across the organisation and community, it is likely that more locations will be identified for intervention and coordination. This will place additional pressure on the City to maintain a high level of service both internally and externally, and will be an important consideration as the Strategy evolves.

Place Development

Places are defined by their location and the era they were created, which evolves over time as people interact with and change that place. Great places are made as they evolve without losing their unique character or sense of place.

Whether a new housing development, an existing urban area, rural estate, town centre or other precinct, the physical aspects that make up that place are often determined through formal planning and approval processes guided by legislation and policies. Because these policies are applied consistently across the state, many places often end up looking and feeling the same.

To address these issues, the City's Place Development approach includes:

- The Development Process; and
- Planning for Great Places

THE DEVELOPMENT PROCESS

To embed place considerations in the strategic and statutory planning process, the City has identified the important relationships and planning stages where it is critical for this to be considered.

Figure 4: *Aligning Planning and Place* illustrates the relationship between place and planning. Important elements to highlight include:

- At a strategic level the City has embedded place considerations in the Local Planning Strategy (currently being prepared) through the use of Place Management Areas.
- Sense of Place Statements are the main tool to be used to inform local structure planning (at District and local level).
- Local Area Plans (and other place planning tools as appropriate) to inform precinct level planning and Place Management responses.

Historically, the process of urban development has not been able to consistently define, capture and protect sense of place aspirations...

THE PLANNING FRAMEWORK

PLACE MECHANISMS

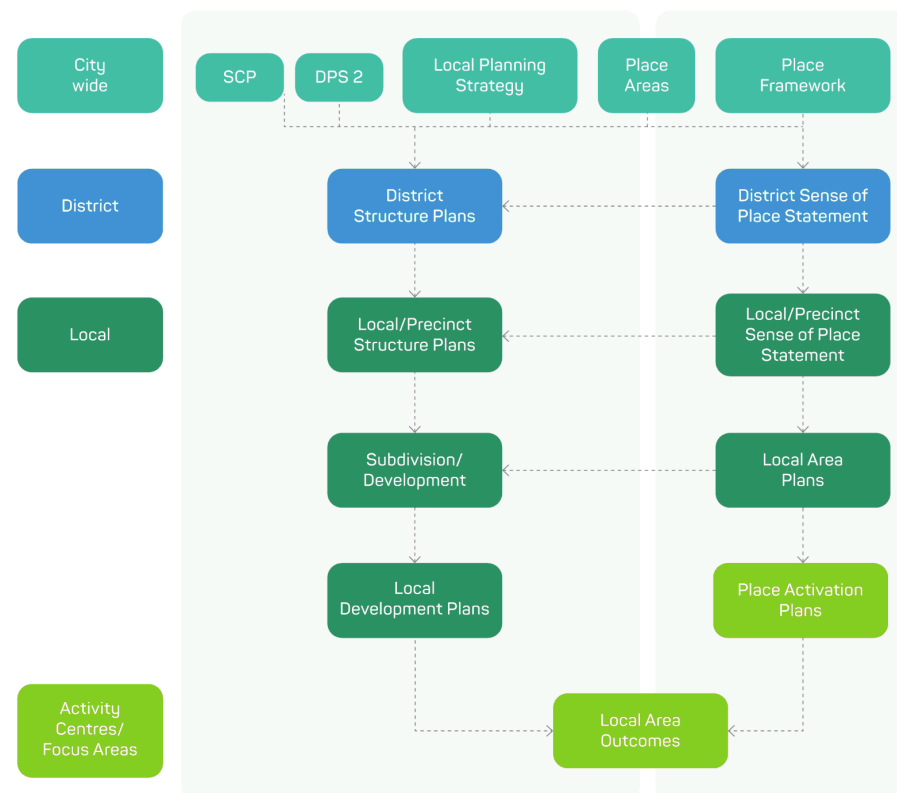

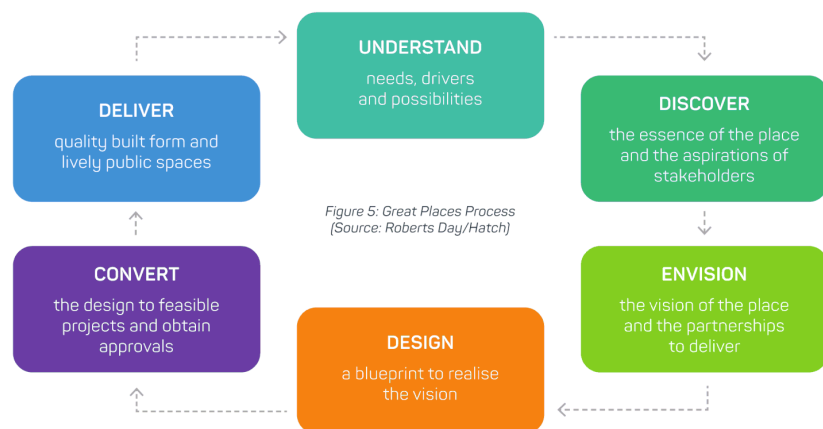

Figure 4: *Aligning Planning and Place*

Statutory planning mechanisms such as District and Local Structure Plans and Precinct Plans play a key role in aligning the City's Place Approach with the Planning Framework as they set the strategic context for detailed development planning and implementation for a specific area. Addressing place specific matters in these documents is critical to ensuring that place is given meaningful consideration throughout the planning and development process.

The City has already begun to implement this process through the initiation of a place-led approach to the urbanisation of East Wanneroo. The City will then seek to replicate successful outcomes across other areas of the City.

PLANNING FOR GREAT PLACES

As a City, we aspire to provide welcoming and functional public spaces, community centres, facilities and infrastructure that is designed to support community connection, activation and access to services. The City has adopted the process outlined in **Figure 5 Great Places Process** (Adapted from Roberts Day Hatch) to develop the following place planning mechanisms.

The City's Place Planning mechanisms are outlined below:

District Sense of Place Statement (DSoPS)

A District Sense of Place Statement (DSoPS) captures past and present characteristics and future sense of place opportunities that are consistent across a large district area. DSoPS will primarily be used to inform the preparation of structure plans by landowners and developers and aim to ensure that the unique characteristics of an area are given due regard through the planning and development process.

Sense of Place Statements outline the elements that have influenced an area's growth and evolution such as:

- Heritage and cultural values, land use and the environment;
- Special or significant locations;
- Significant events; and
- The people that have lived and worked there.

DSoPS will be prepared by the City to coordinate short to long term development outcomes which will be given effect through Local Planning Policy to provide statutory weight to the requirements outlined in the DSoPS.

A DSoPS will be initiated through the City's Planning Framework when there is a proposed rezoning or redevelopment (in both green and brown field developments) of land with significant character to be retained.

Local Sense of Place Statement (LSoPS)

A Local Sense of Place Statement (LSoPS) draws its inspiration from the DSoPS and identifies further detail specific to a smaller geographical area.

LSoPS will be prepared and delivered by the land owner and/or development proponent to coordinate short to longer term development outcomes where there is a requirement to capture and retain past, present and future sense of place aspects.

An LSoPS will be initiated through the City's Planning Framework as part of Local Structure Planning process.

Both DSoPS and LSoPS will be utilised by the City as a tool to define and implement a vision for the relevant area. They will be built into the City's Planning Framework through provisions in relevant Local Planning Policies, Development Contribution Plans and/or District Planning Scheme amendments.

Local Area Plan (LAP)

Local Area Plans identify what makes the area special and unique, outlines a vision for the future and facilitates and approach to place management by the City. An LAP is prepared and delivered by the City where a place management approach is required to guide local priorities and the City's response in a range of circumstances e.g. multiple City facilities are planned within a specific area, to support significant green or brown field's development or to address significant opportunities and/or challenges in a local area.

Place Activation Plans (PAP)

Place Activation Plans are prepared to support the reinvigoration and revitalisation of a local place. These plans identify strengths and distinctive qualities and values of a place and propose actions to help stimulate improvement. The overarching objectives of PAPs are to:

- Establish a shared vision to collectively guide place-based events, placemaking and activation;
- Identify themes and place-based actions to support the transformation of local places, with shared actions and accountabilities for the City and key community stakeholders; and
- Initiate local interventions through quicker and cheaper means, which provide a catalyst for long-term change in the local place.

Table 3: Place Planning Approach outlines when these place-planning mechanisms are best applied.

Drivers		Place Planning Mechanisms					Urban Planning Mechanisms		
		District Sense of Place Statement	Local Sense of Place Statement	Local Area Plan	Place Activation Plan	Community Placemaking	Master planning	Local Planning Policy	Precinct Planning
Place Development	To highlight unique place character and sense of place opportunities as part of the planning process	●	●						
	To foster a shared vision for a significant green fields or infill development	●	●	●					
	To retain sense of place and unique and important character of a place	●	●	●					
	To provide statutory weight and importance to retaining local character and sense of place							●	●
Place Management	To better understand and work through community or public issues that impact a local area			●	●	●	●		
	To support activation and / or revitalisation as part of City facility or asset development			●	●	●	●		
	To support the coordination and management of a town centre or main street development			●	●	●	●		
	To provide integration and activation where multiple City/community facilities are planned within a specific area			●	●	●	●		
	To provide context for large scale public infrastructure project			●	●		●		
	To identify key community priorities of a local area			●	●				

Table 3: Place Planning Approach

Place Development Summary

STRATEGY STATEMENT:

We will plan, design, provide and support the creation of places that reflect the shared vision, in collaboration with the people that live and work in that place.

We will do this by:

- Continuing to develop and finalise the place-led planning approach for East Wimmeroo and embedding place considerations within the City's Planning Framework and associated statutory and strategic planning documents.
- Investigating the application of the place planning approach more broadly across the City of Wimmeroo.
- Consulting with local Traditional Owners to gain an understanding of Aboriginal connection to boodja and build this into the City's understanding of local places and place planning processes.
- Applying a range of place planning mechanisms to understand the unique qualities and identity of the City's places where appropriate.
- Raising internal and external awareness of the City's Place Approach
- Working alongside both internal and external stakeholders to build strong working relationships that support and inform the City Place Approach.

HIGHLIGHT PROJECT: EAST WANNEROO DISTRICT STRUCTURE PLAN

The East Wimmeroo District Structure Plan (EWDSP) sets the high level planning framework for the urbanisation of 8,300 hectares that will accommodate 150,000 residents in 50,000 dwellings.

East Wimmeroo has a unique and diverse character, which includes a series of lakes and wetlands, native vegetation, undulating landforms and a range of heritage sites.

The District Structure Plan envisages the protection of unique place characteristics in this area, but the current planning framework does not support the realisation of this objective. The City is establishing a place-led approach for the planning for East Wimmeroo, which includes:

- A District Sense of Place Statement that will outline the past, present and future sense of place aspects including those elements that have influenced it such as heritage and cultural values, land use and the environment; and
- A Local Planning Policy that will detail the additional information required to address sense of place at the local structure planning stage and contain provisions to guide development in the public realm including landscaping standards and the design of roads (based on their hierarchy), parkland links, public open space and community facilities.

Figure 6: EWDSPP Belgrade Road Lake view (above)

Figure 7: EWDSPP Edgar Griffiths Park (below)

Place Management

Place Management is an approach to coordinating a range of initiatives in an area to support and realise the vision for that place.

Place Management aims to support to creation of great place through:

- Fostering a positive approach to the growth and development of places, cultivating enthusiasm and excitement in realising the vision;
- Maximise resources by establishing a single management and implementation model;
- Actively leading, facilitating and coordinating the delivery of actions and strategies;
- Integrating the economic, social, environmental, spiritual and physical aspects of the local area planning and development; and
- Ensure stakeholders are actively engaged and understand the value they can contribute to their place.

Place Management acknowledges that different areas have different needs and requirements and therefore City services and programs may need to be tailored and adapted accordingly. The City's approach to Place Management focuses on:

- Reviewing **how we work** to respond to local community priorities through the coordination of services provided in place.
- Activation of local places through **events, placemaking and activation** efforts and initiatives.

HOW WE WORK

Traditionally Local Governments base their operations from a centralised location and structure their organisation in discrete Directorates or Service Units based on their area of expertise. For such a large Council like the City of Wanneroo, this approach can present a number of challenges to provide equitable service delivery across the City. This Place Strategy identifies three key components to help navigate this challenge:

1. Establish a Vision Keeper

The City of Wanneroo plays a fundamental role in capturing, protecting and celebrating the unique characteristics and aspirations of its local people and places by being a "Vision Keeper". To date, a number of Local Area Plans (LAP) have been developed in consultation with the relevant communities; these LAPs define the visions and priorities for the local area. The role of the Vision Keeper includes:

- Oversee, coordinate and implement the outcomes of LAPs and other place planning mechanisms;
- Oversee and coordinate Place Teams to ensure the vision is given due regard and supports internal processes and decision making;
- Build and maintain key relationships relevant to the local area;
- Identify and plan for revitalisation projects that inform the City's Capital Works Program; and
- Oversee and coordinate relevant place-based capital works projects to ensure they contribute towards achieving the relevant vision.

2. Establish Place Teams

The establishment of Place Teams aims to identify opportunities, reduce duplication, share information and increase efficiencies in place planning and project delivery. Place Teams will include City staff whose role has a dedicated interest in a place and/or to deliver a LAP. The establishment of Place Teams will be explored further through the implementation of this Strategy, with the aim to shift organisational thinking from discipline-specific outcomes to place outcomes as illustrated by *Figure 8: Towards Place Thinking*.

Figure 8: Towards Place Thinking

3. Support Working in Place

Working in Place can provide the opportunity for City staff to work in locations where significant, important and/or large-scale projects are being delivered to gain a better understanding of the local community context and environment. It also allows City staff to be more accessible to local residents who need to do business with the City. This is done via strategically located Place Offices such as the Girrawheen Hub or the Yanchep Two Rocks Access Centre (YTRAC), or more generalised Community Hubs such as Clarkson Library.

Some of the key benefits to City staff working in place include the ability to simultaneously deliver multi-disciplinary projects, programs, policies and initiatives while having a hands-on awareness of day-to-day issues, opportunities and/or challenges and the capacity for immediate responses. Other benefits are highlighted below.

Figure 9: Benefits of Working in Place

City services already operate in this model including Library and Cultural Services, Place Management, Parks and Building Maintenance, Youth Services and Community Safety and Emergency Management.

Place Offices and Community Hubs provide a focal point for providing service coordination and act as a catalyst to developing local projects, placemaking, programs and opportunities to engage with the local community.

The City has identified that successful models share the following characteristics:

- Are located within mixed-use precincts and co-located with other community facilities to offer a variety of reasons to visit;
- Provide welcoming, vibrant and safe spaces for people to engage, interact and network with each other;
- Provide services to meet the specific needs of the community; and
- Are accessible by public transport and within or near a Town Centre.

The extent of services provided at each location will be dependent on the specific community's needs and requirements. Existing examples include Yanchep Two Rocks Access Centre (YTRAC) (Figure 10), as well as the Girrawheen Hub (Figure 11).

Figure 10: Yanchep Two Rocks Access Centre (YTRAC)

Figure 11: Girrawheen Hub

The future Alkimos Aquatic and Recreation Centre (AARC) or the Dordaak Kepap, Library and Youth Innovation Hub, Landsdale (Figure 12) may also provide opportunities for City staff to work in place in the near future.

Figure 12: Artist impressions of AARC and Landsdale Library and Youth Innovation Hub, Dordaak Kepap

EVENTS, PLACEMAKING & ACTIVATION

The activation of places in the City of Wanneroo through events and placemaking initiatives helps to seed the creativity of the community to reimagine public and underutilised spaces. Events, placemaking and activation can also improve the wellbeing and safety of the local community by increasing people presence in local streets and activity centres. This in turn helps create great places and build a strong sense of place.

Placemaking Processes

The City has established processes that encourage delivery of events, placemaking and place activation initiatives and support collaboration between the City and community to activate spaces where neighbours and visitors enjoy their local places. We do this through the elements outlined below:

PLACE-BASED EVENTS

Focus on local needs and aspirations • Celebrate unique attributes of place
Build neighbourhood cohesion • Support local economic growth

FLAGSHIP EVENTS

Support tourism • Promote City Brand • Support City-wide economic growth
Showcase the City as a great place to live, work and visit

EVENTS AND ACTIVATION ADVICE

Support and upskill community groups and local business • Ensure safety compliance

EVENTS AND ACTIVATION APPROVALS

Support all events within the City • Identify improvements • Ensure safety compliance

PLACEMAKING INITIATIVES

Engage and support community leaders • Support small pilot projects • Insurance support
Provide seed funding • Community training and education • Community-led initiatives

Figure 13 - Place Management and Activation Processes

In a culture where sharing and respect for Country are fundamental, Welcome to Country remains central to Aboriginal and Torres Strait Islander cultural tradition. The City holds its responsibility regarding Welcome to Country and Acknowledgement to Country highly. It is through our events and activities that the City marks our respect for Aboriginal and Torres Strait Islander culture and Country. The City uses our events and activities as opportunities to encourage people to be aware of what is around them, the unique aspects of the place and the time of year being gathered in. It is a chance for people to experience a greater connection to their home or the place they are visiting.

Place-based Events

As part of the previous Place Framework implementation the City's community events calendar transitioned from a City-wide to a place-based focus. This approach provides a number of benefits and improved place outcomes such as:

- Ability to tailor events for different communities based on their local needs and requirements;
- Utilise local vendors and suppliers where possible;
- More cost effective and allows the City to "do more with less"; and
- Promote local areas and assist to develop the communities' sense of place.

Figure 14 - City-run Community Events

Community Empowerment

Residents and community groups have increasingly felt more empowered to become active within their places, which has led to an increase of community run events, placemaking projects and activations. This is consistent with an emerging trend across WA, which is being established and driven by the Town Team Movement. Supporting community-led activity and groups like Town Teams can be a better way to build community, encourage local ownership, and facilitate investment to support the creation of great places through collaborating, partnering and problem solving.

A Town Team: is a positive and proactive group of people that include businesses, landowners and residents working collaboratively with their local government to improve a place or area, often a town centre or 'main street'.

The ultimate goal of this Strategy is to foster community-led action (Figure 15) to support the growth and development of strong, productive and vibrant communities and places.

Figure 15 - Community-led trajectory

Place Management Summary

STRATEGY STATEMENT:

We will support, collaborate and encourage the community and local business to activate their local places through events, placemaking and activation that make a positive contribution to their local sense of place.

We will do this by:

- Developing the role of 'Vision Keeper' to oversee and coordinate Place Teams and support implementation of Local Area Plans.
- Employing a targeted approach to key focus areas to enable activation and collaboration.
- Establishing an approach to working with and supporting Town Teams within Town Centres and main streets.
- Reviewing the City's policies and procedures to streamline the event and activation assessment and approval processes.
- Inviting a local Traditional Owner to provide a Welcome to Country or other appropriate cultural protocol at significant City events.
- Providing community funding to support placemaking and activation outcomes.

HIGHLIGHT PROJECT: WANNEROO TOWN CENTRE REVITALISATION

The Wanneroo Town Centre (WTC) has been identified by the Western Australian Planning Commission as a Secondary Activity Centre within the City of Wanneroo. This is the same classification as Whitfords Shopping Centre and Claremont Quarter. The activation of the WTC has been a strategic focus of the City for a number of years with considerable work being completed to date including:

- Preparation of the Wanneroo Town Centre Activity Centre Plan No. 90;
- Preparation of a Wanneroo Town Centre Local Planning Policy (since revoked);
- A number of traffic, environmental and economic assessments;
- A place activation and action plan;
- A series of farmers market and trial Rocca Way market events; and
- Various conversations with community stakeholders and local businesses.

A clear vision for the future of the WTC is required to inform and guide subsequent planning and development of the WTC. A Vision keeper is needed to coordinate this work and ensure that it contributes positively to the revitalisation of the WTC.

The inclusion of a Place Specialist to oversee key locations like Yanchep and the WTC forms part of the Place Strategy and will support the vision keeper role as well as implementation of a coordinated approach to Town Centre management within the City of Wanneroo.

Community Engagement and Communications

Community engagement and communications are a vital component of the City's Place Approach and underpin the City's aim to better engage with, support and empower the community to foster a sense of place and belonging.

Engagement is a planned two-way process to seek and provide feedback, whereas Communication is more often a one-way process to provide information.

ENGAGEMENT

The City has a responsibility to support and manage community expectations that develop and deliver improved outcomes for our communities and their local places. As part of this challenge, the City will need to collaborate with key residents, community groups and local businesses to find and deliver solutions.

The City's Engagement Framework is aligned with the International Association of Public Participation (IAP2) standards; and seeks to engage with residents, businesses, community and other stakeholders in accordance with the engagement continuum below:

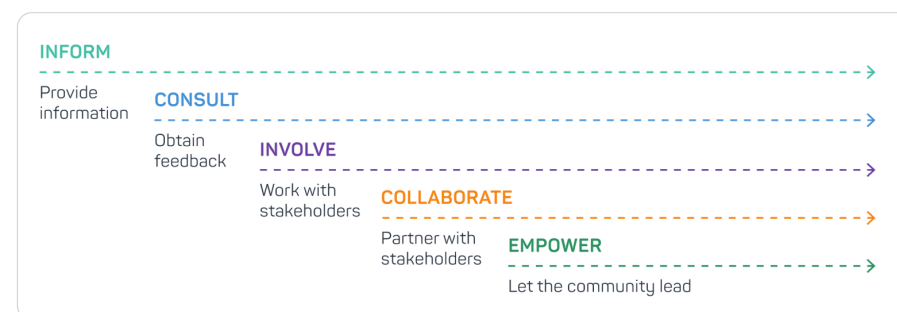

Figure 16: City of Wanneroo Community Engagement Continuum

Robust conversations and engagement with key residents, local businesses, community and other stakeholders are key to the success of the place approach.

The City uses a range of approaches to engage with the community about local projects and decision-making opportunities that affect them. Some of these include:

IN PERSON ENGAGEMENT

- Workshops
- Committees
- Working groups
- Activations
- Events

ONLINE ENGAGEMENT

- Your Say
- Social Pin Point
- Surveys

Online engagement is becoming an increasingly popular method of engagement across the City with our 'Your Say Community Engagement Hub' receiving up to 250,000 views annually.

The use of Social Pinpoint Mapping Tool, which enables community members to use an interactive mapping tool to pin ideas and comments to local projects, places and spaces, join in conversations and vote on different ideas.

It is the City's ambition to shift towards further empowering communities to take the lead on projects, initiatives and decision making where appropriate.

This supports the creation of connection, capability, and ownership; all of which pay significant dividends when it comes to building the physical and social fabric of a neighbourhood. Furthermore, empowered and well supported communities can provide outcomes that are often better than standard industry-delivered improvements which lack local ownership, and can often remain under utilised.

COMMUNICATIONS

It is important that place-based communications:

- Are informed by strategic direction;
- Avoid using jargon and focus on what's important to people;
- Are driven by local facts and knowledge gained through market research; and
- Use communication methods preferred by target audiences.

Place-based communications also provides the opportunity to ensure branding is tailored to suit agreed local places, projects, and initiatives.

Our aim is to make it easier for the community to be aware of what is happening in their local areas and how to get involved.

To support the creation of great places the City has adopted a number of different approaches to help communicate with the community about local matters. Some of these communications approaches include:

Print media

- What's Happening
- Newsletters
- Pamphlets
- Brochures

Online information

- Website
- Social media
- Community Directory

ENGAGEMENT AND COMMUNICATION THAT CAPTURES OUR DIVERSITY

The City is committed to continuing to build inclusive communities where people of all cultures feel accepted, welcomed and encouraged to participate and contribute. It is also through place-based outcomes that we can strengthen our cultural capability and commitment to reconciliation.

The City's strong Noongar heritage plays an important role in fostering a sense of place. In keeping with respect to Noongar cultural heritage, the City recognises the importance of having meaningful relationships with Noongar Elders, Traditional Owners and Aboriginal and Torres Strait Islander peoples.

Additionally, over 40% of our residents born overseas, this provides a richness within our communities that can share in fostering a sense of place and building vibrant, unique places. It is critical to ensure the City has effective processes in place to work with this diverse range of cultural backgrounds to build engaged and inclusive communities.

Engagement and Communications Summary

STRATEGY STATEMENT:

We will collaborate and empower the community to support the delivery of the Place Strategy, activate local areas and enable more local conversations about opportunities and actions.

We will do this by:

- Raising awareness within the City of Wanneroo as an organisation as well as within the community of Place Development and Place Management approaches and how to engage on and implement the most appropriate method relevant to the local area.
- Developing relevant Place Plans that avoid jargon, focus on what is important to local people using communication methods preferred by the target audience.
- Developing and implementing an engagement plan and guiding principles to work with Aboriginal and Torres Strait Islander stakeholders and organisations.
- Exploring opportunities for place based communications focused around Place Management Areas and/or Local Areas.
- Establishing an approach to engaging with, supporting and growing the capacity of Town Teams and other key groups who are working within Town Centres and main streets.

Implementation

The delivery of the City of Wanneroo's first Place Strategy will require an enabling environment that acknowledges that it is okay to:

- Take risks
- Test and trial new ideas
- Take the time to collaborate
- Learn through failure

The creation of great places can be a complex process with many layers and components to be considered. Some of the approaches identified as part of this Strategy will be possible through existing mechanisms; others will require minor changes to relevant policy and processes; and some may necessitate a new approach. An Implementation Plan will identify specific actions to support delivery of the approaches outlined in this Strategy.

GOVERNANCE

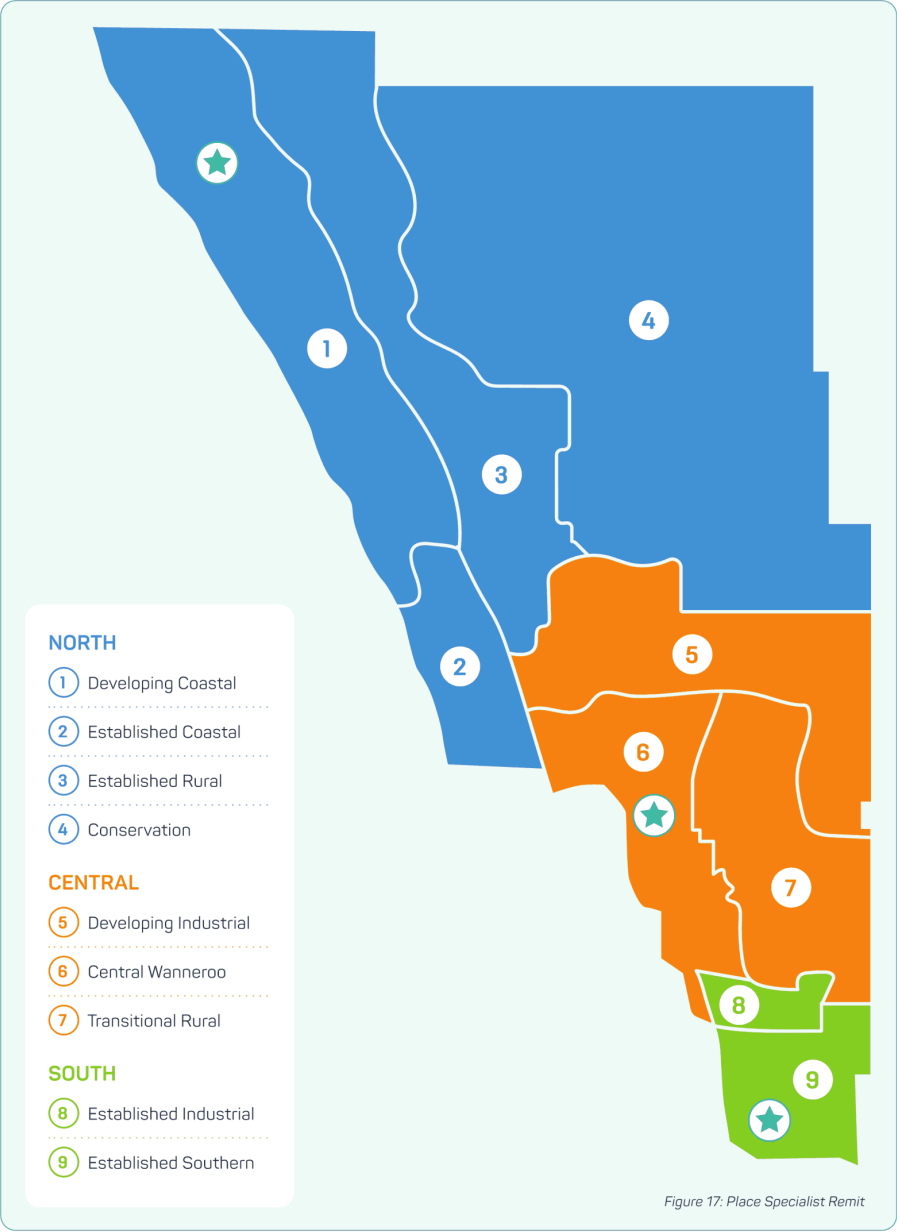

Establishing an effective place governance framework will continue to enable the City to embed the Place Approach across the organisation and community.

The various stakeholders involved in planning and delivering this Strategy will have different priorities, needs and strengths so it will be important to balance local needs, resources, opportunities, and challenges with place-based outcomes.

Important elements of place-governance identified in the Strategy include:

- The establishment of a Vision Keeper, formation of Place Teams and supporting City staff to work in place.
- Adapting internal systems, policies and work procedures to support a place based approach.
- Allocation of sufficient staff resources across the City to support the implementation of the Strategy (refer *Figure 17: Place Specialist Remit*). The initial focus of the Strategy is on implementing the Place Approach broadly across the northern, central and southern areas of the City. These focus areas will be refined in future to target additional areas as resources allow.

EVALUATION

The City will undertake regular reviews to ensure that the Place Strategy is meeting the needs of local communities and supporting the creation of great places to live, work and play.

At the conclusion of this four-year Strategy, the elements below will be measured and evaluated to capture lessons learnt, help improve processes and outcomes and evaluate tools and techniques utilised throughout implementation and delivery. These will be evaluated using quantitative tools (e.g. data collection, budget analysis, comparison tests etc.) and qualitative tools (e.g. observations, case study and working groups).

Corporate Strategy & Performance

Strategic & Business Planning

4.7 Financial Activity Statement for period ended 31 October 2022

File Ref: 43017V02 – 22/423491
Responsible Officer: Director, Corporate Strategy & Performance
Attachments: 4

Issue

To consider the Financial Activity Statement for the period ended 31 October 2022.

Background

In accordance with *Local Government (Financial Management) Regulations 1996*, the Financial Activity Statement has been prepared in compliance with the following:

- *“Regulation 34(1) of the Local Government (Financial Management) Regulations 1996, which requires a local government to prepare a statement of financial activity each month, presented according to nature and type, by program, or by business unit. For the 2022/23 financial year the statement of financial activity will be presented by nature and type.*
- *Regulation 34(5) of the Local Government (Financial Management) Regulations 1996, which requires a local government to adopt a percentage or value, calculated in accordance with Australian Accounting Standards, to be used in statements of financial activity for reporting material variances. For the 2022/23 financial year 10% and a value greater than \$100,000 will be used for the reporting of variances.”*

Detail

Financial Activity for the Period Ended 31 October 2022

At the Ordinary Council Meeting on 28 June 2022 (SCS028062022), Council adopted the Annual Budget for the 2022/23 financial year. The figures in this report are compared to the revised budget.

Overall Comments Month-to-Date

Results from Operations

The Financial Activity Statement report for the month of October shows an overall favourable variance from Operations before Non-Operating Revenue and Expenses of \$2.2m.

The favourable variance is mainly due to higher income from Rates, Interest Earnings, Fees & Charges and Other Revenue combined with lower spends in Materials, Contracts, Depreciation, Utility and Employee Costs.

Description	Current Month - October 2022					Comments
	Actual \$m	Revised Budget \$m	Variance \$m	Variance %		
Operating Revenue	3.5	2.9	0.6	20.7	G	Overall favourable variance is mainly due to higher revenue from Rates, Fees & Charges Interest Earnings and Other Revenue partially offset by lower Operating Grants, Subsidies & Contributions. Please refer to Notes 1, 2, 3, 4 and 5.
Operating Expense	(17.3)	(18.9)	1.6	8.5	G	The favourable variance is mainly due to lower Employee Costs, Materials & Contracts Expenses, Utility Charges and Depreciation. Please refer to notes 6, 7, 8, and 9 for further details.
Result from Operations	(13.8)	(16.0)	2.2	13.8		

Capital Program

During October 2022, \$4.9m was spent on various capital projects of which \$2.6m was spent on Fleet Management and Sports Facilities (**Attachment 2** for more details).

Description	Month Actual \$m	Month Revised Budget \$m	% Complete of Month Revised Budget
Expenditure	4.9	7.2	68.1%

Overall Comments on Year to Date (YTD) Figures

Results from Operations

The Financial Activity Statement report for the year to date 31 October 2022 shows an overall favourable variance from Operations (before Non-Operating Revenue and Expenses) of \$11.2m.

The favourable variance is mainly due to lower expenses from Materials & Contracts of \$6.1m, Employee Costs of \$1.3m, Depreciation of \$876k, Utility Charges of \$346k and higher revenue from Rates of \$869k, Operating Grants, Subsidies & Contributions of \$734k, Interest Earnings of \$536k, Other Revenue of \$232k and Fees & Charges of \$390k.

Description	Year-To-Date October 2022					Comments
	Actual \$m	Revised Budget \$m	Variance \$m	Variance %		
Operating Revenue	190.6	187.9	2.7	1.4	G	Overall favourable variance is mainly due to higher revenue from Rates, Operating Grants, Subsidies & Contributions, Interest Earnings, Other Revenue and Fees & Charges. Please refer to Notes 1, 2, 3, 4 and 5.
Operating Expense	(65.8)	(74.3)	8.5	11.4	G	The favourable variance is mainly due to lower Employee Costs, Materials & Contracts, Utility Charges and Depreciation partially offset by higher Insurance and Interest Expenses. Please refer to notes 6, 7, 8, and 9 for further details.
Result from Operations	124.8	113.6	11.2	9.9		

Capital Program

At the end of October 2022, \$13.2m expended on various capital projects of which \$3.9m was spent on Sports Facilities, \$4.0m on Fleet Management and \$1.0m on Roads. (Refer **Attachment 2** for Top Capital Projects 2022/23).

Description	YTD Actual \$m	YTD Revised Budget \$m	% Complete of YTD Revised Budget	Annual Revised Budget \$m	% Complete of Annual Revised Budget
Expenditure	13.2	28.7	46.0%	86.2	15.3%

Investment Portfolio Performance

Portfolio Value \$m	Monthly Weighted Return	Comments
524.8	2.79%	Portfolio balance has increased by \$6.0m from September 2022. The monthly weighted return is 2.79% which is above the set benchmark (12 months UBS Australia Bank Bill Index) by 2.03%. (Refer to Attachment 3 for more details)

Detailed Analysis of Statement of Comprehensive Income

Comments relating to the Statement of Comprehensive Income are provided under the following two sections:

- a) Current month comparison of Actuals to Revised Budgets; and
- b) Year to date of Actuals to Revised Budgets.

The comments are provided where the variance is higher than reporting threshold or item of interest to Council.

**DCP=Developers Contribution Plans

Revenues

Note 1 Rates

Month to Date - (Actual \$52k, Revised Budget \$10k)

The variance is favourable by \$42k due to timing differences of interim rates.

Year to Date - (Actual \$145.7m, Revised Budget \$144.8m)

The favourable variance of \$869k mainly due to timing differences of interim rates.

Note 2 Operating Grants, Subsidies & Contributions

Month to Date - (Actual \$359k, Revised Budget \$469k)

The variance is unfavourable by \$110k mainly due to lower than expected Court fees reimbursements of \$74k from Ratepayers and loss of income from Charity Golf Day Cash Sponsorships of \$40k, due to event been removed from the annual events calendar. Associated budget related to Charity Gold Day income will be removed via midyear budget review process.

Year to Date - (Actual \$2.5m, Revised Budget \$1.8m)

Favourable Variance of \$734k mainly due to:

- Early receipt of Finance Assistance Grant income of \$294k;
- Early receipt of park maintenance cash contribution of \$280k from Department of Education; and
- Receipt of reimbursement income from Domestic Recycled Material Scheme of \$157k.

Note 3 Fees and Charges**Month to Date - (Actual \$1.9m, Revised Budget \$1.8m)**

The favourable variance for October 2022 is \$75k, mainly due to higher Booking Fee income from various community centres and sports facilities of \$237k, partially offset by lower license fee income from food safety and land development applications of \$107k, lower user entry and booking fee income of \$54k from various community facilities.

Year to Date - (Actual \$39.0m, Revised Budget \$38.6m)

The variance is favourable by \$390k is mainly due to higher income from booking fees from various community centres and sports facilities of \$873k and property lease income from various facilities of \$105k partially offset by lower income generated by various community facilities fees and charges of \$429k and user entry fee income of \$167k.

**Note 4 Interest Earnings****Month to Date - (Actual \$1.1m, Revised Budget \$543k)**

The favourable variance of \$576k for the month is mainly due to higher interest income generated from investments of \$479k and higher interest earned from unpaid Rates and Rates Instalment plans of \$97k.

Year to Date - (Actual \$3.0m, Revised Budget \$2.4m)

The variance is favourable by \$536k due to higher Interest Earnings from investments than expected.

Note 5 Other Revenue

Month to Date - (Actual \$96k, Revised Budget \$75k)

The favourable variance of \$21k for the month is mainly due to sand and limestone extraction revenue related to Neerabup industrial area.

Year to Date - (Actual \$459k, Revised Budget \$227k)

The variance is favourable by \$231k due to higher than expected revenue from sand and limestone extraction revenue related to Neerabup industrial area of \$300k partially offset by lower fuel tax rebate of \$69k.

Review of annual revenue forecast will be undertaken for revenue from sand and limestone extraction related to Neerabup industrial area and amendments will be incorporated to the Mid-Year Budget review Process.

Expenses

Note 6 Employee Costs

Month to Date - (Actual \$6.5m, Revised Budget \$7.0m)

The favourable variance of \$589k, is a result of deferment of backfilling certain vacant roles due to current market conditions.

Year to Date - (Actual \$26.8m, Revised Budget \$28.0m)

The variance is favourable by \$1.3m mainly due to deferment of backfilling certain vacant roles.

Note 7 Materials and Contracts

Month to Date - (Actual \$6.4m, Revised Budget \$6.8m)

The favourable variance \$450k is mainly due to timing differences in various contract expenses across the City.

Year to Date - (Actual \$21.0m, Revised Budget \$27.1m)

The variance is favourable by \$6.1m mainly due to timing differences in various contract expenses of \$4.3m and deferment of refuse removal expenses of \$1.8m.

Note 8 Utility Charges

Month to Date - (Actual \$784k, Revised Budget \$1.1m)

The variance is favourable by \$358k mainly due to delay in receiving of actual electricity bills related to various parks and community facilities.

Year to Date - (Actual \$3.2m, Revised Budget \$3.5m)

The favourable variance of \$346k is mainly due to delay in receiving of actual electricity bills related to various parks and community facilities.

Note 9 Depreciation**Month to Date - (Estimated Actual \$3.2m, Revised Budget \$3.4m)**

Actual depreciation is an estimated value until completion of external audit on the Statutory Financial Statements for 2021/2022. The estimated favourable variance of \$219k is due to delay in completion of various capital projects.

Year to Date - (Estimated Actual \$12.9m, Revised Budget \$13.7m)

The estimated favourable variance of \$876k is due to delay in completion of various capital projects.

**Non Operating Revenue & Expenses****Note 10 Non Operating Grants, Subsidies & Contributions****Month to Date – (Actual \$596k, Revised Budget \$1.5m)**

The unfavourable variance of \$908k is attributable to timing difference of receiving Federal Government grants.

As per the Australian Accounting Standard AASB 1058, grants with performance obligations can only be recognised upon meeting the performance obligations of the grant agreement.

Year to Date – (Actual \$5.2m, Revised Budget \$6.9m)

The unfavourable variance of \$1.7m is mainly due to delay in meeting performance obligations as per the grant agreements for capital projects funded by Federal Government.

Note 11 Profit / Loss on Asset Disposals**Month to Date – (Combined Actual \$-201k, Combined Revised Budget \$141k)**

The variance is unfavourable by \$343k is mainly due to Profit adjustment of Tamala Park Regional Council land sales of \$198k and \$145k related to timing difference of disposal of residential land.

Year to Date – (Actual \$617k, Revised Combined Budget \$565k)

The variance is favourable by \$52k is mainly due to disposal of residential land.

Note 12 Town Planning Scheme (TPS) Revenues**Month to Date – (Actual \$2.3m, Revised Budget \$1.8m)**

The favourable variance of \$512k is mainly due to timing differences of contributions from headwork.

Year to Date – (Actual \$6.2m, Revised Budget \$6.0m)

The favourable variance of \$285k is mainly due to higher contributions from headwork.

Note 13 Town Planning Scheme (TPS) Expenses**Month to Date – (Actual \$382k, Revised Budget \$12.7m)**

The favourable variance of \$12.3m is mainly due to timing differences of contract expenses related to:

- \$10.7m related to deferred contract expenses related to acquisitions of Public Open Space from Lot 9500 (264) Kingsway - 2,670m² and public open space from Lot 2 Driver Road Darch;
- \$1.0m due to delay in contract expenses related to acquisition of Public Open Space from Quito/Stockland; and
- \$907k deferred contract expenses related to acquisition and development of Public Open Space from Lot 150 Landsdale \$1.5m.

Year to Date – (Actual \$720k, Revised Budget \$17.1m)

The favourable variance of \$16.4m is mainly due to timing differences of contract expenses as explained above.

Note 14 Contributed Physical Assets**Month to Date – (Actual \$3.2m, Revised Budget \$2.1m)**

The favourable variance of \$1.1m due to contribution of various infrastructure physical assets by residential land developers.

Year to Date – (Actual \$5.6m, Revised Budget \$8.3m)

The unfavourable variance of \$2.7m due to delay in contribution of various infrastructure physical assets by residential land developers.

Statement of Financial Position (Attachment 1)

CITY OF WANNEROO
STATEMENT OF FINANCIAL POSITION
AS AT 31 OCTOBER 2022

Description	Draft 30 June 2022 Actual \$	30 October 2022 Actual \$	Movement		Notes
			\$	%	
Current Assets	462,312,629	606,089,568	143,776,939	31.1	
Current Liabilities	(103,989,263)	(113,374,849)	(9,385,586)	(9.0)	
NET CURRENT ASSETS	358,323,366	492,714,719	134,391,353	37.5	1
Non Current Assets	2,375,656,088	2,383,239,048	7,582,961	0.3	2
Non Current Liabilities	(165,154,615)	(165,322,784)	(168,169)	(0.1)	3
NET ASSETS	2,568,824,839	2,710,630,983	141,806,145	5.5	
TOTAL EQUITY	(2,568,824,839)	(2,710,630,983)	141,806,145	5.5	

Note 1 - Net Current Assets

When compared to the unaudited opening position at 30 June 2022 Net Current Assets have increased by \$134.4m, which is predominately due to the levying of 2022/23 Rates and Waste Service Fees in July 2022.

Within the Current Assets, Current Receivables of \$76.9m are mainly comprised of collectable Rates and Waste Service Fees debtors of \$59.9m and Emergency Services Levy of \$8.5m, with the remaining balance attributed to General Debtors of \$8.5m.

Note 2 - Non-Current Assets

Non-Current Assets as at 30 October 2022 have increased by \$7.6 from 30 June 2022 estimated Actuals. The movement is mainly due to increase in Work in Progress Capital Projects of \$19.3m, Investments of \$508k and Land of \$586k partially offset by the decrease in Infrastructure Assets of \$7.8m, buildings of \$1.4m, Plant & Equipment of \$2.1m and Furniture & Fittings of \$1.4m due to estimated depreciation.

Note 3 - Non-Current Liabilities

Non-Current Liabilities as at 30 October 2022 have increased by \$168k due to change in the leave provisions.

Financial Performance Indicators

The table below presents data on relevant financial ratios, comparing the minimum standard expected as per the DLGSCI status at the year to date figures, and at the same period of the last year.

A green highlight is used where the minimum standard is met or exceeded. Highlighted in red is below the standard (where relevant).

Details	DLGSCI Minimum Standard	As at 31/10/2021	As at 31/10/2022	For the month - Minimum Standard Met
Current Ratio				
The ability to meet short term financial obligations from unrestricted current assets.				
Current Assets - Restricted Current Assets (RCA)	=>1.00:1	2.08:1	2.33:1	YES
Current Liabilities (CL) - CL Associated with RCA

IT Equipment and Software	14	203,795	805,758	7,298,550	11%
Parks Furniture	10	277,285	339,619	3,133,657	11%
Parks Rehabilitation	1	145,152	193,607	1,496,800	13%
Passive Park Development	8	15,970	129,316	655,829	-20%
Pathways and Trails	5	110,192	436,689	4,387,299	10%
Roads	22	679,912	1,059,324	7,921,180	13%
Sports Facilities	40	1,183,869	3,930,428	25,563,649	15%
Stormwater Drainage	4	65,080	2,113	189,968	1%
Street Landscaping	4	4,392	15,844	263,652	6%
Traffic Treatments	19	131,544	486,054	5,285,978	9%
Waste Management	4	102,064	204,129	547,892	37%
Grand Total	203	4,932,743	13,194,575	86,157,229	15.3%

During the month of October 2022, the City incurred \$4.9m of capital expenditure. Up to October 2022, the City has spent \$13.2m, which represents 15.3% of the \$86.2m Capital Works Revised Budget.

To further expand on the Capital Works Program information above, updates in key capital projects are selected to be specifically reported on, is provided in the Top Capital Projects attachment to this report (**Attachment 2**).

Capital Changes

The following changes are proposed to the 2022/23 Capital Works budget.

PR-1464 Recurring Program, New Mobile Garbage Bins – Additional funds of \$186,000 are required to ensure an adequate stock of mobile garbage bins in store. This program is funded from the Domestic Refuse reserve, hence no bottom line impact to the City.

PR-2565 Recurring Program, Renew Leased Building Assets – An additional \$120,000 is required for a power upgrade to the Yanchep Sports and Social Club building to enable completion of HVAC renewal at the site. It is proposed to fund this from PR-4384 Recurring Program, Upgrade Leased Building Assets - Minor Works where a scope deferral has resulted in surplus funds.

PR-4158 Marmion Avenue, Upgrade Street Landscaping – Additional funds of \$65,000 are required to make a payment of an invoice for works completed in prior years. It is proposed to fund this from savings in PR-4233 Highclere Boulevard Marangaroo - Traffic Management Scheme due to a reduction in scope.

PR-4172 Hinckley Park, Hocking, Upgrade Passive Park – An additional \$15,000 is required to complete CCTV installation works at the site, which was not part of the original scope. It is proposed to fund this from savings identified in PR-4200 Recurring Program, New Park Equipment due to a reduction in scope.

PR-4264 Automatic Car Park Closing Gates and CCTV, Various Locations, New Installations – Additional \$32,000 is required for an increase in scope and sites. It is proposed to fund this from savings in PR-4233 Highclere Boulevard Marangaroo - Traffic Management Scheme due to a reduction in scope.

PR-4406 Yanchep Community Centre, Yanchep, Yanchep Two Rocks Access Centre (YTRAC) Relocation – A new project has been created for the relocation of the Yanchep Two Rocks Access Centre (YTRAC), with \$32,000 to be transferred from operating GL Place Activation-Yanchep Hub-Contract Expenses (312.5156.52110) as the expenditure has been deemed to be capital in nature.

Investment Portfolio (Attachment 3)

In accordance with the *Local Government (Financial Management) Regulations 1996* (and per the City's Investment Policy), the City invests solely in Authorised Deposit taking Institutions (ADI's):

At the end of October 2022, the City held an investment portfolio (Cash and Term Deposits) of \$524.8m (Face Value), equating to \$528.3m inclusive of accrued interest. The City's year to date investment portfolio return has exceeded the UBS Australia Bank Bill rate index benchmark by 2.03% pa (2.79% pa vs. 0.76% pa), which is higher than budgeted 1.79% yield during the financial year.

Rate Setting Statement (Attachment 4)

The Rate Setting Statement represents a composite view of the finances of the City, identifying the movement in the Surplus/ (Deficit) based on the Revenues (excluding Rates), Expenses, Capital Works and Funding Movements, resulting in the Rating Income required. It is noted that the closing Surplus/ (Deficit) will balance to the reconciliation of Net Current Assets Surplus/ (Deficit) Carried Forward (detailed below):

NET CURRENT ASSETS SURPLUS/(DEFICIT) CARRIED FORWARD

Provision for leave liability (Cash Backed)	13,927,001	14,350,103	15,277,991
Contract Liabilities*	32,817,320	32,808,832	12,223,204
TPS Receivables	(648,800)	(648,800)	-
TPS Payables	106,754	53,804	-
TOTAL RESTRICTED ASSETS	(321,340,816)	(316,943,699)	(331,417,341)
Surplus/(Deficit) Carried Forward	36,982,550	175,771,020	15,999,750

*The change in the AASB Standard 15 has resulted in the City now recognising Grants and Contributions received as a liability when performance obligations have not yet been met.

Consultation

This document has been prepared in consultation with Responsible Officers for review and analysis.

Comment

In reference to Statement of Comprehensive Income in the report, the following colours have been used to categorise three levels of variance:

Revenues:

- Green > 0%;
- Amber -0% to -10%; and
- Red < -10%.

Expenses:

- Green > 0%;
- Amber -0% to -10%; and
- Red < -10%.

Statutory Compliance

This monthly financial report complies with *Section 6.4 of the Act and Regulations 33A and 34 of the Local Government (Financial Management) Regulations 1996*.

Strategic Implications

The proposal aligns with the following objective within the Strategic Community Plan 2021 – 2031:

7 ~ A well governed and managed City that makes informed decisions, provides strong community leadership and valued customer focused services

7.1 - Clear direction and decision making

Risk Appetite Statement

In pursuit of strategic objective goal 7, we will accept a Medium level of risk as the City balances the capacity of the community to fund services through robust cost-benefit analysis and pursues evidence-based decision making to be effective stewards of the Council and City for future generations.

Risk Management Considerations

Risk Title	Risk Rating
CO-017 Financial Management	Medium
Accountability	Action Planning Option
Director Corporate Strategy & Performance	manage

“The above risk/s relating to the issue contained within this report has been identified and considered within the City’s Corporate risk register. Action plans have been developed to manage this risk to support existing management systems.”

“Local Jobs

The City is prepared to accept a high level of financial risk provided that the City implements a risk management strategy to manage any risk exposure.

Strategic Growth

The City will accept a moderate level of financial risk for facilitating industry development and growth.

Any strategic objective including ongoing planning, funding and capital investment to develop infrastructure strategic assets carries financial risks.”

Policy Implications

The following policies are relevant for this report:

- Accounting Policy;
- Investment Policy;
- Financial Cash Back Reserve Policy; and
- Strategic Budget Policy.

Financial Implications

As outlined in the report and detailed in Attachments 1 to 4.

Voting Requirements

Absolute Majority

Recommendation

That Council:-

1. **RECEIVES** the Financial Activity Statement and commentaries on variances to Budget for the period ended 31 October 2022 consisting of:
 - a) October 2022 Financial Activity Statement;
 - b) October 2022 Net Current Assets Position;
 - c) October 2022 Material Financial Variance Notes; and
2. **APPROVES BY ABSOLUTE MAJORITY** the following changes to the 2022/23 Capital Works Budget:

Number	From	To	Amount	Description
PR-1464	Domestic Refuse Reserve	PR-1464 Recurring Program, New Mobile Garbage Bins	\$186,000	Additional funds to ensure adequate stock on hand.
PR-2565	PR-4384 Recurring Program, Upgrade Leased Building Assets - Minor Works	PR-2565 Recurring Program, Renew Leased Building Assets	\$120,000	Additional funds for power upgrade to Yanchep Sports and Social Club as part of HVAC renewal.
PR-4158	PR-4233 Highclere Blvd Marangaroo - Traffic Management Scheme	PR-4158 Marmion Avenue, Upgrade Street Landscaping	\$65,000	Additional funds to complete line marking works.
PR-4172	PR-4200 Recurring Program, New Park Equipment	PR-4172 Hinckley Park, Upgrade Hocking, Passive Park	\$15,000	Additional funds for CCTV installation.
PR-4264	PR-4233 Highclere Blvd Marangaroo - Traffic Management Scheme	PR-4264 Automatic Car Park Closing Gates and CCTV, Various Locations, New Installations	\$32,000	Additional funds for increase in scope and number of sites.
PR-4406	Operating GL Place Activation-Yanchep Hub-Contract Expenses 312.5156.52110	PR-4406 Yanchep Community Centre, Yanchep, Yanchep Two Rocks Access Centre (YTRAC) Relocation	\$32,000	Costs deemed to be capital in nature.

Delivery	Schedule delayed by six months due to the decline of RFT 22115 responses. Works repackaged as RFQ 23741 to be issued. Construction anticipated March 2023 to September 2023. Total budget increase of \$436k pending Council approval for grant funds received but not yet allocated. There is a risk that the responses to the RFQ may not provide the City value for money and a viable pathway to project completion due to the current market conditions. Anticipated MYR for works extending into 2023/24.
PMO16061	002955	23756	Halesworth Park, Butler, New Sports Facilities	3,775,289	11,466	563,823	3,200,000	21,124,937	21,124,937	0					58	S5. Delivery	Advocacy for amendments to grant delivery scope ongoing. Proposed scope for retendering in 2022/23 for 'Construction of Sports Pavilions' to only include the main pavilion and the storage shed. Court Pavilion to be deferred. Final re-tendering schedule and scope to be determined. Delivery schedule adjusted to align % work complete to total project expenditure to date. Labour and materials costs within the construction industry remaining high. Quantity surveyor costs anticipated end of November 2022. The delivery schedule may be subject to further delays pending resolution of advocacy in seeking additional funding, and/or changes to the delivery scope. Temporary accommodation for sports users and clubs have been installed. Anticipated MYR due to project delays.
PMO16175	002664	25883	Dordaak Kepap Library and Youth Innovation Hub, Landsdale, New Building	508,442	18,855	489,587	0	10,451,250	10,451,249	1					62	S4. Design	Report to Council 8 November 2022 incorporates feedback from community consultation and the Design Review Panel of the concept design. Report seeks approval to proceed with Development Application submission and to progress into the next stage of Detailed Design. Labour and materials costs within the construction industry remaining high. The delivery schedule may still be subject to further delay if Council request further feedback on the design and not progress the project into the detailed design stage, or require further considerations of the design and project budget.

PMO18039	002455	28837	Clarkson Youth Centre, Clarkson, Upgrade Building	1,535,419	13,618	1,433,143	88,658	1,670,000	1,562,871	107,129					74	S4. Design	Project on track. Building contract award approved at Council 11 October 2022 to A.E. Hoskins Pty Ltd.
PMO18124	004169	34063	Mindarie Breakwater, Mindarie, Renew Maintenance Management Plan	3,180,000	2,452	4,264,713	(1,087,165)	7,485,000	8,030,308	(545,308)					77	S5. Delivery	Tender 22078 approved by Council 11 October 2022. Construction is anticipated to commence January 2023. Project budget variance is based on estimated construction costs for 2022/23 with a contingency of \$300k. A recently approved Federal Government grant will cover the additional funding requirements.
PMO19071	004180	37143	Alexander Drive, Landsdale, New Shared Pathway from Gngara Rd to Hepburn Ave	1,270,704	1,816	374,299	894,589	3,200,000	3,200,000	(0)					25	S5. Delivery	Due to Western Power delays risks to program and costs may occur. Anticipated MYR rebudget due to project delays extending construction into 2023/24.
PMO20049	004271	40569	Splendid Park, Yanchep, New Cycling Facility	4,171,148	2,955,280	1,215,868	0	4,737,600	4,737,099	501					87	S5. Delivery	Construction of new cycling facility practical completion anticipated 25 November 2022. Recent works include track asphalt surface, road entry crossings, lighting, electrical and CCTV, fencing and, reticulation signage. Works within the events village start/finish area are ongoing. Due to shipment delays completion of display screen and CCTV works is anticipated to occur after practical completion. Temporary traffic/pedestrian management has been implemented to safely manage traffic and pedestrians in maintaining existing use of the sporting facility and car park. Traffic management has been put in place to divert traffic to the other car park entrances whilst closures are in place.
PMO20057	004277	40645	Alkimos, New Alkimos Aquatic and Recreation Centre	4,293,991	28,944	4,265,047	0	40,000,000	40,000,000	0					27	S4. Design	Project on track as investigations continued into delivery methodology and additional funding sources. The project remains on budget and the recent funding promise from the Federal Government is under negotiation as to the nature of the agreement and conditions to be applied.

PMO20062	004283	40782	Heath Park, Eglinton, New Sports Amenities Building	1,600,951	1,440	50,000	1,549,510	3,399,000	6,565,892	(3,166,892)					26	S4. Design	At 25% detailed design a budget deficit during the construction phase is forecasted. Detailed design is on hold pending sponsor review and advice on how to proceed. Anticipated MYR due to project delays.
PMO21008	004297	41322	Wangara Industrial Area, Wangara, New CCTV Network	1,203,189	419,719	783,470	(0)	978,500	1,352,500	(374,000)					68	S5. Delivery	Footings for pole constructed, waiting for concrete curing to be completed. Manufacture of smart poles underway. Other CCTV equipment delivered to Stiles. Building permit applications issued. Completion of Western Power works anticipated 18 November 2022. Change Form to be completed as Stiles have provided an updated program, scheduled to complete works at the end of the year within Federal Government's deadline. Delivery of project materials has been identified as a risk that may delay the project. Federal Government granted extension until 3 January 2023. Additional funding of \$374k anticipated to be awarded from LCRIP phase 3 request.
PMO21042	004331	42285	Kingsway Regional Sporting Complex, Madeley, Upgrade Soccer Field Floodlighting	2,673,500	14,483	2,659,017	(0)	2,786,000	2,787,489	(1,489)					49	S4. Design	Construction contract awarded to Stiles Electrical. Alternative offer from Stiles accepted following technical clarifications. This offer uses the latest Sylvania hybrid gen 3 fittings and driver which provides cost savings to enable construction to all three Separable Portions. Report to Council 8 November 2022 to award contract for Separable Portion 3. Grant agreement signed with DLGSCI. Delays due to long lead items (poles and light fittings) identified as a risk which may delay project completion and impact the fields being ready in time for FIFA Women's World Cup 2023 training.
PMO21060	004347	42656	Flynn Drive, Neerabup, Upgrade from Wanneroo Road to Old Yanchep Road	1,037,350	100,776	936,574	0	22,750,001	22,750,001	0					58	S4. Design	Procurement Evaluation Plan for Stage 1 prepared. Commonwealth Government have informed a further \$15m contribution to Stage 3 of the project will be provided.

PMO22023	004400	44424	Two Rocks Road, Yanchep, Upgrade Street Lighting	1,167,500	11,701	1,155,799	0	1,167,500	1,167,500	0					12	S4. Design	Western Power (WP) delay due to not allocating of a WP designer. WP advised that Clearing Permit efforts will run parallel with WP's detailed design efforts. WP agreed to prioritise this project. However, due long lead time of Clearing Permit efforts, site construction will highly likely commence in 2023/24 and not in 2022/23 as originally planned. The City completed the engagement of a subject matter expert to provide advice relating to UXO. RFQ for site investigation is currently being prepared. The budget estimate at completion to be determined once WP construction quote is received. Contingency amount of \$1m declaring a medium to high risk on non-delivery. MYR to be determined.

4.8 Warrant of Payments for the Period to 31 October 2022

File Ref: 1859V02 – 22/423136
 Responsible Officer: Director, Corporate Strategy & Performance
 Attachments: Nil

Issue

Presentation to the Council of a list of accounts paid for the month of October 2022, including a statement as to the total amounts outstanding at the end of the month.

Background

Local Governments are required each month to prepare a list of accounts paid for that month and submit the list to the next Ordinary Meeting of the Council.

In addition, it must record all other outstanding accounts and include that amount with the list to be presented. The list of accounts paid and the total of outstanding accounts must be recorded in the minutes of the Council meeting.

At the close of October 2022 outstanding creditors amounted to \$4,508,192.30.

Consultation

Nil

Comment

The list of payment (cheques and electronic transfers) and the end of month total of outstanding creditors for the month of October 2022 is presented to the Council for information and recording in the minutes of the meeting, as required by the Local Government (Financial Management) Regulations 1996.

Statutory Compliance

Regulation 13(1) of the Local Government (Financial Management) Regulations 1996 requires a local government to list the accounts paid each month and total all outstanding creditors at the month end and present such information to the Council at its next Ordinary Meeting after each preparation. A further requirement of this Section is that the prepared list must be recorded in the minutes of the Council meeting.

Strategic Implications

The proposal aligns with the following objective within the Strategic Community Plan 2021 – 2031:

7 ~ A well governed and managed City that makes informed decisions, provides strong community leadership and valued customer focused services

7.2 - Responsibly and ethically managed

Risk Appetite Statement

In pursuit of strategic objective goal 7, we will accept a Medium level of risk as the City balances the capacity of the community to fund services through robust cost-benefit analysis and pursues evidence-based decision making to be effective stewards of the Council and City for future generations.

Risk Management Considerations

There are no existing Strategic or Corporate risks within the City's existing risk registers which relate to the issues contained in this report.

Policy Implications

Nil

Financial Implications

Nil

Voting Requirements

Simple Majority

Recommendation

That, in accordance with Regulation 13 of the *Local Government (Financial Management) Regulations 1996*, Council RECEIVES the list of payments drawn for the month of October 2022, as detailed in this report.

Council & Corporate Support

4.9 Service Review Working Group – Aims, Guiding Principles and Prioritisation Criteria

File Ref: 45881 – 22/426552
Responsible Officer: Director, Corporate Strategy & Performance
Attachments: Nil

Issue

To formalise the Service Review process via a Service Review Working Group and in particular the Aims, Guiding Principles and Prioritisation Criteria.

Background

During budget development discussions, the need for continuing service reviews was expressed.

At the **Special Council Meeting** held on 28 June 2022, it was resolved:

“That Council:

REQUESTS the Chief Executive Officer to present a report to a future Ordinary Council Meeting on the establishment of a Service Review Working Group.”

At the Long term **Financial Plan Workshop** on 23 August 2022, the actions of the proposed Service Review Working Group and a draft Terms of Reference were discussed.

At the **Ordinary Council Meeting** held on 13 September 2022 (**Attachments 1 and 2**), it was resolved:

“That Council:-

1. *APPROVES the establishment of the Service Review Working Group, with Terms of Reference as provided in Attachment 1; and*
2. *APPOINTS the Mayor and all Council Members to the Service Review Working Group, as per the Terms of Reference.”*

At the **Service Review Working Group meeting** held on 10 October 2022, it was resolved:

“That the Service Review Working Group RECOMMENDS to Council the Aims, Guiding Principles in conducting service reviews and Prioritising Principles in selection of proposed service reviews as listed below:

Aims

- *Understanding service levels – how and when current levels were determined and whether they are still relevant, the cost and customer satisfaction implications of changing service levels;*
- *New ways of doing things; alternative ways of delivery; innovation – investigating different ways of delivering services including better use of technology;*
- *Better align community priorities, service levels and costs – understanding what the community values, and aligning services levels and costs to those priorities;*
- *Build capacity for the future – ensuring that the growth of the City can be accommodated in the future delivery of services with the available resources;*

- *Understanding what the customer values – basing service delivery decisions on information about what the community values;*
- *Strategic alignment – ensuring that service delivery decisions are aligned to the aspirations of the community as articulated in the Strategic Community Plan;*
- *Financial sustainability – ensuring the City is able to manage expected financial requirements and financial risks and shocks over the long term without the use of disruptive revenue or expenditure measures*

Guiding Principles

- *Equitable service provision across the City;*
- *Strong community and stakeholder engagement – building knowledge and transparency;*
- *Focusing not just on economy and efficiency but also effective provision of services;*
- *Local employment; and*
- *Safety of workers and community is a priority.*

Prioritising Criteria

- *Higher customer importance with lower satisfaction ratings;*
- *Organisational risk – future threats and opportunities;*
- *Changes in funding arrangements/state and federal government responsibilities and arrangements;*
- *Regulations, standards, compliance requirements; and*
- *Potential for improving financial performance.”*

Detail

Service Reviews completed

The following service reviews have already been completed:

1. Ranger Services;
2. Aquamotion and Kingsway; and
3. Waste service delivery.

The service delivery review methodology includes a commitment to stakeholder engagement as a key component in the review process, both in the gathering of relevant service information and its analysis. Knowing the community's needs and wants is a prerequisite to service provision.

Once data has been gathered in relation to each service, including the net cost, current service standards and stakeholder satisfaction levels, a determination is made about which services to review in detail first.

Consultation

The paper was prepared based on previous engagement with Council members.

Consultation will form a key part of determining community's expectations and needs for each service reviewed.

Statutory Compliance

No compulsory services will be removed as a result of service reviews however improvements will be considered in terms of method and process of delivery to extract cost and service efficiencies.

Strategic Implications

The proposal aligns with the following objective within the Strategic Community Plan 2021 – 2031:

7 ~ A well governed and managed City that makes informed decisions, provides strong community leadership and valued customer focused services

7.5 - Customer focused information and services

Risk Appetite Statement

In pursuit of strategic objective goal 7, we will accept a Medium level of risk as the City balances the capacity of the community to fund services through robust cost-benefit analysis and pursues evidence-based decision making to be effective stewards of the Council and City for future generations.

Risk Management Considerations

Risk Title	Risk Rating
ST-G09 Long Term Financial Plan	Medium
Accountability	Action Planning Option
Director Corporate Strategy and Performance	Manage

4.10 Service Reviews - Prioritisation

File Ref: 45881 – 22/426343
Responsible Officer: Director, Corporate Strategy & Performance
Attachments: Nil

Issue

To agree on recommendations made to Council by the Services Review Working Group on which services to be reviewed and prioritisation thereof within the next two years.

Background

At Service Review Working Group meetings held on 10 October 2022 and continued on 31 October 2022, various services were considered to be reviewed in FY23 and FY24.

Detail

During the meeting of 10 October, the following services were identified for further information gathering to be considered by this Working Group.

1. Climate Change – Climate change adaptation and mitigation strategy, Coastal hazard risk management adaptation planning and Coastal management planning

a. Climate change adaptation and mitigation strategy,

The Climate Change Adaptation & Mitigation Strategy 2020/21 – 2025/26 identifies areas where the City is exposed to the effects of climate change and to provide risk management adaptation measures to reduce this risk.

b. Coastal hazard risk management adaptation planning and

The Coastal Hazard Risk Management & Adaptation Plan (CHRMAP) identifies the areas of the City's coastline that will be subject to coastal erosion due to sea level rise over the next 100 years. The Plan provides a number of recommendation to monitor and manage this in line with the State Government's State Coastal Planning Policy 2.6.

c. Coastal management planning

The City's Coastal Management Plan provides a framework for the management of the City's 32 km coastline, facilitating access to the beach by the community whilst protecting the environment.

A detailed cost analysis will be performed as part of a service review.

2. Manage and maintain street scapes – Streetscape maintenance and arterial road street scape maintenance

Streetscape Maintenance and Arterial Road Streetscape Maintenance – covers the maintenance of streetscapes to include weed control in soft (garden beds, roundabouts, medians and verges) and hard (footpaths, paved areas and kerb lines) landscapes, vegetation maintenance (formative pruning and sightline management etc.), irrigation maintenance, litter removal and tree management.

A detailed cost analysis will be performed as part of a service review.

3. Youth development – Youth Programs in Community

The City provides outreach services to young people aged 8 to 25 years throughout the City of Wanneroo. The outreach service is provided at places where young people frequent including skate parks, BMX tracks, parks and other public spaces. Resources aligned to delivery of the outreach program include staffing, contractors and equipment such as a youth-specific trailer.

4. Crime Prevention – CCTV Management

The City installs, renews, maintains and manages a range of CCTV infrastructure across the public realm in the City of Wanneroo. This infrastructure includes fixed cameras, mobile and covert cameras and a trailer. The City works in collaboration with the WA Police and the City's Community Safety Working Group on the placement of fixed and mobile CCTV infrastructure. The City provides access to the CCTV network to the WA Police as required for investigative and operational purposes. In addition to CCTV infrastructure, the City has drone infrastructure that is used in the public realm for operational purposes.

The following cameras are currently in operation:

	Number of sites	Number of cameras
Connected sites	21	275
Stand-alone sites	18	182
Mobile	9	9
	48	466

The City allocates funding under the Capital Works Program on an annual basis to maintain the existing network, connect stand-alone sites and expand the CCTV network. In addition, the City covers the operational costs of staffing and contractor services.

Consultation

The report was prepared based on previous engagement with Council members at different forums, including the Services Review Working Group meeting of 10 October and continued on 31 October 2022.

Consultation will form a key part of determining community's expectations and needs for each service reviewed.

Comment

Next steps in the review methodology include as follows:

1. Customer engagement and satisfaction ratings,
2. Organisational risk assessment,
3. Changes in funding arrangements,
4. Regulatory requirements, and
5. Detailed costing.

The relevant reviews will start in the identified financial year and will progress until completed. The length of the review relates to the complexity of the subject service.

The Streetscapes area is particularly large so the review will take longer than the 6 months left in the current financial year.

Statutory Compliance

No compulsory services will be removed as a result of service reviews however improvements in terms of method and process of delivery to extract cost and service efficiencies will be considered.

Strategic Implications

The proposal aligns with the following objective within the Strategic Community Plan 2021 – 2031:

7 ~ A well governed and managed City that makes informed decisions, provides strong community leadership and valued customer focused services

7.5 - Customer focused information and services

Risk Appetite Statement

In pursuit of strategic objective goal 7, we will accept a Medium level of risk as the City balances the capacity of the community to fund services through robust cost-benefit analysis and pursues evidence-based decision making to be effective stewards of the Council and City for future generations.

Risk Management Considerations

Risk Title	Risk Rating
ST-G09 Long Term Financial Plan	Medium
Accountability	Action Planning Option

ST-S26 Resilient and Productive Communities	Medium
Accountability	Action Planning Option
Director Community and Place	Manage

Risk Title	Risk Rating
CO-O21 Competitive Service Costing	Medium
Accountability	Action Planning Option
Chief Executive Officer	Manage

The above risks relating to the issue contained within this report have been identified and considered within the City's Strategic/Corporate risk register. Action plans have been developed to manage/mitigate/accept this risk to support existing management systems.

Policy Implications

Nil

Financial Implications

The Service Review work will be covered by operational budgets.

The costs of implementing changes will be determined once the review is complete.

Voting Requirements

Simple Majority

Recommendation

That Council APPROVES the following list and priority of services to be reviewed for the 2022/23 and 2023/24 financial years, as recommended by the Services Review Working Group:

- 1. Financial Year 2022/23 (completing during 23/24)**
 - a) Manage and Maintain Streetscapes**
- 2. Financial Year 2023/24**
 - a) Youth Development – Youth Programs in Community**
 - b) Crime Prevention – CCTV Management**

4.11 Donations to be Considered by Council - December 2022

File Ref: 2855V03 – 22/429520
 Responsible Officer: Director, Corporate Strategy & Performance
 Attachments: 1

Issue

To consider requests for donations in accordance with the City's Donations Policy (Policy).

Background

The Policy requires applications over \$500 from individuals and organisations to be determined by Council. Subsequently a report is prepared for Council meetings, coinciding with a period where applications of this nature have been received.

During this period, the City has received one community donation request, which is summarised below. A copy of this application is available from Administration upon request.

YouthCARE School Chaplaincy services operate for the full year, as per normal WA School term dates and hours of operation. Some schools request a full-time chaplaincy service (37.5 hours per week) whilst others request a part-time service, each dependant on their level of funding and school budget capacity.

Detail

The City has received the following application for a donation.

Applicant 1 – Churches commission on Education Inc. T/A YouthCARE	
Request amount	\$20,000.00
Description of request	For the provision of YouthCARE Chaplaincy Services for eight Secondary Schools/Colleges: Alkimos College Ashdale Secondary College Butler College Clarkson Community High School Girrawheen Senior high School Mindarie Senior College Wanneroo Secondary College Yanchep Secondary College (Attachment 1)
Criteria	Evaluation
Potential for income generation	Nil
Status of applicant organisation	Not for Profit
Exclusivity of the event or project	City of Wanneroo secondary and college students
Alignment with Council's existing philosophies, values and strategic direction	6 ~ <i>A future focused City that advocates, engages and partners to progress the priorities of the community</i> 6.1 - Advocate in line with community priorities

Applicant 1 – Churches commission on Education Inc. T/A YouthCARE	
Alternative funding sources available or accessed by the organisation	\$371,338.00
Contribution to the event or activity made by the applicant or organisation	\$5,000.00
Previous funding assistance provided to the organisation by the City	20/486940 - \$20,000.00 - Sponsorship Programme for 2020/2021 in lieu of hosting the City's Charity Golf Day. The City has historically delivered an annual Charity Golf Day for over twenty years, raising close to \$700,000 for YouthCARE for the provision of chaplaincy services.
Commitment to acknowledge the City of Wanneroo	Yes
Comments	<p>The City recently completed a review of its approach to delivering civic events and as a result made the decision to discontinue the Charity Golf Day.</p> <p>The City advised YouthCARE, should they wish to request future funding report from the City to submit a donation application form.</p> <p>It is confirmed that funding of \$20,000 can be provided to meet this request from the Community & Place 2022/23 budget.</p> <p>Should future similar donation requests from YouthCARE be submitted for consideration by Council, it will be necessary to either significantly increase the annual amount budgeted for Donations or agree ongoing funding by the Community & Place Directorate in order to meet this requirement.</p>
Recommendation	As per Council decision
Reason	Is in accordance with the Policy

This donation request would be allocated for 2023 chaplaincy service costs.

Comment

The City of Wanneroo has historically delivered an annual Charity Golf Day for over twenty years, raising close to \$700,000 solely for YouthCARE, to provide chaplaincy services to schools within the City.

In 2020, the Charity Golf Day was cancelled at short notice, due to the COVID pandemic, as a result, YouthCARE was encouraged to apply for funding through the City's Sponsorship Program to minimise the impact of diminished funding.

The City has recently completed a review of its approach to delivering civic events; as a result, they made the decision to discontinue the Charity Golf Day from 2022.

The Festival and Cultural Events (FACE) Committee has considered the issue at its meeting on 31 May 2022 and supports a donation as a substitute for the former contribution arrangement.

Statutory Compliance

Nil

Strategic Implications

The proposal aligns with the following objective within the Strategic Community Plan 2021 – 2031:

6 ~ A future focused City that advocates, engages and partners to progress the priorities of the community

6.1 - Advocate in line with community priorities

Risk Appetite Statement

In pursuit of strategic objective goal 6, we will accept a Medium level of risk extended to High in the areas of Community / Reputation, Financial / Commercial & Management Systems / Operations impacts. This is required to address legacy ways of operating, support investment in the technology changes needed to deliver digital democracy, citizen engagement and involvement and move to more data-driven decision-making which may not align with Community sentiment or expectation.

There are no existing Strategic or Corporate risks within the City's existing risk registers which relate to the issues contained in this report.

Policy Implications

Nil

Financial Implications

Budget 2022/2023	\$30,000.00
Amount expended to date (as at 9 November 2022)	\$30,000.00
Balance	\$30,000.00
Total of requests for this round: Donations (Nil):	Nil Nil
Total this Round (recommended)	
BALANCE	\$30,000.00

As detailed above, noting that the current request can be met from Community & Place budgets, there is no impact on the 2022/23 Donations fund.

Voting Requirements

Simple Majority

Recommendation

That Council:-

APPROVES a request for a donation in the sum of \$20,000.00 to YouthCARE for the provision of Chaplaincy Services for eight Secondary Schools/Colleges within the City of Wanneroo:

- **Alkimos College**
- **Ashdale Secondary College**
- **Butler College**
- **Clarkson Community High School**
- **Girrawheen Senior high School**
- **Mindarie Senior College**
- **Wanneroo Secondary College**
- **Yanchep Secondary College**

City of Wanneroo Council
Council Chambers
23 Dundobar Road
Wanneroo WA 6065

6 November 2022

Dear City of Wanneroo Mayor, CEO and Councillors,

Thank you for your continued support for YouthCARE and YouthCARE chaplaincy services over the past 20+ years - in particular, through your Annual Charity Golf Day, the proceeds of which have been wholly directed to the high schools in the City of Wanneroo, as a contribution to their chaplaincy service costs. Over the past 5 years the event raised an average of \$33,500 per year, and close to \$700,000 since its inception.

Sadly, as you notified us of in a recent letter, you've now made the decision to discontinue the Charity Golf Day. We understand that this was a difficult decision for you and wish to express our sincere thanks, on behalf of YouthCARE and the Secondary Schools in the City, for having maintained it as an annual event for so long.

We'd especially like to acknowledge and thank the Mayor (past and present), CEO and Council members for their ongoing support for both school chaplaincy and this annual civic event, and the amazing efforts of your events team in coordinating each year - a mammoth task which we have greatly appreciated.

We thank you also for now offering us the option to apply for future funding using your Donation facility, and we hope that through these Donations, we can together continue to support the Secondary School students, families, and staff members throughout the City of Wanneroo.

YouthCARE is the current service provider for chaplaincy services for 41 public schools within the City of Wanneroo. Chaplains are an integral part of a school's Student Services team, providing much needed pastoral care, support, advocacy and referral for students, staff, and families, who present with a range of diverse needs impacting upon their health and wellbeing. The social, emotional, spiritual and practical support chaplains provide can help members of the school community better negotiate times of hardship, personal/family crisis, anxiety, grief and loss. For students, this hopefully enables them to engage with and make the most of their educational opportunities and personal growth.

YouthCARE feel privileged to be able to contribute to this care through the provision of chaplaincy services and to be able to support our schools and local communities in this way. It wouldn't be possible without your ongoing support, and so on behalf of all the schools and chaplains within the City of Wanneroo, I thank you once again, and thank you for your consideration with respect to our Donation Application for 2023.

Yours sincerely,

A handwritten signature in black ink, appearing to read "SJ", followed by a small dash.

4.12 Annual Review of the 3 Year Strategic Internal Audit Plan

File Ref: 7312V06 – 22/445898
Responsible Officer: Executive Manager Governance & Legal
Attachments: 1

Issue

To consider the recommendation of the Audit and Risk Committee to adopt the updated Strategic 3 Year Internal Audit Plan (2022/23 – 2024/25) prepared by the City's Internal Audit Service Provider – William Buck Consulting (WA) Pty Ltd (**William Buck**).

Background

The Strategic 3 Year Internal Audit Plan (**Plan**) is required to be reviewed and updated on an annual basis or when considered necessary by the Audit and Risk Committee to ensure that Internal Audit Reviews are aligned with any critical strategic, corporate and operational risks identified within the City. The review of the Plan considers the following:

- The City's Strategic and Corporate Risk Registers;
- The City's Strategic Community Plan 2021 - 2031;
- The City's Corporate Business Plan 2022/23 - 2025/26; and
- Review of the previous 3 year rolling and annual Plan.

The reviewed and proposed amended Plan as set out in **Attachment 1** was presented to the Audit and Risk Committee on 22 November 2022 for review and consideration, with Audit and Risk Committee recommending Council to adopt the Plan

Detail

The Plan and next year's annual internal audit Plan was reviewed by William Buck in conjunction with the City's In-house internal audit function and management through performance of the following steps:

- the previous 3 year rolling plan presented to the Audit and Risk Committee being considered in this plan's formulation;
- the latest updated strategic and corporate risk registers were reviewed to determine if there were any changes in the updated risk registers;
- revising the current plan in accordance with any emerging risks (for example: COVID-19, etc.) as well as reprioritising reviews in the 2022/23 year due to changes in management's priorities and feedback received from directors;
- The already identified auditable areas identified in the previous rolling 3 year internal audit plan were then reviewed by the risk rating along with consideration of other factors such as regulatory requirements, resourcing and priorities within the specific business areas and the date of last review, to ensure that the priority areas are still aligned within the previous strategic internal audit plan, refer to pages 9 -12; and,

- Update of current Residual risk rating (RRR) from Moderate to Medium in alignment to the updated Risk Assessment Criteria adopted by Council in June 2022, refer pages 4 – 8.

At its meeting on 22 November 2022, the Audit and Risk Committee noted the following amendments on the schedule of the internal Audits for the current year and the next 3 years:

- Approval Services Internal Audit Review and Fraud Risk Assessment to be rescheduled from 2021/22 to 2022/23;
- Stakeholder Relationship Management Internal Audit Review to be deferred from 2022/23 to after 2024/25;
- Add Land Development and Asset Handover Internal Audit Review to be conducted in 2023/24;
- Land Development and Contributions Review to be rescheduled from 2022/23 to 2023/24;
- Information Communication and Technology Internal Audit Review to be rescheduled from 2022/23 to 2023/24;
- Finance Review to be rescheduled from 2022/23 to 2024/25; and
- Land Development and Strategic Land Use Planning and Environment review, Procurement and Contract Management review, Project Management review and International Organisation for Standardisation Standards Review to be rescheduled from 2023/24 to 2024/25.

The Plan details scheduled internal audit reviews to be performed in 2022/23 and delivered in approximately 370 hours. Additional internal audit services relating to reporting and attendance at Audit and Risk Committee, Fraud Risk Assessment, Compliance Audit Return Review, Audit Log reporting, the City's 3 year rolling internal audit plan review and any ad hoc services are to be provided by William Buck within 435 hours. In total 805 hours of internal audit services are expected to be provided by William Buck in 2022/23.

In considering the above and the current review, the proposed amended Plan is set out in **Attachment 1**.

Consultation

The amendments were made on discussions held between William Buck, in consultation with relevant management, the CEO and the Executive Leadership Team.

Internal audit services detailed within the City's Strategic 3 Year Plan to be performed in 2022/23, including the number of internal audit reviews and approximate hours of internal audit services to be performed aligns with internal audit reviews undertaken by comparable Local Governments.

The City will continue to liaise with the Office of the Auditor General (**OAG**), to the extent that the OAG can divulge their planned audit areas for local government, noting their local government audit plan is confidential.

Comment

The Plan is developed and prioritised by internal audit in consultation with the City's management based on a consideration of the City's risk management framework strategic objectives and priorities, the development of policy and frameworks and outcomes from previous internal audits.

Statutory Compliance

Nil

Strategic Implications

The proposal aligns with the following objective within the Strategic Community Plan 2021 – 2031:

7 ~ A well governed and managed City that makes informed decisions, provides strong community leadership and valued customer focused services
7.1 - Clear direction and decision making

Risk Appetite Statement

In pursuit of strategic objective goal 7, we will accept a Medium level of risk as the City balances the capacity of the community to fund services through robust cost-benefit analysis and pursues evidence-based decision making to be effective stewards of the Council and City for future generations.

Risk Management Considerations

Risk Title	Risk Rating
CO-C01 Compliance Framework	Medium
Accountability	Action Planning Option
Executive Manager Governance and Legal	Manage

Policy Implications

The findings and recommendations as a result of completing an audit may recommend development of policy and procedures (or review) to improve internal controls.

Financial Implications

The cost of implementing the Plan will be met through the City's operating budget for contracted internal audit services.

Voting Requirements

Simple Majority

Recommendation

That Council ACCEPTS the recommendation of the Audit and Risk Committee and ADOPTS the revised updated Strategic 3 Year Internal Audit Plan (2022/23-2024/25) as set out in Attachment 1.

Preparation of the Strategic 3 Year Internal Audit Plan

Introduction

The Institute of Internal Auditors' International Professional Practices Framework requires Internal Audit to produce a risk-based plan, which takes into account the City of Wanneroo's ("City") risk management framework, knowledge of operations and internal controls derived from previous audits, its strategic objectives and priorities and the views of the City's Management, the Audit & Risk Committee ("ARC") and Council.

The objective of the Strategic 3 year and annual rolling plan is to direct audit resources in an efficient manner to provide assurance that key risks are being managed effectively.

This document addresses these requirements by setting out a proposed and detailed Annual Internal Audit Plan for 2022/23 year and to realign the Strategic 3 Year Internal Audit Rolling Plan (the "Plan") for the period 1 July 2022 to 30 June 2025, where applicable, based on the changes on the Strategic, Corporate and Operational Risk Registers and in consultation with Senior Management for the consideration of the ARC.

This Annual Detailed and Rolling 3-year Internal Audit Plan is required to be reviewed and updated on an annual basis or when considered necessary by the ARC to ensure that Internal Audit Reviews are still aligned with any critical strategic, corporate and operational risks identified within the City.

The nature, timing and extent of resources necessary to perform the engagements should be taken into account.

Role of Internal Audit Services

The aim of the City's Internal Audit Service ("Internal Audit") is to assist the ARC and the City's Management to manage risk by providing an innovative, responsive, proactive and effective value-added Internal Audit function. The objectives of Internal Audit are to:

- Provide independent consideration of risks, controls and processes across the City;
- Promote mechanisms that encourage a culture, which is conscious of risk, control and processes; and
- Assist and support the City in its drive for process improvement.

These objectives are achieved by:

- Assisting Management in evaluating their processes for identifying, assessing and managing the key operational, financial and compliance risks of the City;
- Assisting Management in evaluating the effectiveness of internal control systems, including compliance with internal policies and their alignment with legislation and regulation;
- Recommending improvements in efficiency and effectiveness to the internal control systems established by Management;
- Keeping abreast of new developments affecting the City's activities and in matters affecting Internal Audit; and
- Being responsive to the City's changing needs and striving for continuous improvement.

Our internal audit activities typically include amongst others the following as guided by the Local Government Operational Guidelines Number 09 – Revised September 2013:

- the review of the internal control structure, monitoring the operations of the information system and internal controls and providing recommendations for improvements;
- a risk assessment with the intention of minimising exposure to all forms of risk on the local government;
- examination of financial and operating information that includes detailed testing of transactions, balances and procedures;
- a review of the efficiency and effectiveness of operations and services including non-financial controls of a local government;
- a review of compliance with management policies and directives and any other internal requirements;
- review of the annual Compliance Audit Return, if requested;

Preparation of the Strategic 3 Year Internal Audit Plan

- assist in the Chief Executive Officer's reviews of the appropriateness and effectiveness of the local government's systems and procedures in regard to risk management, internal control and legislative compliance to ensure the CEO's compliance with Regulation 17 of the Local Government (Audit) Regulations 1996 within every 3 years; and
- other specific tasks requested by management and the ARC.

Review of the current year's Internal audit Plan as well as the Strategic 3 Year Rolling Internal Audit Plan

The current Internal Audit Plan, Strategic 3 Year Rolling and next year's Annual Internal Audit Plan was reviewed by William Buck in conjunction with the City's In-house Internal Audit Function and Management through performance of the following steps:

- The previous 3 year rolling plan presented to the ARC being considered in this plan's formulation;
- The latest updated Strategic and Corporate risk registers were reviewed to determine if there were any changes in the updated risk registers;
- Revising the current plan in accordance with emerging risks (for example: COVID-19, etc) as well as reprioritising reviews in the 2022/23 year due to changes in Management's priorities.
- The already identified auditable areas identified in the Previous Rolling 3-year Internal Audit Plan were then reviewed by the risk rating along with consideration of other factors such as regulatory requirements and the date of last review, to ensure that the priority areas are still aligned within the previous Strategic Internal Audit Plan.

There are a number of risks which are not tested or tested to a limited extend within the Plan, as set out on page 19. This can arise for a number of reasons such as risks do not lend themselves to the provision of assurance by internal audit, the risk rating may be low, assurance is provided by other parties or there is insufficient resource for internal audit to review them.

The 10 Strategic and 20 Corporate Risks identified in accordance with the City's risk registers are covered to a certain extend in the following reviews:

Risk	RISK DESCRIPTION	Inherent Risk Rating	RRR	Reviews
Strategic Risks				
ST-G09 Long Term Financial Plan	Ineffectiveness in long term financial planning leads to a poor financial position including efficiency and timing of service and asset provision impacting the City's sustainability.	Moderate	Medium	1. Finance Review 2. Long Term Planning & Budgeting
ST-S04 Integrated Infrastructure & Utility Planning	Infrastructure is not delivered in a timely and coordinated way leading to issues with access and service levels and/or additional expenses. (Not City)	Moderate	Low	1. Long Term Planning & Budgeting
ST-S05 Water Availability	Ineffective City preparedness for potential reduced water availability impacts business and community service delivery.	Moderate	Medium	1. Land Development and Strategic Land Use Planning and Environment
ST-S06 Climate Change	Lack of preparedness to respond and adapt to climate change impacts leading to community	High	Medium	1. Land Development and Strategic Land Use Planning and Environment

Preparation of the Strategic 3 Year Internal Audit Plan

Risk	RISK DESCRIPTION	Inherent Risk Rating	RRR	Reviews
	and financial implications.			
ST-S12 Economic Growth	Ineffective economic development intervention results in limited opportunity to create local employment opportunities impacting on the City's vision to create sustainable communities.	Moderate	Medium	1. Stakeholder Relationship Management 2. Land Development and Strategic Land Use Planning and Environment
ST-S20 Strategic Community Plan	Inadequate strategic community planning results in misaligned strategies between the City and the Community.	Moderate	Low	1. Long Term Planning & Budgeting
ST-S23 Stakeholder Relationships	Ineffective engagement with stakeholders leads to, lost opportunities and negatively impacts on the quality of the relationship.	Moderate	Low	1. Customer Relationship and Complaints Management 2. Stakeholder Relationship Management
ST-S24 Strategic Asset Management	Inadequate asset management processes and systems impacts on the City's ability to manage assets strategically.	Moderate	Medium	1. Land Development and Strategic Land Use Planning and Environment 2. Property Management 3. Strategic Asset Management
ST-S25 Legislative Reform or Changes	Lack of preparedness to accommodate Legislative reform changes impacts on the City's ability to deliver the CBP, stakeholder commitments, operational effectiveness requires diversion of resources from current priorities and activities.	Moderate	Medium	1. Delegated Authority 2. Compliance Annual Return Review ("CAR") 3. Regulation 17 review
ST-S26 Resilient and Productive Communities	Lack of planning to deliver healthy, safe, vibrant and connected communities impacts on the ability of the Community to have productive lives and (respond) recover from adversity.	Moderate	Medium	No reviews currently scheduled however the following suggested for future considerations: ▪ Economic Development; and ▪ Community and Place Management.
Corporate Risks				
CO-O02 Technological Advancement	Ineffective maximisation of technological opportunities leads to inefficient systems impacting on service planning, delivery and productivity.	Moderate	Medium	1. Payroll Review 2. Information, Communication and Technology 3. Finance Review 4. Records Management
CO-O03 Strategic Land	A lack of strategic land management results in lost opportunities and leads to a poor return on investment.	Moderate	Medium	1. Land Development & Contributions

Preparation of the Strategic 3 Year Internal Audit Plan

Risk	RISK DESCRIPTION	Inherent Risk Rating	RRR	Reviews
CO-O06 Data and Information Management	Ineffective data collection and management of information leads to data analysis that results in inefficient service delivery.	High	Medium	1. Records Management 2. Information, Communication and Technology
CO-O07 Purchasing	Non-compliance with the City's Purchasing Policy and Procurement framework leads to potential reputational impacts and inability to demonstrate achievement of delivering on value for money outcomes.	Moderate	Low	1. Procurement & Contract Management
CO-O08 Contract Management	Ineffective Contract Management leads to potential financial and other business impacts, project delays and possible organisational reputational damage.	Moderate	Low	1. Procurement & Contract Management
CO-O09 Integrated Reporting	Insufficient integrated reporting processes/systems leads to poor decision making and impacts the delivery of SCP & CBP.	Moderate	Medium	1. Long Term Planning & Budgeting
CO-O10 Workforce Planning	Ineffective Workforce Planning, Long Term Financial Planning and Corporate Business Planning are not aligned may lead to negative impacts on delivery of service delivery and corporate projects.	Moderate	Medium	1. <i>People and Culture Review (People and Culture excluding payroll)</i>
CO-O11 People Management	The City's people management is inconsistent resulting in potential industrial action and impacting on workplace morale and service delivery.	Low	Low	1. <i>People and Culture Review (People and Culture excluding payroll)</i>
CO-O12 Fraud and Misconduct	Prevention, detection and control processes and systems are insufficient which provide the opportunity for Fraud & Misconduct to occur, leading to reputational damage, financial loss and legal consequences.	Moderate	Medium	1. Regulation 17 review 2. Fraud Risk Assessment Review 3. International Organization for Standardisation Review (ISO) Review <i>(All IA reviews will consider possible fraud in the specific topic being tested)</i>
CO-O13 Workplace Health and Safety	Ineffective workplace health and safety systems and training leads to lack of safety awareness and control, resulting in increased risk of injury and possible breach of OHS obligations.	Moderate	Medium	1. Occupational Health and Safety 2. International Organization for Standardisation Review (ISO) Review

Preparation of the Strategic 3 Year Internal Audit Plan

Risk	RISK DESCRIPTION	Inherent Risk Rating	RRR	Reviews
CO-O15 Project Management	Ineffective project management leads to delays in project delivery that negatively impacts the City's Long Term Financial Plan and asset management.	Moderate	Low	1. Project Management
CO-O16 Risk Management	Ineffective risk management system results in poor decision making impacting reputation, finances, services and infrastructure.	Moderate	Low	1. Business Continuity Planning and Disaster Recovery and Crisis Management Plan 2. Regulation 17 review 3. Fraud Risk Assessment 4. International Organization for Standardisation Review (ISO) Review
CO-O17 Financial Management	Ineffective financial management leads to poor reporting and budgeting that impacts sustainability for long term financial planning.	Moderate	Medium	1. Marmion Road Duplication Project 2. Approval Services 3. Finance Review 4. Fraud Risk Assessment
CO-C01 Compliance Framework	The City's compliance framework is ineffective resulting in increased non compliance impacting on the City's reputation and exposure to Legal consequence.	Moderate	Low	1. Marmion Road Duplication Project 2. Approval Services 3. Aquatic Centre 4. Emergency Services Levy 5. Regulation 17 review 6. Delegated Authority 7. Swimming Pool Inspections 8. Compliance Annual Return Review ("CAR") 9. International Organization for Standardisation Review (ISO) Review
O-O18 Inherited Asset	Ineffective controls and planning when approving assets impacts the City's ability to manage and maintain those assets when inherited by the City.	High	Medium	1. Strategic Asset Management
CO-O21 Competitive Service Costing	Lack of understanding of service cost limits ability to improve efficiency and raise fees.	High	Medium	1. Marmion Road Duplication Project 2. Approval Services 3. Aquatic Centre 4. Customer Relationship including Complaints and Stakeholder Relationship Management 5. Finance Review 6. Land Development and Strategic Land Use Planning and Environment
CO-O22 Environmental Management	Ineffective environmental management systems leads to lack of environmental awareness, control and possible breach of environmental obligations resulting in financial losses, irreparable damage to	High	Medium	1. Environmental Management 2. International Organization for Standardisation Review (ISO) Review

Preparation of the Strategic 3 Year Internal Audit Plan

Risk	RISK DESCRIPTION	Inherent Risk Rating	RRR	Reviews
	the environment and the City's reputation.			
CO-O23 Safety of Community	Ineffective management of Community Safety (within the City's jurisdiction) leads to increase in incidents resulting in injury or loss of life, community dissatisfaction, financial losses and liability exposure.	Moderate	Medium	1. Aquatic Centre 2. Emergency Services Levy 3. Events Management 4. Swimming Pool Inspections 5. International Organization for Standardisation Review (ISO) Review
CO-O25 System Security	Inadequate ICT security leads to significant business interruption.	High	Medium	1. Information, Communication and Technology 2. Records Management 3. International Organization for Standardisation Review (ISO) Review
CO-O26 Heritage	Lack of appropriate identification, planning and land development management leads to damage or loss of Aboriginal and/or European Heritage.	High	Medium	1. Environmental Management 2. Land Development and Strategic Land Use Planning and Environment

We have also reviewed the current operational risk registers for each division and based on the current registers and based on these registers, we did not identify any additional moderate the high rated risk which cannot be linked to any of the already identified strategic and corporate risks.

Strategic 3 Year Rolling and Annual Internal Audit Plan

The Proposed Internal Audit Reviews (2021/22 to 2023/24) are as follow:

Other administrative functions which include the review and updating of the Audit and Risk Committee and Internal Audit Charters, Terms of References, the Internal Audit Methodology and Internal Audit Procedural Manuals are performed by the City In-house Internal Audit Function (Audit and Assurance Officer). Ad-hoc internal audits are also performed by either the City In-house Internal Audit Function or contracted firm based on requests from Management or the Audit and Risk Committee.

Internal Audit aims to be responsive to the City's needs, given the environment of change that exists both within and external to the City. Consequently, the Strategic 3 Year Rolling and Annual Internal Audit Plan are reviewed each year to meet the changing needs of the City and any proposed changes will be re-presented.

The impact of newly identified corporate and strategic risks will be considered throughout the financial year and the annual internal audit plan will be amended if required.

Indicative Scopes for the 2022/23

Set out within the table below is the 2022/23 Annual Audit Plan with indicative scopes for the proposed reviews. The scopes will be further refined through discussion with Management during the scoping process.

Area of Review	Timing & Status	Indicative Scope
Audit Log <i>(Already reported to the ARC in September 2021)</i>	September 2022	Updating and following up of outstanding audit log items.
Approval Services	October 2022	<ul style="list-style-type: none"> ▪ Review approval, including following up of conditional approval, processes of all Building & Planning applications, including: ▪ Planning development applications; ▪ Subdivisions of land; ▪ Detailed area plans; ▪ Structure plans and amendments; ▪ Licences, Permits and Levies ▪ Variations; ▪ Service Authority Approvals; and ▪ Road Closure Applications.
Regulation 17 Review	November 2022	<p>To review the following:</p> <ul style="list-style-type: none"> ▪ Internal policies, procedures and processes to regularly assess the appropriateness, effectiveness and efficiency of internal controls. ▪ A risk management framework which is supported by appropriate policies, procedures, processes and systems ensuring that the strategic, corporate and operational risks are timely identified, systematically evaluated, treated, regularly reviewed and reported. ▪ Processes to ensure that legislative compliance requirements are timely identified and roles and responsibilities for managing compliance are clearly defined and communicated. ▪ Processes to ensure compliance with internal control, risk management and legislative compliance. ▪ Reporting structures to ensure instances of potential and actual non-compliance with Legislation are escalated to management, the Audit and Risk Committee and Council. ▪ Management solutions identified in the previous Internal Audit Report on Regulation 17.
Compliance Annual Return	January 2023	<ul style="list-style-type: none"> ▪ Consideration of applicable local government legislation and regulations relating to the CAR; ▪ Consideration of processes used to complete the CAR; and ▪ Limited risk-based sample testing across a selection of applicable CAR questions.
Fraud Risk Assessment	February 2023	<p>The objective of the Fraud Risk Assessment is to determine the level of maturity and identify gaps in fraud management and prevention processes.</p> <p>The assessment will be structured around the following four key pillars:</p> <ol style="list-style-type: none"> 1. Prevention. Prevention activities are the management processes and activities designed to address the fraud

Indicative Scopes for the 2022/23

Area of Review	Timing & Status	Indicative Scope
		<p>risks within your organisation that are specifically designed to reduce the risk of fraud occurring.</p> <p>2. Detection. Detection activities are the management processes and activities designed to identify fraudulent transactions or events that have occurred within your organisation.</p> <p>3. Resolution. This area involves the process in place within your organisation to respond to fraudulent activities once they have been identified.</p> <p>4. Monitoring. These are the processes undertaken by management to ensure that the fraud control environment is appropriately designed and operating in accordance with that design.</p> <ul style="list-style-type: none"> ▪ The assessment involves the review of current framework against elements of the fraud control standard that collectively support each of the pillars described above.
Audit Log	March 2023	Updating and following up of outstanding audit log items.
People & Culture	May/June 2023	<ul style="list-style-type: none"> ▪ Workforce planning; ▪ Learning & Development; ▪ Grievance and complaints; ▪ Joiners, leavers, performance appraisal, and increments; ▪ Amendments to standing employee data; and ▪ Leave management.

Other Risk Areas

Set out below are the risks not explicitly covered within the strategic internal audit plan detailed.

Risk	Risk Title	Inherent Risk Rating	Reason for Non-Inclusion
Strategic Risks			
ST-S05	Water Availability	Moderate	Limited assurance could be provided
ST-S06	Climate Change	Moderate	Limited assurance could be provided
ST-S12	Economic Growth	Moderate	Limited assurance could be provided
ST-S23	Stakeholder Relationships	Moderate	Relatively low rating

4.13 Strategic Risk Register Update

File Ref: 2286V02 – 22/395191
 Responsible Officer: Executive Manager Governance & Legal
 Attachments: Nil

Issue

To consider the recommendation of the Audit and Risk Committee to endorse the City's updated Strategic Risk profile.

Background

In accordance with the Term of Reference of the Audit and Risk Committee, the Committee is to review and oversee progress and updates on all Strategic Risks biannually and thereafter provide to Council for adoption of the Strategic Risk Profile. The Strategic Risk Register and risk profile was presented to the Audit and Risk Committee on 22 November 2022 for consideration. The Audit and Risk Committee recommended Council endorse the City's updated Strategic risk profile.

Detail

The City's current Strategic Risk Profile identifies 10 strategic risks that are monitored by the Audit and Risk Committee and with the profile reported to Council for endorsement. The Strategic Risk Registers has been updated to include new or reviewed preventative and mitigating controls, taking into account the challenges the City had experienced during COVID-19 pandemic and other external factors. As a result of the review the respective risk ratings have not changed.

Consultation

The Audit and Risk Committee reviews the City's Strategic Risk Register biannually.

Comment

The updated Strategic risks were presented to the Audit and Risk Committee on 22 November 2023. The Audit and Risk Committee provided feedback for the City to also consider addressing the risk of excess water availability which the City will review and discuss at the next scheduled Strategic Risk Review session. The Audit and Risk Committee recommended for Council to endorse the City's Strategic risk profile as set out below:

Strategic Risks

Risk Title	Risk Description	Risk Rating
ST-G09 Long Term Financial Planning	Ineffectiveness in long term financial planning leads to a poor financial position including efficiency and timing of service and asset provision impacting the City's sustainability	Medium

Risk Title	Risk Description	Risk Rating
ST-S04 Integrated Infrastructure & Utility Planning	Infrastructure is not delivered in a timely and coordinated way leading to issues with access and service levels and/or additional expenses (Not City of Wanneroo)	Low
ST-S05 Water Availability	Ineffective City preparedness for potential reduced water availability impacts business and community service delivery	Medium
ST-S06 Climate Change	Lack of preparedness to respond and adapt to climate change impacts leading to community and financial implications	Medium
ST-S12 Economic Growth	Ineffective economic development intervention results in limited opportunity to create local employment opportunities impacting on the City's vision to create sustainable communities	Medium
ST-S20 Strategic Community Plan	Inadequate strategic community planning results in misaligned strategies between the City and the Community	Low
ST-S23 Stakeholder Relationships	Ineffective engagement with stakeholders leads to, lost opportunities and negatively impacts on the quality of the relationship	Low
ST-S24 Strategic Asset Management	Inadequate asset management processes and systems impacts on the City's ability to manage assets strategically	Medium
ST-S25 Legislative Reform or changes	Lack of preparedness to accommodate Legislative reform impacts on the City's ability to deliver: the CBP, stakeholder commitments and operational effectiveness which may then require diversion of resources from current priorities and activities	Medium
ST-S26 Resilient and Productive Communities	Lack of planning to deliver healthy, safe, vibrant and connected communities impacts on the ability of the Community to have productive lives and (respond) recover from adversity.	Medium

Statutory Compliance

Implementation of Risk Management at the Strategic and Operational levels will assist the City to embed effective systems and processes for managing risk in line with the requirements of the *Local Government (Audit) Regulations 1996*.

Strategic Implications

The proposal aligns with the following objective within the Strategic Community Plan 2021 – 2031:

7 ~ A well governed and managed City that makes informed decisions, provides strong community leadership and valued customer focused services

7.1 - Clear direction and decision making

Risk Management Considerations

Risk Title	Risk Rating
CO-O16 Risk Management	Low
Accountability	Action Planning Option
Executive Manager Governance and Legal	Manage

The above risks relating to the issue contained within this report have been identified and considered within the City's corporate risk register. Action plans have been developed to manage this risk to support existing management systems.

Policy Implications

Nil

Financial Implications

Nil

Voting Requirements

Simple Majority

Recommendation

That Council ACCEPTS the recommendation of the Audit and Risk Committee and ENDORSES the Strategic Risk Profile as set out in the report.

4.14 Extension of Review Dates for Council Policies

File Ref: 26321V012 – 22/440575
Responsible Officer: Executive Manager Governance & Legal
Attachments: Nil

Issue

To consider extending the review dates for a number of Council policies.

Background

Council policies reflect Council's position on key strategic objectives which are operationalised by Administration through the CEO. They are intended to limit discretion in dealing with particular matters, ensure decisions are made consistently and compliantly and are equitable and impartial.

Council policies are to be reviewed regularly to ensure compliance with legislation, continued alignment with the adopted Strategic Community Plan and the City's requirements and that they remain a sound and effective internal control to minimise risk.

Detail

Policy documents, at the adoption stage, are assigned a review date however in some cases, the deadline for a review may need to be postponed due to factors such as external stakeholder consultation, changes in the environment, development or finalisation of other supporting documents, or are required to align with State planning documents that are being reviewed, amongst other things.

An extension is requested for the review date of the following policies:

1. Crossover Subsidy Policy

It is proposed that the existing Crossover Subsidy Policy will require extensive amendment to reflect the nature of the proposed Crossover Program currently being considered by the City.

It is requested that the policy review period be extended to 30 June 2023 to provide sufficient time to consider the draft Policy in the context of the updated crossover subsidy cost updates, new crossover application fees and the finalised crossover application and inspection processes.

2. Asset Management Policy

The review of the Asset Management Policy is in progress and finalisation is pending feedback from key stakeholders. Council is requested to extend the review period to 30 April 2023.

3. Execution of Documents Policy

This policy requires further stakeholder consultation to ensure it meets legislative and organisational requirements. An extension to the review date is therefore requested to 31 March 2023.

4. Legal Representation and Costs Indemnification Policy

To ensure that this policy provides effective guidance to the City, further consultation with stakeholders and consideration of legal impacts is required and an extension to the review date is requested to 31 March 2023. This policy continues to align with the

Department of Local Government, Sport and Cultural Industries and there is no statutory compliance risk to maintaining the existing policy.

5. Attendance at Events Policy

An extension to the review date of this policy is requested to 31 March 2023 as it requires further stakeholder consultation to ensure it meets all legislative requirements.

6. Purchasing Policy

An extension to the review date of the City's Purchasing Policy is requested to 31 March 2023. The Policy requires further research particularly in terms of achieving social and sustainable procurement objectives.

The Policy currently aligns to the standard WALGA template and there is no statutory compliance risk to maintaining the existing policy.

From time to time, legislative changes require that Council policies are amended prior to their review date. Due to legislative changes, the following policies have been amended:

1. Council Members Fees, Allowances, Reimbursements and Benefits Policy

This Policy provides that child care expenses incurred because of a Council Members attendance at a Council meeting or a meeting of a committee of which he or she is also a member may be reimbursed. Changes to the Administration Regulations now allow for a reimbursement of child care costs relating to the Council Members attendance at the Council Member Essentials mandatory training.

Extract: "(c) child care and travel costs incurred by a council member in completing the training required by section 5.126(1)."

This change comes into effect immediately and the policy has been updated accordingly. Administration notes however, that this policy is currently due for review. Due to staff movements and other resource factors, Council is requested to extend the review date to 30 June 2023.

2. Council Members Continuing Professional Development Policy

The *Local Government Act 1995* requires that Council Members complete a mandatory course of training titled "Council Member Essentials". However Council Members are exempt from the requirement to undertake this training if in the previous five years, they have completed those courses identified in Regulation 36(1)(a) of the *Local Government (Administration) Regulations 1996*.

The recent gazettal of the *Local Government (Administration) Amendment Regulations 2022* has provided for additional courses to be added to this list. The courses are titled LGA50220 Diploma of Local Government - Elected Member and LGASS00007 Elected Member.

The Council Members Continuing Professional Development Policy has been amended to include reference to these two courses. To note, Administration is currently undertaking a more extensive review as a result of comments received from Council Members at the Forum on 21 November 2022.

Consultation

Consultation will be undertaken with all relevant stakeholders.

Comment

Effective policy making is at the centre of good governance. Clear direction facilitates good decision making at an operational level that is consistent with Council's position and that is transparent to the local community.

To effectively review policies, there may be occasions where an extension to a review date is required to ensure that the review process considers all relevant matters, does not duplicate other documents and aligns with statutory requirements.

Statutory Compliance

Nil

Strategic Implications

The proposal aligns with the following objective within the Strategic Community Plan 2021 – 2031:

7 ~ A well governed and managed City that makes informed decisions, provides strong community leadership and valued customer focused services

7.1 - Clear direction and decision making

Risk Appetite Statement

In pursuit of strategic objective goal 7, we will accept a Medium level of risk as the City balances the capacity of the community to fund services through robust cost-benefit analysis and pursues evidence-based decision making to be effective stewards of the Council and City for future generations.

Risk Management Considerations

Risk Title	Risk Rating
CO-C01 Compliance Framework	Low
Accountability	Action Planning Option
Executive Manager Governance & Legal	Manage

The above risk relating to the issue contained within this report has been identified and considered within the City's Corporate risk register. The review of the policies as set out in this report will support existing management systems.

Policy Implications

Policies are developed and reviewed effectively to ensure good governance.

Financial Implications

Nil

Voting Requirements

Simple Majority

Recommendation

That Council:-
